

DIRECTIONS WHILE DECLARATION OF EMERGENCY DATED 29 APRIL 2021 IS IN FORCE

Sections 263, 264 and 268(4) of the *Corrective Services Act 2006*

Today, I, Peter Martin APM, Commissioner, Queensland Corrective Services (**QCS**), with the approval of the Minister for Police and Corrective Services and Minister for Fire and Emergency Services, declared that an emergency exists in relation to all corrective services facilities for the period commencing on 29 April 2021 and expiring at 11:59pm on 29 June 2021 (the **Declaration**).

The Declaration was made following extensive consultation with the Chief Health Officer, Queensland Health and the State Health Emergency Coordination Centre who believed it was necessary to make the Declaration to assist in containing, or to respond to, the spread of COVID-19 within corrective services facilities and the wider community.

On 23 April 2021, the Western Australia Premier announced a three-day lockdown of the Perth Local Government Areas and the Peel Region effective from 12:01am 24 April 2021 until 12.01am on 27 April 2021 following two COVID-19 positive cases (the **WA Lockdown**). It was also announced that one of the positive COVID-19 cases travelled to Melbourne prior to receiving their positive test result.

Following the lifting of the WA Lockdown at 12.01am on 27 April 2021, Queensland Health declared the Melbourne airport and a number of locations in the Perth Local Government Areas and Peel Region as **Interstate exposure sites**.

Today, in accordance with the advice of the SHECC, Chief Health Officer and Queensland Health that the risk to prisoners from persons who have been in an **Interstate exposure site** or a **Named Location** remains, and recognising that the safety, welfare and human rights of prisoners and staff are paramount considerations for QCS, I direct as follows:

1. any **Staff Member** who has been in an **Interstate exposure site**, a **Named Location** or identified as a **Close Contact** must:
 - a. immediately inform their direct supervisor in writing and not attend at their place of work (whether that place is a corrective services facility or otherwise);
 - b. undergo a test for COVID-19;
 - c. comply with all directions given by their direct supervisor and Queensland Health in relation to their COVID-19 test and self-isolation, quarantine requirements or mask wearing requirements;
2. any person who is not a **Staff Member** and was:
 - a. in an **Interstate exposure site** will not be allowed to enter a corrective services facility unless and until 14 days have passed since they were at the exposure site;
 - b. in a **Named Location** or identified as a **Close Contact**, must provide evidence that they have complied with all Queensland Health directions in relation to testing for COVID-19, self-isolation and quarantine requirements and have been cleared by Queensland Health before entering a corrective services facility.
3. the wearing of face masks as approved personal protective equipment is strongly

- encouraged for all Staff Members and visitors to any corrective services facility, including when transporting a prisoner, in circumstances where social distancing is not possible, or otherwise as directed by Queensland Health personnel;
4. the wearing of face masks as approved personal protective equipment is mandatory for all prisoners who have COVID-19 symptoms, as determined by Queensland Health personnel, when they are required to leave their cells including while being transported outside a corrective services facility;
 5. the following QCS policies will apply to all corrective services facilities:
 - a. 'Managing new admission reception prisoners and COVID-19 isolation'
 - b. 'Managing 'at risk' employees'; and
 - c. 'Managing Vulnerable Prisoners';
 6. For the purposes of these directions:
 - a. **Staff Member** has the meaning given in the CS Act;
 - b. a **Close Contact** is a person who has been identified as:
 - ii. a close contact of a person diagnosed with COVID-19 by a Queensland public health officer; or
 - iii. a close contact or casual contact of a person diagnosed with COVID-19 by an interstate government authority;
 - c. a **Named Location** is a place for which an active contact tracing alert has been published on the Queensland Health website, provided that the individual was in the Named Location during the times specified in the alert;
 - d. an **Interstate exposure site** means an interstate site for which an alert has been published on the Queensland Health website, provided that the individual was at the Interstate exposure site during the times specified in the alert.

These directions are made pursuant to sections 263(2), 264 and 268(4) of the *Corrective Services Act 2006 (CS Act)*. They have been made in consultation with Queensland Health, the Chief Health Officer and the State Health Emergency Coordination Centre and in accordance with the approach taken by the Queensland Government to prevent the transmission of COVID-19.

Given the high risks to a vulnerable prison population if COVID-19 were to enter a corrective services facility, and the medical advice received, I consider that any impact on the human rights of prisoners, staff, family members or any other person as a result of these directions is demonstrably justifiable.

These directions will take effect from immediately upon signing, revoking and replacing the previous directions made by me pursuant to sections 263(2) and 268(4) of the CS Act on 24 April 2021. These directions will remain in place until revoked or replaced by me.

Peter Martin APM

Commissioner, Queensland Corrective Services

29 April 2021
