

Meeting Communique – 16 May 2025

The Queensland Energy System Advisory Board (the Board) held their sixth meeting in Brisbane on 16 May 2025.

Queensland Treasury provided an update on Queensland Government energy policy priorities following the Treasurer's presentation to the Queensland Energy Club in April announcing development of a 5 year Energy Roadmap by end of 2025.

Queensland Treasury provided an update on electricity system modelling to inform the Energy Roadmap. The Board provided advice on Queensland Treasury's approach to undertaking associated retail price analysis and whole of economy modelling.

Powerlink representatives were invited to present to the Board on the Gladstone Project Priority Transmission Investment fulfilling Powerlink's requirement to consult with the Board. The Board provided feedback on Powerlink's assessment process which it will formalise through formal correspondence to Powerlink.

Next Meeting

The next meeting will be in July 2025.
