Research Guide to mental asylum records

Queensland State Archives (QSA) is the official repository for Queensland Government records selected for permanent retention because of their continuing value. The archived public records are from state government departments, state courts, local government authorities and statutory authorities. The records are in our facility at [Runcorn, Brisbane](#), and open records are available for viewing in the Reading Room, free-of-charge.

Queensland State Archives holds records for mental health patients from 1860 onwards.

Prior to separation from New South Wales in 1859, there were no facilities for psychiatric treatment in the Moreton Bay region. Persons with mental health issues or mentally disturbed persons were sent to Brisbane Gaol or possibly to an asylum in Sydney.

Many of the mental asylum records at Queensland State Archives were created by the Public Trustee (formerly the Public Curator) and Queensland Health (and its predecessor agencies).

Some records are subject to restricted access periods. Further information about accessing these closed records is provided below.

The main finding aid for records held at QSA is the [Queensland State Archives' online catalogue](#) (known as ArchivesSearch).

The following citation abbreviations are used throughout our catalogue:

- ITM – QSA Item (describes the item)
- PR – Physical Representation (generally the original or microfilm copy)
- DR – Digital Representation (for a digital image)
- S – Series ID (for series of records)
- A – Agency ID (for the creating or responsible agency).

Please note: indexes and original records may contain language now considered offensive and distressing.

Aboriginal and Torres Strait Islander readers are advised that our catalogue contains images, names and voices of people who have died.
