1. Introduction

- 1.1 In performing this service agreement, the Department and the Hospital and Health Service (HHS) will act consistently with the object of the *Hospital and Health Boards Act 2011* (Qld) (Act).
- 1.2 The Department and the HHS operate as part of a networked system and agree to work collaboratively with each other, with other HHSs and with the Queensland Ambulance Service in the best interests of the Queensland public sector health system.
- 1.3 The parties will ensure that planning and delivery of health services is consistent with the strategies and priorities set out by government. The parties recognise the importance of the HHS' Health Equity Strategy (as defined in the Act) and the parties' commitment to improving health and wellbeing outcomes and achieving health equity for Aboriginal and Torres Strait Islander peoples.

2. Scope

- 2.1 This service agreement covers the period from 1 July 2022 to 30 June 2025.
- 2.2 The parties have identified the services to be provided by the HHS, the funding for the provision of those services, the performance measures applicable to the services and data requirements.

3. Services

- 3.1 In delivering services, the HHS is required to meet:
 - (a) the applicable conditions of all national agreements and national partnership agreements between the Queensland Government and the Commonwealth Government and commitments under any related implementation plans; and
 - (b) the applicable conditions of each agreement or arrangement for funding between the Department and the HHS and commitments under any related implementation plans, which conditions and commitments may be recorded separately to this service agreement but for which funding is (or becomes) provided in Schedule 2.
- 3.2 The HHS is required to deliver the services outlined in this service agreement for which funding is provided in Schedule 2.
- 3.3 Where issues arise which prevent the HHS from providing a service or necessitate a reduction in the level or scope of a service provided, prompt notification must be made to the Department and impacted HHSs, with appropriate details. The HHS must minimise any clinical risk or adverse impact to patient experience that may result from service disruption. The Department will respond to the HHS on any requirements it has concerning service delivery and any adjustments triggered by under delivery.
- 3.4 If the HHS wishes to terminate or reduce service levels for a service for which funding is provided in Schedule 2, this will remain subject to negotiation and agreement by the Department at its discretion.

- 3.5 For any new services proposed during the term of this service agreement, the parties agree:
- (a) the service must meet a demonstrated clinical need and provide value for money;
 - (b) the commencement of a new service, including the implementation of new models of care, may occur where the service has been commissioned by the Department, a funding stream is in place and any conditions relating to the funding have already been agreed; and
 - (c) if the HHS wishes to commence providing a new service that has not been commissioned by the Department, this will remain subject to agreement by the Department at its discretion.
- 3.6 It is acknowledged that there may from time to time need to be service delivery changes between HHSs. Management of inter-HHS relationships should be informed by the following principles:
- (a) HHSs should maintain the proportion of out of HHS work undertaken unless as a result of agreed repatriation of patients;
 - (b) each HHS should manage patients from its own catchment population if it is within its clinical capability to do so as specified by the Clinical Services Capability Framework; and
 - (c) where it is proposed that a service move from one HHS to another, the Department will consider, as part of its review under clause 3.4 and 3.5, whether the respective Health Service Chief Executives endorse the proposed change in patient flows; and the funding required to follow the patient.

4. Performance and Accountability Framework

- 4.1 The Queensland Health Performance and Accountability Framework (the Performance and Accountability Framework) sets out the framework within which the Department monitors and manages the performance of public sector health services in Queensland.
- 4.2 The parties will act consistently with the Performance and Accountability Framework.

has breached the thresholds identified bi-annually. This process will take into account any relevant matters that have been identified in a review/analysis of the breach as well as the outcomes of the activity plan implemented to address the activity breach.

- (b) Activity will be monitored at the purchasing hierarchy level. Providing the HHS meets all relevant KPIs and specific funding allocations, the HHS has the ability to negotiate the transfer of activity across the purchasing hierarchy with the Department.
- (c) Table demonstrates the financial adjustment that will be applied when activity thresholds have been breached.
- (d) The HHS may not utilise the provisions within AASB15 *Revenue from Contracts with Customers* to override the application of any financial adjustment made by the Department in line with Table 2.

Table 2 Financial adjustments applied on breach of activity thresholds

Example of Breach	Description	Financial Adjustment
Over performance	Activity exceeds that specified in the service agreement value for in-scope activity as shown in Table 5.	Purchasing contracts are capped and an HHS will not be paid for additional activity apart from activity that is in scope for the identified purchasing incentives as set out in Table 3.
Under performance	Activity is below that specified for in-scope activity as shown in Table 5.	Purchased activity and the related funding will be withdrawn at 100% of the Queensland Efficient Price and reallocated to an alternate provider that can undertake the activity. Refer to Table 5 for the HHS QWAU target.
Failure to deliver on service commitments linked to specific funding allocations	Specific funding allocations National Partnership Agreements.	It is at the discretion of the Department to withdraw allocated funding pro rata to the level of under delivery.
For all other types of activity variance, any financial adjustment will be made at the discretion of the Department.		

6.2 Purchasing incentives

- (a) The purchasing approach includes a range of funding adjustments that aim to incentivise high quality and high priority activity, support innovation and evidence-based practice, deliver additional capacity through clinically and cost-effective models of care and dis-incentivise care providing insufficient or no benefit for patients. This includes incentive payments for HHSs who achieve targets in specific priority areas. The purchasing incentives are detailed in Table 3. The Department must reconcile the applicable purchasing incentives in Table 3 in line with the timeframes specified in the relevant purchasing specification sheet. The Department must provide a copy of the reconciliation statement to the HHS.
- (b) Funding adjustments must be based on the requirements contained in the relevant purchasing specification sheet for that purchasing incentive.
- (c) Any resulting changes to funding and purchased activity levels will be actioned through the processes outlined in Schedules 2 and 5 of this service agreement.

Table 3 Purchasing Incentives 2023/24

Incentive	
Purchasing incentives	
Connected Community Pathways	Funding to incentivise evidence-based and innovative models of care which promote the delivery of care outside acute facilities and support shared-care partnership arrangements.
Virtual care incentive	Incentive funding to increase the number of specialist outpatient services which are provided in virtual settings.
Own source revenue (OSR) growth	Incentivise the recognition of OSR through matching growth in OSR with public activity growth funding.
Models of care/workforce	This program is under development with likely initial focus on incentivising specific models of care and the use of workforce operating at top of scope where staff have not been available in a traditional model of care.
ABF model localisations	
Maternity care for First Nations women	QWAUs for achieving two Closing the Gap targets for First Nations women: <ul style="list-style-type: none"> to attend five or more antenatal visits with their first antenatal first taking place in the first trimester; and to stop smoking by 20 weeks gestation.
Sentinel events	Payment withdrawn for sentinel events as per the national ABF model.
Advance Care Planning (ACP)	QWAUs for HHSs offering ACP discussions to admitted patients, non-admitted outpatients, community health patients and Emergency Department patients.
Emergency Department Did Not Wait (DNW)	Zero QWAUs for DNWs.
Fractured neck of femur	QWAUs reduced by 20% for non-timely surgical treatment of fractured neck of femur.
Hospital in The Home (HITH)	QWAUs increased by 12.5% for Hospital in the Home (HITH) admissions of Residential Aged Care Facility residents.
Out-of-scope services	Nil QWAUs for out-of-scope procedures.
Pre-operative bed days	QWAUs for long stay days above the upper trim point less ICU days reduced equivalent to pre-operative days, up to a maximum of 3 days, for elective episodes.
Smoking cessation (community mental health)	QWAUs for smoking cessation activity for community mental health patients.
Smoking cessation (inpatients)	QWAUs for smoking cessation activity for publicly funded inpatients.
Stroke care	10% QWAU loading for acute stroke patients admitted to Queensland Stroke Clinical Network-endorsed stroke unit care.
Telehealth (admitted patients)	QWAUs for provider-end of in-scope admitted patient telehealth activity.
Commissioning mechanisms	
High-cost home support	Funding for approved individuals requiring 24-hour home ventilation.

Incentive	
Patient flow initiative	Provision of non-recurrent WAU-backed funding (2022/23) to participating HHS who successfully implement agreed recommendations.
Rapid access service	Recurrent WAU-backed funding to support the implementation of rapid access clinics to reduce pressure on emergency departments.
Expansion of sub-acute and long stay care	Additional funding to increase the availability of and access to care for sub-acute and long stay patients, thereby improving access to care in a range of settings and releasing capacity within acute facilities.

6.3 Surgery Connect reimbursements

- (a) The HHS will reimburse the Department for the actual costs of activity for nominated patient referrals to the Surgery Connect program where:
- (i) The HHS has nominated the patient referral as HHS funded on entry of the referral in the Surgery Connect Activity Navigator (SCAN); and
 - (ii) The HHS Chief Finance Officer has recorded approval of the nomination in SCAN;
- or
- (iii) The HHS has obtained the Department's agreement to retrospectively convert a defined patient cohort to HHS funded status in SCAN.
- (b) The HHS may only request retrospective conversion of activity to HHS funded within the financial year in which the activity has taken place.
- (c) Any resulting changes to funding and purchased activity levels will be actioned through the processes outlined in Schedules 2 and 5 of this service agreement.

6.4 Financial adjustments – other

- (a) Notwithstanding the provisions regarding the recognition of revenue as stipulated in AASB1058 *Income of Not-for-Profit Entities* and/or AASB15 *Revenue from Contracts with Customers*, the Department may seek to recover funding from an HHS that was provided through this service agreement which has:
- (i) not been utilised in accordance with its intended purpose; and/or
 - (ii) not been utilised within the prescribed time period to deliver the agreed outcomes/services.
- (b) If the Chief Executive (or delegate) determines that previously allocated funding is to be recovered, any resulting changes to funding and purchased activity levels will be actioned through the processes outlined in Schedules 2 and 5 of this service agreement.

6.5 Public and private activity/own source revenue

- (a) Own source revenue comprises grants and contributions, user charges and other revenues.
- (b) Where an HHS is above its own source revenue target, it will be able to retain the additional own source revenue with no compensating adjustments to funding from other sources where the additional revenue is not attributable to a private patient consistent with clauses A9 to A13 and A44 of the *National Health Reform Agreement*.
- (c) Where an HHS is below its own source revenue target in respect of private patients, it will experience a reduction in revenue with no compensating adjustments to funding from other sources.
- (d) The HHS will make all efforts to identify and maximise revenue from appropriate third parties to ensure optimisation of available State and Commonwealth funding across the Queensland public sector health system.
- (e) The own source revenue identified in Table 5 is an estimate generated by the HHS which allows all third-party funding sources associated with service delivery to be identified. The HHS will ensure that this estimate is substantiated and accurate to ensure no significant variances to actual revenue generated.
- (f) The HHS will routinely revise and update the estimate to ensure alignment between the service agreement and Queensland Treasury's reporting system (TRIDATA).
- (g) Budget adjustments for changes in own source revenue from private patients will be actioned through the processes set out in Schedule 5 of this service agreement.

7. Funding sources

7.1 The four main funding sources contributing to the HHS service agreement value are:

- (a) Commonwealth funding;
- (b) State funding;
- (c) grants and contributions; and
- (d) own source revenue.

7.2 Table 5 provides a summary of the funding sources for the HHS and the total value of the service agreement.

8. Funds disbursement

8.1 The Department agrees to pay the HHS the amount described in Table 5 of Schedule 2, subject to:

- (a) parliamentary appropriation and adequate funds being allocated to the Department; and
- (b) the terms of this service agreement.
- 8.2 All payments under this service agreement will be made in accordance with the requirements of the *National Health Reform Agreement* and the Act.
- 8.3 The Chief Executive will direct the disbursement of both State and Commonwealth funding from the State Pool Account, the State Managed Fund, and the Department of Health Expenditure account to the HHS.
- 8.4 However, the State (represented by the Chief Executive) will not:
- (a) redirect Commonwealth payments between HHSs;
- (b) redirect Commonwealth payments between funding streams (e.g., from ABF to block funding); and/or
- (c) adjust the payment calculations underpinning the Commonwealth's funding.
- 8.5 The Department will pay state-funded activity-based funding, block funding and system manager funding to the HHS on a fortnightly basis in line with receipt of the State Appropriation Payment. The payment made will be equal to 1/26th of the state-funded component of the service agreement value described in Table 5.
- 8.6 The Department will pay Commonwealth-funded activity-based funding and block funding monthly in line with receipt of the Commonwealth payment. The payment made will be equal to 1/12th of the Commonwealth funded component of the service agreement value described in Table 5.
- 8.7 Where the parties have agreed to amend the service agreement value or the Commonwealth contribution amount changes, the fortnightly and/or monthly payments will be adjusted to reflect the amended service agreement value.
- 8.8 Service agreement payments may be made outside of these timeframes with the approval of the Department's Chief Finance Officer.

Schedule 5 Amendments to this service agreement

1. Agreed process to amend this service agreement

1.1 The parties acknowledge that this service agreement is subject to amendment, which will generally occur through:

- (a) amendment windows;
- (b) extraordinary amendment;
- (c) periodic adjustments; and
- (d) end of financial year reconciliation.

1.2 Amendment windows

- (a) There will be set periods of time nominated by the Department during the year (amendment windows) in which a party may propose an amendment and the parties will endeavour to negotiate and finalise proposals to amend this service agreement.
- (b) Amendment proposals that are agreed will be documented in a deed of amendment to this service agreement.
- (c) Further details on the amendment window process, including the timing of amendment windows, is provided online, as detailed in Appendix 1.

1.3 Extraordinary Amendment

- (a) Outside an amendment window, the Department and the HHS agree to limit any proposal to amend the terms of this service agreement to those where there is an urgent priority need to facilitate a funding allocation (extraordinary amendment). The parties will endeavour to negotiate and finalise any such proposal urgently.
- (b) The process for submitting, negotiating, and resolving an extraordinary amendment is available online, as detailed at Appendix 1.
- (c) Agreed extraordinary amendments will be reflected in a notice issued by the Chief Executive and countersigned as accepted by the HHS. The notice will be replaced when the extraordinary amendment is subsequently formalised in a deed of amendment issued following the next amendment window.

1. Introduction

- 1.1 In performing this service agreement, the Department and the Hospital and Health Service (HHS) will act consistently with the object of the *Hospital and Health Boards Act 2011* (Qld) (Act).
- 1.2 The Department and the HHS operate as part of a networked system and agree to work collaboratively with each other, with other HHSs and with the Queensland Ambulance Service in the best interests of the Queensland public sector health system.
- 1.3 The parties will ensure that planning and delivery of health services is consistent with the strategies and priorities set out by government. The parties recognise the importance of the HHS' Health Equity Strategy (as defined in the Act) and the parties commitment to improving health and wellbeing outcomes and achieving health equity for Aboriginal and Torres Strait Islander peoples.

2. Scope

- 2.1 This service agreement covers the period from 1 July 2022 to 30 June 2025.
- 2.2 The parties have identified the services to be provided by the HHS, the funding for the provision of those services, the performance measures applicable to the services and data requirements.

3. Services

- 3.1 In delivering services, the HHS is required to meet:
 - (a) the applicable conditions of all national agreements and national partnership agreements between the Queensland Government and the Commonwealth Government and commitments under any related implementation plans; and
 - (b) the applicable conditions of each agreement or arrangement for funding between the Department and the HHS and commitments under any related implementation plans, which conditions and commitments may be recorded separately to this service agreement but for which funding is (or becomes) provided in Schedule 2.
- 3.2 The HHS is required to deliver the services outlined in this service agreement for which funding is provided in Schedule 2.
- 3.3 Where issues arise which prevent the HHS from providing a service or necessitate a reduction in the level or scope of a service provided, prompt notification must be made to the Department and impacted HHSs, with appropriate details. The HHS must minimise any clinical risk or adverse impact to patient experience that may result from service disruption. The Department will respond to the HHS on any requirements it has concerning service delivery and any adjustments triggered by under delivery.

- 3.4 If the HHS wishes to terminate or reduce service levels for a service for which funding is provided in Schedule 2, this will remain subject to negotiation and agreement by the Department at its discretion.
- 3.5 For any new services proposed during the term of this service agreement, the parties agree:
- (a) the service must meet a demonstrated clinical need and provide value for money;
 - (b) the commencement of a new service, including the implementation of new models of care, may occur where the service has been commissioned by the Department, a funding stream is in place and any conditions relating to the funding have already been agreed; and
 - (c) if the HHS wishes to commence providing a new service that has not been commissioned by the Department, this will remain subject to agreement by the Department at its discretion.
- 3.6 It is acknowledged that there may from time to time need to be service delivery changes between HHSs. Management of inter-HHS relationships should be informed by the following principles:
- (a) HHSs should maintain the proportion of out of HHS work undertaken unless as a result of agreed repatriation of patients;
 - (b) each HHS should manage patients from its own catchment population if it is within its clinical capability to do so as specified by the Clinical Services Capability Framework; and
 - (c) where it is proposed that a service move from one HHS to another, the Department will consider, as part of its review under clause 3.4 and 3.5, whether the respective Health Service Chief Executives endorse the proposed change in patient flows; and the funding required to follow the patient.

4. Performance and Accountability Framework

Purchasing contracts are capped and an HHS will not be paid for additional activity with the exception of activity that is in scope for the identified purchasing incentives as set out in Table 3.
Under performance	Activity is below that specified for in-scope activity as shown in Table 4.	Purchased activity and the related funding will be withdrawn at 100% of the Queensland Efficient Price and reallocated to an alternate provider that can undertake the activity. This includes incentive payments for HHSs who achieve targets in specific priority areas. The purchasing incentives are detailed in Table 3. The Department must reconcile the applicable purchasing incentives in Table 3 in line with the timeframes specified in the relevant purchasing specification sheet. The Department must provide a copy of the reconciliation statement to the HHS.
