1. Introduction

This Public Health Services Table of Costs commences 1 July 2025.

It sets out the fees applicable for treating workers covered under the workers' compensation statutory scheme as public patients in Queensland public hospitals and is published in the Industrial Gazette.

This table of costs only applies to the services provided to:

- a worker who is discharged from a public hospital (an inpatient) on or after 1 July 2025; or
- a worker who receives treatment at a public hospital emergency department on or after 1 July 2025; or
- a worker who receives treatment at a public hospital out-patient facility on or after 1 July 2025.

This table of costs outlines procedures, conditions and fees for the delivery of public hospital services in Queensland public hospital facilities, medical and allied health services provided to workers' compensation claimants. It applies only to workers' compensation claimants receiving treatment in the public hospital sector as a public patient under the care of a public hospital doctor.

This table of costs excludes claimants under the statutory workers' compensation system electing to be treated as private patients in private hospitals and all workers' compensation common law claimants. Fees for statutory workers' compensation claimants electing to be private patients in a public hospital are described in section 15 of this table of costs and documented in the Queensland Health Fees and Charges Register found at: [Health Service Directives](#).

Note: The common law only patients are charged under compensable third-party fees when treated in the public hospital sector.

This table of costs is based on the Diagnosis Related Group (DRG) casemix classification system v11.

This table of costs is structured to promote the provision of quality, timely and relevant treatment in the management of injured workers. In most cases, the rehabilitation goal is for a worker to return to work. In situations where the injury prevents the worker returning to work, rehabilitation must focus on maximising functional independence.

Health literacy for patients

Health literacy is about how:

- a worker accesses the relevant information about their health and healthcare
- a worker understands information about their health and healthcare, and
- they use the information to make informed decisions about their healthcare.

WorkCover Queensland (WorkCover) embraces the Australian Commission on Safety and Quality in Health Care position on [Health Literacy](#) and the [National Safety and Quality Health Service \(NSQHS\) Standards](#).

WorkCover expects all providers who deliver services to Queensland workers to:

- make it easy for a worker to know where to go, what to do and how to find what is needed to improve their health and wellbeing, including information about their diagnosis, prognosis, processes, likely outcomes of possible tests and treatments and how prevent further injuries or illnesses
- make it easy for a worker to make better decisions about their health, wellbeing, and health care
- make it easy for a worker to manage their own health care, including treatment and medications
- help a worker to contribute to more effective decision-making and action about their own health care
- work in partnership with a worker so the worker can make informed and effective decisions
- help a worker reduce the risk of harm to themselves by providing thorough information that they can understand.

Supporting resources in relation to health literacy can be found on the [Australian Commission on Safety and Quality in Health Care website](#).

2. Working together

Insurers are committed to working with the Hospital & Health Services. If there is an issue in dispute, a Hospital & Health Service's representative should contact the relevant insurer to discuss an appropriate resolution.

3. Insurer's liability for services

The insurer's liability is subject to the *Workers' Compensation and Rehabilitation Act 2003* (Qld).

The payment of services outlined in this document is subject to a worker having a compensation claim allowed by the Queensland workers' compensation insurer for the injury or condition being treated, i.e., WorkCover or a self-insurer, in accordance with the legislation. A list of insurers is available at: <https://www.worksafe.qld.gov.au/insurance/find-a-self-insurer>.

In all instances, a current 'Work Capacity Certificate – workers' compensation' is required to cover the period of service provision. If a worker does not have a certificate upon presentation to a public facility, a certificate may be issued by an emergency department or public hospital during the course of the treatment, or upon discharge.

Note: If there is no certificate, the insurer has no liability for the costs of treatment.

Due to the diversity of medical services and rehabilitation program content, there may be other expenses which are not covered in this document. These expenses are to be negotiated with the relevant insurer prior to the delivery of such services.

A public hospital is not strictly bound by the same 60-day invoicing restrictions as other providers; please consider the context of a claim and treatment when processing invoices outside these timeframes.

4. Definitions

Contracted hospital means a hospital that provides public health services to a patient under a contractual arrangement with the State, but does not include:

- a public sector hospital under the Health Services Act 1991 (Qld); or
- a Mater Misericordiae Public Hospital.

Note: In some situations, Hospital & Health Services enter arrangements with private hospitals to provide services for and on behalf of the Hospital & Health Services. These services will be billed by Hospital & Health Services under this table of costs.

Diagnosis Related Group (DRG) (also Australian refined, AR-DRG) is a casemix classification system used to group patients receiving inpatient services in a clinically meaningful way and reflecting similar resource usage.

Elective hospitalisation means hospitalisation involving treatment or a procedure decided on by a worker or the worker's doctor that is of advantage to the worker but is not fundamental in the treatment of the worker's injury.

Emergency department provides accident and emergency services in a public hospital. Often a patient of a public hospital may receive emergency department treatment prior to being admitted as an inpatient.

Facility fee is an applicable fee for treatment provided by a private specialist within a public hospital for specialised treatment that cannot be obtained elsewhere. Facility fees include costs such as room, accommodation and material.

Group X Hospital means a smaller rural or remote facility where inpatient fees are charged on a flat per day basis rather than the DRG model. See Appendix A.

Hospital includes a day hospital.

Hospitalisation of a worker means the admission of the worker in a private hospital or public hospital for medical treatment for the worker's injury.

Inpatient in a public hospital is a public patient admitted at a public hospital and includes admission as a public patient to a Mater Misericordiae Public Hospital or transfer to a contracted hospital.

Listed Hospital means a hospital in scope for charging emergency department services under the Public Health Services Table of Costs.

Non-X Hospital means larger hospitals identified as meeting the requirements for charging fees on a casemix/DRG or sub and non-acute (SNAP) basis. See Appendix A.

Out-patient in a public hospital is a public patient who is not admitted to a public hospital and receives treatment as an outpatient. The patient may have been an inpatient previously and is now receiving follow-up treatment as an outpatient.

Public hospital means a hospital to which a worker is admitted as a public patient.

Public patient means a patient who is not a private patient.

Private hospital means a hospital to which a worker is admitted as a private patient.

Private patient means a worker who is a patient of a private doctor at a hospital that is not a contracted hospital. The worker has elected to be treated as a private patient by a doctor of their choice, inclusive of patients treated privately at a public hospital.

Sub and non-acute (SNAP) care is specialised inpatient multidisciplinary or maintenance care.

5. Extent of insurer's liability

5.1 Where there is an 'at fault' driver (MAIC)

Under section 12(4) of the *Motor Accident Insurance Act 1994* (Qld) a levy is paid to cover the cost of providing public hospital services and emergency services:

- to people injured in a motor vehicle accident; and
- who use public hospital services and emergency services because of their injuries; and
- who are claimants or potential claimants under the compulsory third party (CTP) insurance scheme.

Further to these points, where the Motor Accident Insurance Commission (MAIC) is the liable agency;

- The workers' compensation insurer is only liable for the public hospital costs for injured workers not covered by the MAIC grant paid to Queensland Health to cover people injured in motor vehicle accidents.
- MAIC covers people injured in a motor vehicle accident in Queensland who are considered "not-at-fault" for the incident and where the "at-fault" person was operating a Queensland registered motor vehicle.
- The workers' compensation insurer can refuse payment of an invoice and notify the Hospital & Health Services that the invoice is rejected because there is an at fault driver and it is covered under the *Motor Accident Insurance Act 1994*.
- The workers' compensation insurer reserves the right to seek recovery of payments made to Queensland Health within the same financial year if it transpires that the cost is covered by a MAIC grant.

5.2 For artificial prosthesis (such as limb, arm or hand prosthetics)

For the provision of any artificial prosthesis, approval must be sought from the insurer prior to the prescription and fitting of the prosthesis.

5.3 For hospitalisation in a public hospital

An insurer's liability for public hospitalisation is outlined within section 218A of the *Workers' Compensation and Rehabilitation Act 2003* (Qld) and includes the provision of the facility as well as medical treatment provided at the hospital. The insurer must pay the cost of public hospitalisation, whether the public hospitalisation is provided at one time or at different times.

5.3.1. *Non-elective hospitalisation*

For non-elective hospitalisation an insurer will be liable for the cost of public hospitalisation for not more than four days. After this time, the insurer will be liable if the insurer considers the non-elective hospitalisation is reasonable having regard to a worker's injury. In determining what is reasonable, an insurer must have regard to the medical determination made by the worker's treating medical practitioner.

It is recognised that for non-elective hospitalisation, the Hospital & Health Services will provide services, in many cases before the worker has made a claim. Accordingly, an insurer will be making a retrospective assessment of the reasonableness of a stay of more than four days.

5.3.2. *Elective hospitalisation*

An insurer is liable for costs of elective hospitalisation to the extent it is agreed by the insurer under arrangements between the insurer and a worker (or someone for the worker) before the public hospitalisation. This includes sub and non-acute care fees.

5.4 Length of stay

The length of stay is calculated by subtracting the date the patient is admitted from the date of separation. All leave days*, including the day the patient went on leave are excluded. A day is measured from midnight to 23:59 hours and includes full and partial days. A patient admitted and separated on the same day (a "same day" patient) is allocated a length of stay of one day.

*A leave day is where a patient is away from a hospital overnight, e.g. to have a meal with family at Christmas.

6. Reports and information requests

Requests for reports from public hospitals are to be sent to the relevant information access email address of the hospital a worker attended. A hospital's Information Access area will not release specific reports regarding a patient. The insurer is required to request the complete file/patient records.

6.1 Discharge summary report

Public inpatient discharge summary reports are included in the cost of hospitalisation.

6.2 Other reports and communications

Other insurer requested reports or communications are subject to the WorkCover tables of costs for medical and allied health services.

6.3 Medical records

Insurer requested medical records will attract a fee from the public hospital. The fee will be based on the following:

- Application fee: \$92.00
- Processing fee: \$13.00 per 15 minutes
- Copies of x-ray (film): \$31.00
- Copies of photograph: \$14.00
- Copies of videotape: \$35.00
- Copy of audiotape: \$14.00
- Copy of CD-ROM: \$35.00

- PACS-Initial imaging study on CD media: \$147.00
- PACS-Second and subsequent imaging study on CD media (per study): \$14.00
- Copying charge of \$0.50 per page (A4 black and white only).

Note: These fees are GST exclusive.

The applicable WorkCover item number for insurer requested medical records for public hospitals is 400039.

6.4 Worker's authority

If a hospital requires a signed authority from a worker to permit the release of medical records, the hospital may request an authority from the insurer. The insurer is permitted to provide the signature by email or facsimile.

6.5 Timeframes

A doctor attending a worker who has sustained an injury must give the insurer a detailed report on the worker's condition within 10 days of receiving the insurer's request to do so*. The fee payable to the doctor for the report is an amount accepted by the insurer to be reasonable, having regard to the relevant table of costs (please refer to the Supplementary Services Tables of Costs for General Practitioners and Specialists).

*Please refer to Section 104(4) of the *Workers' Compensation and Rehabilitation Regulation 2014*.

7. Fees

Queensland Health fees are established on a cost recovery basis and are based on the Independent Health and Aged Care Pricing Authority's (IHACPA) reported data.

Queensland Health provides data to the national data set and the yearly increase is applied to the current prices. WorkCover will review any adjustments according to the IHACPA report and re-gazette a table of costs when appropriate.

Queensland Health operates many hospitals which are grouped according to the level of complexity and intensity of services offered, fees are calculated based on the services provided and the group the treating hospital is in. These hospitals and codes are detailed in Appendix A.

This Public Health Services Table of Costs outlines the fees an insurer can expect to be charged for services provided to injured workers. Insurers are also able to negotiate a fixed annual payment / agreement with the Queensland Health based on their estimated hospital costs separate to this table of costs if they wish.

8. Emergency department services

Emergency department charges for public workers' compensation patients include but are not limited to, the following services:

- Medical care provided by public hospital doctors
- Nursing care
- Pathology and imaging
- Theatre use, theatre consumables, in-theatre care and surgical implants
- Limited pharmaceutical and dressings may be included
- Allied health services
- Aids and appliances including those necessary for effective discharge-these may be loaned or given to the patient, depending on the facility
- Clerical and administrative support
- Discharge summary report, if available

Under Section 213(4) of the *Workers' Compensation and Rehabilitation Act 2003* (Qld), the 'Work capacity certificate – workers' compensation' must be free of charge. As such, medical certification is provided at no additional charge.

8.1 Emergency department definitions

Admitted patients are those that are admitted to the hospital directly from the emergency department, including those admitted as same day patients. Admission follows a clinical decision based on specified criteria that requires same-day or overnight care or treatment. The admission/transfer can be to a public hospital or a patient's home (for hospital-in-the-home patients).

Did not wait means a patient was triaged and registered however the patient did not wait to complete full treatment until clinical or administrative discharge occurred.

Died means a patient was "dead on arrival" at the emergency department or died whilst still considered to be under the care of the emergency department and was not admitted to the hospital. The fee for this service includes preparation of the body and transfer to the morgue.

Discharged patients are those discharged from the emergency department to home or to another facility of residence, other than an acute facility in a public hospital.

Transferred patients are those sent from the emergency department to any other acute facility (public, private, interstate or overseas) for continuation of their admitted care and management.

Triage means the assigning of degrees of urgency to decide the order of treatment. The triage category indicates the urgency of the condition and is defined according to national standards with triage 1 being the most urgent and triage 5 being the least urgent. (1=Resuscitation, 5=Non-urgent).

Note: Emergency department fees listed below include radiology, pathology and pharmacy costs linked to the emergency department attendance.

WorkCover emergency department item no.	Service type	Max fee Excl. GST
99810	Admitted/transferred triage 1	\$4,048
99811	Admitted/transferred triage 2	\$2,478
99812	Admitted/transferred triage 3	\$1,784

99818	Discharged triage 3	\$1,055
99819	Discharged triage 4	\$724
99820	Discharged triage 5	\$597
99821	Did Not Wait	\$312

Listed hospital emergency department item numbers

The WorkCover item number for emergency department services is based on two components:

- the Emergency Department Item No. (listed in the table above); and
- the corresponding hospital code (Appendix A)

WorkCover Emergency Department Item No. + Hospital Code

For example:

- A discharge-triage 3 (Emergency Department Item No. 99818) from the Princess Alexandra Hospital Emergency Department (Hospital Code 011) would have an item number of **99818011**.
- A discharge-triage 3 from the Gold Coast University Hospital (Hospital Code 936) would have an item number of **99818936**.
- An admission-triage 5 (Emergency Department Item No. 99814) to the Gold Coast University Hospital would have an item number of **99814936**.

8.2.2. Non-listed hospitals providing emergency treatment

Public hospitals not listed above should charge according to the WorkCover Medical Items Table of Costs. Please refer to: <https://www.worksafe.qld.gov.au/service-providers/fees>. When a patient is provided emergency treatment in a non-listed hospital and:

- then discharged, the medical items are charged for services provided.

- then subsequently admitted to the hospital on the same day. Hospitals can charge the items for the emergency treatment (as above) + the small hospital admitted day fee.

For example:

- A patient seen at the Richmond Emergency and received doctor's consultation, imaging, and treatment.
- The non-listed hospital would bill as per medical table of costs or MBS for these item numbers and if admitted to hospital as an inpatient following emergency room treatment, the hospital would then bill per day charge of 99800. The non-listed hospital can bill 99800 on the same day as emergency treatment as this is deemed day of admission.

9. Inpatient services

Inpatient fees for public workers' compensation patients include the following services:

- appropriate accommodation - shared ward, or single room (if deemed clinically necessary), hospital hotel services, e.g., meals
- medical care provided by public hospital doctors
- nursing care
- pathology and imaging
- pre-operative and post-operative care whilst an inpatient in hospital
- theatre use, theatre consumables, in-theatre care and surgical implants
- all pharmaceutical and dressings. Discharge pharmaceuticals must be issued with a prescription and patient directed to obtain the medication from a private pharmacy not a public hospital pharmacy. Both the insurer and hospital should ensure workers are aware of this requirement.
- if a public hospital pharmacy inadvertently dispenses medication and raises charges on the patient for discharge medication, the patient can be reimbursed by the insurer
- allied health services
- discharge planning services
- aids and appliances including those necessary for effective discharge - these may be loaned or given to a patient, depending on the facility
- clerical and administrative support
- discharge summary report.

Under Section 213(4) of the *Workers' Compensation and Rehabilitation Act 2003* (Qld), the 'Work capacity certificate – workers' compensation' must be free of charge. As such, medical certification is provided at no additional charge.

Note: Inpatient fees for public workers' compensation patients do not include emergency department fees. These are raised separately by the emergency department (see 8. Emergency department services).

9.1 Inpatient fee types

The Hospital & Health Services adopts a case mix-based pricing model for most acute public inpatients and a specified bed day fee for other types of public patients.

Admitted services are costed according to the hospital category and the patient diagnosis. There are four categories of inpatient fee types:

- Small hospitals (Group X Hospital) – handle acute, sub-acute and non-acute
- Sub and non-acute (Non-X Hospitals)
- Acute (Non-X Hospitals)
- Hospital in the home (HITH)

9.1.1. Small hospitals

9.1.1.1. Small hospitals – Group X hospital fees

These are smaller facilities in rural and remote areas. Treatment provided in these facilities is charged on a per day fee basis irrespective of the diagnosis category or the type of treatment. For all inpatient

admissions the invoice will multiply the number of days by the per day fee for that day. This applies to acute, sub-acute and non-acute types of care.

Small hospital item no.	Description	Max fee Excl. GST
99800	Small hospital – Group X	\$3,350 per day

Note: Because treatment in small hospitals (Group X) is based on a flat fee per day, the item number is not based on a DRG code.

9.1.1.2. Small hospitals – Group X hospital item numbers

The WorkCover item number for small hospitals is based on two components:

- the Small Hospital Item No. (listed in the table above); and
- the corresponding Hospital Code (Appendix A)

Small Hospital Item No. + WorkCover Hospital Code

For example:

- Inpatient admission and all treatment provided at the Biloela Hospital (Hospital Code 133) would have an item number of **99800133**.
- Inpatient admission and all treatment provided at the Tully Hospital (Hospital Code 227) would have an item number of **99800227**.

9.1.2. Sub and non-acute care – Non-X Hospitals

9.1.2.1. Sub and non-acute care fees

Some types of treatment that a patient may receive are not considered “acute”. These types of care include rehabilitation, palliative care, and maintenance care. The following fees and item numbers are for sub and non-acute care provided by hospitals in categories non-X hospitals.

Sub and non-acute item no.	Description	Max fee Excl. GST
99801	Maintenance	\$1,972 per day
99802	Rehabilitation – Same Day	\$1,054 per day
99803	Rehabilitation – Overnight	\$2,025 per day
99804	Palliative	\$1,463 per day

9.1.2.2. Sub and non-acute care item numbers – Non-X Hospitals

The WorkCover item numbers for sub and non-acute care are based on two components:

- the Sub and Non-Acute Care Item No. (listed in the table above); and
- the corresponding Hospital Code (Appendix A)

Sub and Non-Acute Item No. + WorkCover Hospital Code

For example:

- Rehabilitation-Same Day (Sub and Non-Acute Item No. 99802) provided at the Princess Alexandra Hospital (Hospital Code 011) would have an item number of **99802011**.
- Rehabilitation-Same Day provided at the Gold Coast University Hospital (Hospital Code 936) would have an item number of **99802936**.
- Palliative care (Sub and Non-Acute Item No. 99804) provided at the Gold Coast University Hospital would have an item number of **99804936**.

9.1.3. Acute care – Non-X Hospitals

9.1.3.1. Acute care fees

Patients receiving acute care in Non-X Hospitals have their fees calculated under a casemix basis. This type of fee relates specifically to the condition for which a patient was treated and for how long they were treated. The casemix fee for a public hospitalisation will be determined by three key elements:

- Hospitalisation category – with its relevant base rate;
- Diagnosis category (DRG code) – the type of condition as described by the Diagnosis-Related Group with its applicable cost weighting; and
- Length of stay (LOS) – a worker's length of stay in hospital compared and adjusted to the average for that DRG via "trim points".

The average length of stay and "trim points" have been calculated for each diagnosis category (DRG code). The average length of stay and cost weighting may vary between hospital groups.

9.1.3.2. Base rates

Hospital group	Base fee
Non-X Hospitals	\$7,585

9.1.3.3. Long stay per day rates

Hospital group	DRG type	Long stay per day fee
Non-X Hospitals	Medical	\$2,131
Non-X Hospitals	Intervention	\$2,801

9.1.3.4. Extra long stay per day rates

Hospital group	Extra long stay per day fee
Non-X Hospitals	\$989

9.1.3.5. Trim points

The trim points are calculated based on the L3H3 trimming method as follows:

- **Low trim point** – The calculation is LOS/3.

Note: The distribution for most DRGs is so skewed that the low trim point is usually just one day. For these DRGs there will be no short stay outliers.

- **High trim point** – The calculation is $LOS \times 3$.
- **Extra high trim point** – The calculation is $LOS \times 4.5$.

9.1.3.6. Formulas

Depending on where the length of stay falls in relation to the trim points, there are four different formulas which may be used to calculate the case mix fee.

A calculator has been prepared to assist in the determination of acute inpatient fees utilising the following formulas. This can be found [here](#).

- Inlier** – length of stay falls between the low and high trim points (inclusive)
 $\text{Inlier fee} = \text{DRG cost weight} \times \text{Base rate}$
- Short stay outlier** – length of stay falls below the low trim point
 $\text{Fee} = \text{the lesser of:}$
 Inlier fee
OR
 $(\text{Actual LOS} / \text{Low trim point}) \times \text{Inlier fee but not less than 75\% of Inlier fee}$
- Long stay outlier** – length of stay is above the high trim point and less than or equal to the extra high trim point. The long stay per day rate applied is dependent on the DRG type (medical or intervention)).
 $\text{Fee} = \text{Inlier fee} + [(\text{Actual length of stay} - \text{High trim point}) \times \text{Long stay per day rate}]$
- Extra-long stay outlier** – length of stay is anywhere above the extra high trim point
 $\text{Fee} = \text{Inlier fee}$
 $+ [(\text{Extra high trim point} - \text{High trim point}) \times \text{Long stay per day rate}]$
 $+ [(\text{Actual length of stay} - \text{Extra high trim point}) \times \text{Extra-long stay per day rate}]$

Fee example:

Mary suffers severe burns at work and is admitted to the Royal Brisbane Women's Hospital. The diagnosis category is Y61Z, with a length of stay of 3 days. The insurer should receive an invoice from Hospital & Health Services which would show an item number of 99650201* with a fee of \$10,633.81.

The following is an extract from the Hospital & Health Service Public Hospital Cost Benchmarks for DRG code Y61Z. Non-X Hospitals

AR-DRG	Description	Price weight	Ave LOS	Low trim point	High trim point	Extra high trim point	Inlier payment	Long stay per day public	Extra-long stay per day
Y61Z	Severe Burns	0.88	3.7	1	11	17	\$10,633.81	\$1,932	\$896

Inlier formula: **Fee = DRG price weight x Base rate**

= $1.48 \times \$7,185$ (Non-X Hospital base rate)

= \$10,633.81

*For more information on how item numbers are established, see page 11.

If Mary had required 15 days hospitalisation, this would be classified as a “long stay outlier”. The fee for this stay is calculated by using the inlier cost benchmark to cover the stay until the “high trim point” and a “long stay” per day rate applies for the days between the “high” and “extra high” trim points- which in this example is one day at the long stay per day rate. Therefore, the fee would be:

$$\begin{aligned}
 \text{Fee} &= \text{Inlier fee} + (\text{Actual length of stay} - \text{High trim point}) \times \text{Long stay per day rate} \\
 &= \$10,633.81 \text{ (Inlier fee)} + ((15-11) \times \$1932) \\
 &= \$10,633.81 + \$7,728 \\
 &= \$18,361.81
 \end{aligned}$$

*The DRG code Y61Z has a type classification of “Medical” - refer to the WorkCover DRG Item Numbers list on pages 20-24. Refer to the Long Stay Per Day Rates table on page 12 for the rate.

9.1.3.7. Acute care fee verification – Non-X Hospitals

The insurer may verify individual charges for acute care on the Hospital & Health Service invoice by using WorkCover’s Queensland Health Public Patient Acute Inpatient Cost Check. Please note that the verification calculator will not verify sub and non-acute care charges as these are per day rates as per page 11. (<https://www.worksafe.qld.gov.au/service-providers/medical-fees>)

9.1.3.8. Acute care item numbers – Non-X Hospitals

The WorkCover item number for acute care is based on two components:

- The Australian Refined-DRG classification code; and
- The corresponding hospital code (see Appendix A).

Each **DRG code** has been allocated a WorkCover DRG Item Number (See appendix B).

For example:

DRG code	WorkCover DRG item no.
G10B	99736
I02B	99312

The WorkCover item number for acute fees combines these two components:

WorkCover DRG Item No. + WorkCover Hospital Code

For example:

- A hernia procedure, DRG classification G10B (WorkCover DRG Item No. 99736) carried out at Gold Coast University Hospital, (WorkCover Hospital Code 936) would have an item number 99736936.
- The same procedure carried out at Innisfail Hospital, (WorkCover Hospital Code 222) would have an item number 99736222.
- A skin graft, DRG classification of I02B (WorkCover DRG Item No. 99312) carried out at the Innisfail Hospital would have an item number **99312222**.

9.2 Hospital in the home (HITH)

Hospital in the home (HITH) is the provision of care (including acute, palliative, mental health and rehabilitation services) to patients in the comfort of a person’s own home or other suitable environment. Patients are regarded as hospital inpatients and remain under the care of their hospital doctor. Care may be provided by a nurse, doctor and/or allied health professional. Additional home supports can be arranged as required. HITH is an alternative to a hospital inpatient stay. Patients can be offered this option by treating staff if the care type can be

delivered safely at home. Research findings demonstrate that patients have improved outcomes and recovery at home with fewer complications such as infection. Participation in HITH is voluntary - patients and insurers must agree and approval be given to have the care provided at home. This is charged as a per day fee.

WorkCover item no.	Description	Max fee Excl. GST
99806	Hospital in the home	\$2,517

9.2.1. Hospital in the home item numbers – All hospital groups

The WorkCover item numbers for HITH care are based on two components:

- HITH Item No. (listed in the table above); and
- The corresponding Hospital Code (see Appendix A)

HITH Item No. + WorkCover Hospital Code

For example:

- HITH Item No. 99806 provided by the Princess Alexandra Hospital (Hospital Code 011) would have an item number of **99806011**.

10. Interfacility transfer costs and escort fee item number

This item is for transfer to and from hospital and can include one or more of the following – escort, paramedic, and ambulance fees. This item does not cover transportation from a hospital to a patient's home.

WorkCover item no.	Description	Max fee Excl. GST
99805	Queensland Health Inter-facility Transfer/Escort Cost	As charged

Note: The Workers' Compensation Regulator's QAS grant covers pre-hospital care but *does not* cover inter-facility transfers.

11. Outpatients

Providers in the Hospital & Health Services' outpatient clinics are to utilise the WorkCover tables of costs for **medical practitioners and allied health providers**, relevant to the service provided:

- Medical Items Table of Costs
- General Practitioner Supplementary Services Table of Costs
- Specialist Supplementary Services Table of Costs (treating specialists, physicians and psychiatrists)
- Nursing services
- Dental services
- Occupational therapy services
- Physiotherapy services
- Hand therapy services
- Podiatry services
- Mental health services
- Speech pathology services

The Hospital & Health Services do not provide Chinese medicine, chiropractic, exercise physiology or osteopathy services.

These tables of costs may be obtained from the website under Service providers > [Medical or Allied Health Fees](#).

For any services not described under a table of costs, the provider should seek prior approval from the insurer.

For all presentations, a charge will be applied to each occasion of service. There may be occasions where multiple presentations will occur for one condition and on one day (e.g. a physiotherapy and psychology consultation on the same day). Each treatment will be charged individually.

Prior insurer approval may be required for more than one consultation with the same provider on the one day. Reference should be made to the relevant table of cost for further information.

12. Pharmaceuticals

Workers' compensation patients who require prescription medication must be issued with a prescription and directed to obtain the medication from a private pharmacy not a public hospital pharmacy. Both the insurer and hospital should ensure workers are aware of this requirement. If a public hospital pharmacy inadvertently dispense medication and raises charges on the patient for outpatient medication, the patient can be reimbursed by the insurer.

Exemptions to the above – if a patient is prescribed a restricted medication only available through a hospital pharmacy (e.g. certain IV drugs or medications only available under a special access scheme) the hospital may claim these costs from the insurer.

13. Nursing services

Nurses who provide outpatient and emergency nurse services only should use items in the [Nursing Services Table of Costs](#).

14. Cast technicians/plaster orderlies

Cast technicians who provide outpatient services can charge for the consultation and resources required. Services that are provided in an emergency department or whilst the worker is an inpatient are not billable. The Hospital & Health Services can only charge a cast technician fee and associated incidental charges can only be billed if the treating technician holds a Certificate IV in Cast Technology (HLT41412 or HLT41407), only if issued prior to 13 June 2017 or a Diploma of Orthopaedic Technology ([HLT57821](#)).

99822	Cast technician consultation	\$114
99823	Cast technician incidentals	Short Arm - \$51 Long Arm - \$103 Short Leg - \$61 Long Leg - \$179

15. Private patient admissions

The below item numbers and fees are billable by a public hospital should their facilities be used by a private specialist, for specialised treatment that cannot be obtained elsewhere i.e., bone marrow transplant.

On such occasions, the public hospital will bill for "facility fees" such as the room, accommodation and materials, and a separate invoice will be raised from the private specialist for their services.

15.1 Facility fees

Facility fees are charged at a per day rate.

However, if the treatment carries over two different fee periods (e.g., if the fees increase during the period a worker is an inpatient) the invoice should be raised upon patient discharge. The fees should be calculated using the fees applicable as at the date of discharge.
