Department of Justice and Attorney-General
3 October 2014

**DECLARATION OF A SCHEME UNDER THE
*ELECTRICAL SAFETY ACT 2002***

I, BRIAN RICHARDSON, Director Equipment Safety and Licensing, Department of Justice and Attorney-General, being the delegate of the regulator acting under Part 2A, Division 3, Section 48J of the *Electrical Safety Act 2002*, hereby declare Global-Mark Pty Ltd, trading as Global-Mark, ABN no. 55 108 087 654 as a Recognised External Certification Scheme (RECS).

The establishment of the RECS is effective from the date of publication of this notice in the Queensland Gazette and is for a period of 5 years.

In accordance with the *Electrical Safety Act 2002*, Part 2A, Division 3, Section 48J and the *Electrical Safety Regulation 2013* – Part 7 In-scope electrical equipment, Division 8 Recognised external certification schemes – I, Brian Richardson Director Equipment Safety and Licensing, Department of Justice and Attorney-General, being the delegate of the regulator impose the following conditions on the declared scheme:

Conditions:

1. All certificates issued under the Electrical Equipment Safety System (EESS) by the Recognised External Certification Scheme (RECS) shall be in accordance with these conditions, the Queensland *Electrical Safety Act 2002*, *Electrical Safety Regulation 2013*, and the Equipment Safety Rules as current at the time of issuing the certificate and with the RECS adhering to any rulings, interpretations or other guidance material issued by the regulator or as published on the Electrical Regulatory Authorities Council (ERAC) website at www.erac.gov.au.
2. The RECS shall not authorise or otherwise permit persons to conduct assessments on certificate applications, or make determinations to issue certificates if those person's details were not originally supplied with the application to become a RECS and accepted, or whose details were subsequently supplied to and accepted as suitable by the regulator.
3. The RECS will not engage persons to assess applications for certification, or decide on certification, or have any other involvement in processes that relate to assessment or decisions, of applications for electrical equipment certification where those persons conduct other work for the company who makes (or has made for them by others on their behalf) application for certification of electrical equipment to the RECS. Such other work includes but is not limited to compiling documents for application for certification, testing of the equipment or supervising or training of people conducting such testing.
4. The RECS shall not engage consultants or similar parties to conduct assessments of certification applications, training of personnel or other functions relating to certification of equipment process of the RECS scheme if that consultant or similar party makes applications for certification of equipment, on behalf of any applicant, to that RECS.
5. During the period of recognition as a RECS, the RECS shall notify the regulator of any material change related to the information supplied with the related application to become a RECS within two weeks of any such change. Such change includes but is not limited to: change of ownership, change of directors, change of senior officers of company, change of personnel involved in certification processes as a RECS, relocation of business premises or places where certification processes are conducted, changes to procedures.
6. The RECS shall allow the regulator access to the RECS within 3 working days of a request by the regulator, including participating in random and/or scheduled auditing of files by the regulator. Such access may include making available files, the staff involved in the assessment of an application for certification, the staff involved in making decisions to issue a certificate, making available the physical location where assessment and decisions for certification occur and all records and documentation relating to any certificate or the process of assessing and issuing of certificates.
7. All certificates issued will be in accordance with the requirements of the Equipment Safety Rules and based on test reports that meet the requirements of the Equipment Safety Rules unless otherwise agreed to by the Regulator. The RECS shall maintain suitable records of the equipment certified to be able to verify this condition.
8. If a certificate is issued, the RECS shall provided written documentation of the details of certification to the applicant related to that certificate. If the certification status changes the RECS shall give written documentation to the certificate holder of the changed certification status.

9. The RECS shall execute the Electrical Equipment safety system (EESS) database – Recognised External Certifier Access Deed and ensure at least one appropriate Staff member executes the Electrical Equipment safety system (EESS) database – Recognised External Certifier Deed of Acknowledgment (named Users). Unless otherwise agreed to by the regulator the RECS shall ensure the relevant equipment certification details are uploaded onto the certification database within three days of issue of the certificate.
10. The RECS shall cancel, suspend or amend any details relating to a certificate within three days of written advice from the regulator. The RECS shall update the certificate details on the certification database to align with the status of the certificate within one day of making the required change.
11. The RECS shall not extend a certificate beyond the initial expiry date without evidence of compliance to the relevant standard as in force at the time of extension unless written exemption to this requirement is given by the regulator, the duration of extension is agreed to by the regulator.
12. Where the RECS issues an additional certificate or modification to an existing certificate to include additional equipment on that certificate the RECS shall ensure the equipment on the certificate falls within the definition of ‘family’ as indicated with the Equipment Safety Rules, and shall ensure the additional equipment listed on the certificate is compliant to the relevant standard listed on the existing certificate.
13. The RECS shall inform the regulator within 5 days, in a form acceptable to the regulator, of any applications for certification that were refused by the RECS.
14. The RECS shall inform the regulator, in a form acceptable to the regulator, within five days of becoming aware of equipment certified by the RECS that no longer meets the conditions of the issued certificate.
15. The RECS shall only issue certificates identified as being a RECS issued certificate for equipment within the scope of the RECS accreditation. If any accreditation status changes (either RECS status or status of accreditation listed in the application for RECS) any further certificates issued will only be within the scope of the changed accreditation. The RECS will ensure any certificates issued by the RECS that relate to electrical equipment that is not in the scope of the RECS recognition will be clearly identified as not being a certificate issued under the regulators recognition of the RECS and details of the certificate will not be placed on the certification database.
16. A RECS shall not indicate there is authorisation of the use of the RCM mark on electrical equipment where that use is not consistent with the requirements of AS/NZS 4417 standards and electrical safety legislative requirements.
17. The RECS shall not make statements or provide advice that may be considered to bring the EESS into disrepute or otherwise cause harm to the implementation and application of the EESS. The RECS shall not offer their ‘interpretation’ of the requirements of the equipment safety rules or requirements for certification issued by the RECS that are inconsistent with the interpretations given by the regulator or published at www.erac.gov.au. If any ‘interpretation’ of the Equipment Safety Rules or certification offered by a RECS is found to be inconsistent by the regulator the RECS will take immediate steps to rectify the information previously offered and will not continue to offer that ‘interpretation’.
18. The RECS shall not misrepresent their RECS accreditation or offer information in relation to the EESS and/or their accreditation as a RECS that may mislead persons in relation to the extent of acceptance of themselves or any other organisation by electrical safety regulators; recognition of certificates not within the scope of the RECS accreditation; recognition or endorsement of any other products or services offered by the RECS.
19. Unless the information obtained by a RECS from the regulator has been made public by the regulator, the RECS shall consider the information obtained from the regulator as confidential information and shall not disclose or use the information without the written consent of the regulator unless required by law.
20. The RECS shall not act as a consultant, or offer consultancy, or exclusively offer the services of a consultant or test facility. The only exceptions being the RECS may assist the applicant for certification by acting as an authorised representative to register the equipment to the responsible supplier; offering general information on electrical equipment safety requirements; details of requirements relating to the RECS process for application for certification; information on the various test facilities or consultants that the applicant may utilise to assist in their application process.
21. The RECS shall not specify particular consultants or test facilities that an applicant for a certificate of conformity or certificate of suitability must use. The RECS shall not indicate, intimate, suggest or otherwise recommend a particular consultant, testing facility or other person/company would be able to give a service that would cause the RECS to reduce the appropriate assessment and verification processes of the RECS. The RECS shall not engage in agreements or advertising of agreements or other activities that may be seen to compromise the independence and impartiality of the RECS in the performance of the RECS function.
22. The RECS shall inform the ESO without delay of any circumstances that may cause the RECS to not be able to perform its functions in accordance with the Equipment Safety Rules, these conditions and Queensland electrical safety legislative requirements.
23. The RECS shall make arrangements such that if the RECS ceases to trade all files relating to certificates issued as a REC are to be made available to the regulator.
24. These conditions do not in any way inhibit the regulator from exercising powers under the *Electrical Safety Act 2002* or *Electrical Safety Regulation 2013* to amend, revoke or vary conditions or to act on regulators own initiative to vary or impose new conditions. Any variations to the requirements of these conditions shall be in writing and shall form part of these conditions.
25. Disputes as to interpretations or application of the Queensland *Electrical Safety Act*, *Electrical Safety Regulation*, and the Equipment Safety Rules shall in the first instance be referred to the regulator for consideration.
26. The RECS shall maintain suitable professional indemnity, public liability and business continuity insurances commensurate with the level of risk of work undertaken.

*Petroleum and Gas (Production and Safety) Act 2004***CALL FOR TENDERS FOR AUTHORITIES TO PROSPECT NOTICE
NO. 02 2014****Short title**

1. This notice may be cited as the Call for Tenders for Authorities to Prospect Notice (No. 02) 2014 under the *Petroleum and Gas (Production and Safety) Act 2004* (the Act).

Notice of Tender for Authorities to Prospect [s.35 of the Act]

2. This call for tenders, pursuant to section 35 of the Act, is an invitation for tenders for an Authority to Prospect (ATP) for the two areas described as PLR2014-2-1 and PLR2014-2-2 in the Schedule to this Notice.

Tenders must be lodged with the Department of Natural Resources and Mines before **2.30 pm on Thursday, 29 January 2015**. All tenders must be addressed to the Project Director, Strategic Exploration Policy and hand delivered (by agent or in person) to the Mining and Petroleum Operations Tender Box, which is located at:

Level 16
61 Mary Street
Brisbane Queensland

All tenders should be marked Attn: Project Director – Strategic Exploration Policy.

Tenderers must use the approved form and submit all necessary documentation for evaluation as prescribed in the Call for Tenders for Authorities to Prospect document, available from the Department of Natural Resources and Mines' website www.dnrm.qld.gov.au. In order to download the document, all interested parties must register on the Queensland Government's Q Tender website. Tenderers must lodge a separate application form for each land area for which a tender is lodged.

Under Section 36 of the Act, a tender cannot be made after the closing time for the call, or for only part of the area of the proposed authority. Tenders lodged must also evidence that each party to the tender is an eligible person (as defined under Section 19 of the Act).

Under Section 37(d)(i) of the Act, an application must be accompanied by the statutory application fee (for each separate application form). The tenderer must provide a cheque for the amount of the prescribed application fee in Schedule 9 Part 1 of the *Petroleum and Gas (Production and Safety) Regulation 2004* (the Regulation) with its tender.

In addition a tender must be accompanied by an unconditional bank guarantee of at least 10 per cent of the cash bid (referred to below), which will constitute the Bid Security for the tenderer's satisfactory performance of its tender obligations, including as the preferred tenderer if its tender is successful in reaching preferred tenderer stage. A tender is not valid if it is not lodged with the required fee and bank guarantee (for each separate application form).

The special criteria for the tender areas, as per Section 43 of the Act, will be a cash bidding component. The applicant should state the cash bid (inclusive of GST) offered as consideration for the grant of the proposed Authority to Prospect in Australian dollars. An individual tender application can be made for either PLR2014-2-1 or PLR2014-2-2 or both areas. If a tenderer is bidding for multiple areas, a separate tender (including cash bid, application fee and separate bank guarantee) is to be provided for each area.

Sections 37 and 48 of the Act and Section 13 of the Regulation outline the requirements for making a tender for an ATP, particularly in relation to the requirements for an initial work program. Subject to the relinquishment requirements under the Act, the initial term and work program period for an ATP granted in relation to PLR2014-2-1 or PLR2014-2-2 is proposed to be six (6) years. Only those tenders that propose at least one well in the initial program period may be further considered for preferred tenderer status.

The granting of preferred tenderer status is subject to a competitive tendering process. Tenders will be assessed according to the following evaluation criteria

- Cash bid;
- Appropriateness of Work Program; and
- Capability and commitment / willingness to proceed.

In responding to each specific evaluation criteria explicitly stated in the call for tenders document, tenderers are expected to address each criteria by submitting their best possible application including providing a program of works of a sufficiently high quality to distinguish them from competitors. To ensure a fair and equitable evaluation process, the State will employ reasoned judgement as to the relative merit and appropriateness of tenders.

Further information relevant to the grant process, including requirements to make a valid tender application, the evaluation criteria and potential land use constraints, can be obtained in the Call for Tenders for Authorities to Prospect document, available from the Department of Natural Resources and Mines' (DNRM) website www.dnrm.qld.gov.au.

The Schedule to this Notice contains the description of the call for tender areas in graticular blocks and sub-blocks as provided on the Block Identification Map (BIM) Series B held by the DNRM. Pursuant to Section 99 of the Act, the Minister may decide excluded land for an authority to prospect.

Additional conditions for preferred tenderers*Bid Deposit*

The Preferred Tenderer, within 4 business day of being notified by the Minister for Natural Resources and Mines of being appointed as the Preferred Tenderer, must provide to the State a bank cheque (in Australian dollars) for the Bid Deposit equal to 10 percent of its Cash Bid. At this time, the Bid Security Bank Guarantee will be returned.

Environmental authority

The preferred tenderer must also lodge (and provide evidence satisfactory to the State of its lodgement of) an environmental authority (EA) application with the Department of Environment and Heritage Protection within 14 business days of being notified of Preferred Tenderer status.

Native Title

A Right to Negotiate (RTN) or an Indigenous Land Use Agreement (ILUA) (each a native title process) must be completed prior to the grant of any ATP in the PLR2014-2-1 and PLR2014-2-2 release area.

The preferred tenderer must, within 20 business days of being notified of its status as preferred tenderer, provide evidence to the State that the preferred tenderer has commenced a native title process.

If a preferred tenderer decides to undertake an RTN process under the *Native Title Act 1993* (Commonwealth), they must:

- a. within 40 business days from the date of notification of being the preferred tenderer lodge a submission with the Native Title Services Unit of the DNRM to initiate the process. The submission must comply with the guidelines for right to negotiate submissions for petroleum. The guidelines are available at <http://mines.industry.qld.gov.au/mining/guidelines-petroleum.htm>; and
- b. once the notification period ends provide written updates of the negotiations progress to the satisfaction of the Department of Natural Resources and Mines every three months until a section 31 agreement is lodged for the Minister's signature.

If a preferred tenderer decides to negotiate an ILUA for the grant of the ATP, then they must provide the Native Title Services Unit:

- a. (every six months) copies of documents demonstrating their ongoing negotiations;
- b. a copy of any advertisements inviting native title parties to respond; and
- c. (within 24 months of the date of notification of their appointment as the preferred tenderer) documents that demonstrate lodgement of the ILUA with the National Native Title Tribunal for registration.

If the preferred tenderer is unable to achieve progress within 18 months of being notified of its status as preferred tenderer in negotiating an ILUA, an RTN submission must be lodged with DNRM.

Preferred Tenderer must comply with requirements

The failure of a Preferred Tenderer to comply with the requirements of the tender may, without limitation, result in the Minister appointing another preferred tenderer, under section 40(4)(b) of the Act, or refusing to grant the authority, pursuant to section 41(1)(b) of the Act.
