**Speech to the Legislative Assembly of Queensland  
First Session of the Fifty-Third Parliament  
by Her Excellency Ms Penelope Wensley AO  
Governor of Queensland  
21 April 2009**

Honourable Members, you have been called together to make decisions on matters relating to the welfare and governance of our State.

Following a State election held on 21st March 2009, I invited the Honourable Anna Bligh to form an administration.

Ms Bligh was sworn in as Premier and Minister for the Arts on 26th March 2009, with a new Ministry.

The opening of this, the first session of the 53rd Parliament is an historic occasion.

It occurs in the year marking the 150th birthday of this great State – the separation of Queensland from New South Wales – and its establishment as an independent colony.

And, it marks the election of the first woman elected as Premier in Australia, in her own right.

It was on the 10th December, 1859 that the first Governor arrived to lead a population of just 25 000.

Then, Queensland had 12 police officers, 13 pubs and 14 churches.

Today, Queenslanders are protected by a police service of more than 10 000; they can quench a thirst at one of 7000 licensed premises and attend a service at more than 2100 churches.

Today, 4.32 million people call Queensland home.

Every week, 1800 more people move to Queensland.

That means Queensland welcomes the equivalent of its original population as new residents, every three months.

Next year marks the 150th anniversary of the first sitting of the Queensland Parliament at the Old Convict Barracks on Queen Street, which today is roughly opposite the Myer Centre in the Queen St Mall.

Today, the Parliament gathers in this magnificent building.

Honourable Members, the opening of this Parliament is set against the backdrop of the worst global economic conditions since the Great Depression and that brings with it enormous responsibility.

While certainly not of Queensland's making, the global financial crisis is leaving its mark on the State's landscape and will impact its future.

Governments around the world speak to a global recession.

Leaders predict further contractions in growth.

This crisis is costing more Queensland workers their jobs.

Analysts tell us conditions will get worse before they get better.

But my Government will work hard for a return to prosperity.

It has embarked on a program to stimulate the economy – to protect the jobs of today and create the jobs of tomorrow.

Honourable Members, my Government has a clear vision for this State.

My Government's Q2 program is focused on building tomorrow's Queensland.

It is a plan, a blueprint, to build a Queensland that is Strong, Green, Smart, Healthy and Fair.

My Government will create a strong Queensland – a diverse economy powered by bright ideas.

It has set a target to create at least 100 000 jobs in the next three years.

It is a tough target.

One compounded by rapidly changing economic circumstances.

But my Government will do everything possible to insulate Queensland from the effects of the financial storm, to cushion the impact and create jobs.

It will do this with a four-point plan.

The first step is a commitment to keep driving the record \$17 billion building program.

It is the largest building program in the country, keeping 119 000 people in jobs and creating demand in the economy.

My Government will continue to plan for, and invest in, the infrastructure that enables the economy to grow: the roads, rail and public transport.

It will build the social infrastructure: the schools and hospitals that service a growing population.

It will build the tourism infrastructure needed to secure Queensland's position as a premier tourist destination and its ability to attract premium events.

My Government will invest \$6.5 million in the successful Industry Capability Network to ensure that Queensland business and manufacturers receive the maximum benefit from the State's record capital works program.

Honourable Members, in these uncertain economic times, nothing has a higher priority than creating and protecting jobs.

Already, thousands of Queenslanders have lost their jobs in industries ranging from mining to manufacturing as a result of the financial crisis.

My Government stands ready to help each and every one of these people.

Initiatives such as my Government's Rapid Response Team will continue to match displaced workers with new jobs.

Honourable Members, my Government will deliver the biggest health infrastructure program ever undertaken in Australia, building or rebuilding ten major hospitals around the State.

This program will create almost 40 000 jobs.

It will include the new world-class Queensland Children's Hospital at South Brisbane.

It will do this, because that's what the experts say is best – a single dedicated children's hospital with the best medical expertise located in the one place.

My Government will continue to connect people and places with a multi-billion dollar road building program.

It will plan for growth, improved safety and reduced congestion through projects like the Houghton Highway duplication, the Gateway upgrade and Australia's largest road infrastructure program, the Airport Link and the new Airport Flyover.

Tunnelling is already underway and work is expected to be completed six months ahead of schedule.

This suite of projects will create 10 000 jobs.

Work on the Boggo Road, Eastern and Northern busways in Brisbane alone will generate almost 2400 jobs.

Together, these projects will create the most extensive network of dedicated busways in Australia.

Regional public transport infrastructure, like the Gold Coast Robina to Varsity Lakes rail line and the Caboolture to Beerburrum rail duplication will also be completed.

Honourable Members, delivering the Port of Brisbane upgrades; the Jillalan Rail Yards upgrade and Abbott Point Coal Terminal expansion; along with planning for the Northern Missing Link and Wiggins Island Coal Terminal, are central to my Government's expansion of export capacity in anticipation of economic recovery.

Major works like the Townsville Port Access Road, the Bundaberg Ring Road, and Central Queensland's Capricorn and Peak Downs highway upgrades will also improve access to these key regional economic drivers and importantly, create jobs.

My Government will continue to deliver the largest school building program in the country.

In the next three years, it will build 11 new schools through the \$850 million State Schools of Tomorrow program and continue to refurbish older schools with new and modern facilities.

My Government is committed to providing water security in South East Queensland.

The world's largest water grid is now in place and delivering water across the region.

My Government will complete this by delivering the Wyaralong Dam and continuing to develop the Traveston Crossing Dam.

Honourable Members, the second plank of the jobs plan is to prepare for the recovery from the global storm by developing skills for the future.

My Government will expand the skills base so Queensland is ready to lead Australia into the next period of growth.

It will launch the biggest local expansion of skills and training ever – investing more than \$400 million to create almost 150 000 new training places.

It will ensure that 10 per cent of workers on State and Federal infrastructure projects are apprentices and trainees.

It will reward employers who hire apprentices or trainees with a 125 per cent payroll tax rebate to build skills and encourage businesses to retain workers.

My Government is planning ahead.

Queensland's economy needs these young workers.

They are building their skills as the frontline of tomorrow's economy.

The third step of my Government's jobs plan is the creation of new jobs in industries of the future like the solar and LNG industries, and in a renewed focus on our traditional strengths like the tourism, agriculture and resource sectors.

Tourism keeps almost 120 000 people in jobs and contributes \$9 billion to the economy every year.

Supporting it is good business.

My Government is committed to building a strong and vibrant tourism and events sector, supported by the infrastructure needed to compete on a global stage for premium events.

It will fund a record \$38 million in new tourism marketing and infrastructure initiatives to help insulate our tourism operators from the effects of the financial storm.

It will invest \$60 million in the redevelopment of the Gold Coast AFL Stadium at Carrara and work with the Commonwealth to redevelop Reid Park in Townsville to stage the V8 Supercar Championship Series Event.

It will deliver the \$11.2 million Cairns Cruise Ship Terminal at the Heritage Wharf.

My Government is committed to maximising the economic potential of our primary industries in a sustainable manner.

It will continue to achieve the targets set in the ten-year Blueprint for the Bush and will implement the Biosecurity Strategy to ensure Queensland can respond quickly and effectively to pests and diseases.

My Government will continue to support the resources industry, which has suffered serious blows as a direct result of the global financial crisis.

It is planning for the recovery by fast-tracking mining approvals and building the export infrastructure needed for when world demand for Queensland commodities returns.

Many of the jobs my Government will create will come from new and emerging industries, like the Liquefied Natural Gas industry.

There are currently eight proposals on the books for LNG export start-ups in Queensland, an industry which until recently was not considered possible in this State.

An LNG industry in Queensland will create 6000 jobs in construction and contribute more than \$1 billion to the economy in operation.

My Government will clear the way for a gas 'superhighway' to help support the LNG industry, securing a land corridor for an underground gas pipeline to proposed LNG plants.

Further, my Government will create new green jobs by encouraging more renewable energy projects like the Cloncurry and Windorah solar projects and developing new industries accessing resources like geothermal and wind-generated power.

Harnessing the power of the sun in a State with such an abundance of sunshine is a key weapon in the fight against climate change.

My Government will create jobs in the solar energy sector through the new Solar Hot Water Program.

It will provide 200 000 solar systems at a fraction of the retail price, cutting Queenslanders' power bills by a third and reducing greenhouse gas emissions by at least two tonnes every year.

Honourable Members, the fourth plank of my Government's plan to create 100 000 new jobs is to develop new job programs like the Green Army.

My Government will create 3000 jobs, putting an army of unemployed people to work in our national parks, green spaces and waterways.

In doing so, it will help address two of the most important issues of modern times – protecting jobs and protecting the environment.

Honourable Members, as a State, a nation, and a global community we are fighting the calamity of the global financial crisis.

But my Government will not forget the other major challenge of the times – the effects of climate change on our environment and on Queenslanders' wellbeing as a people.

These are global problems that require local solutions.

My Government is committed to setting a new standard for tackling climate change.

It will continue to deliver the \$60 million ClimateSmart program to help Queensland households reduce their energy consumption to save power and money, and help reach the target of reducing Queenslanders' carbon footprint by a third by 2020.

It will pave the way to more sustainable development across the State by fast-tracking new green developments and will support jobs by boosting the green skills base in the building industry.

It will legislate to become the first Australian State to require six-star efficiency standards in all new houses making every one of the 33 000 new dwellings built each year, greener than ever before.

It will encourage greater use of public transport and pedal power, by requiring all new office buildings to include facilities for cyclists.

My Government will place a three month moratorium on the clearing of regrowth to allow consultation with landowners about how best to protect endangered vegetation.

It will introduce the *Carbon on Leasehold Land Bill*, which will enable leaseholders to participate in, and benefit from, the Carbon Pollution Reduction Scheme.

Honourable Members, the Great Barrier Reef is one of our most precious treasures and Government has an obligation to protect it for generations to come.

My Government will regulate to cut by 50 per cent the level of dangerous pesticides and fertilisers running into the reef.

Queensland's natural environment and lifestyle are the envy of the world.

To showcase our stunning natural landscapes, my Government, in partnership with traditional owners, will start work on a 2000 kilometre walk stretching from the Daintree River to the tip of Cape York.

It will be one of the longest and most spectacular walks in the world, creating up to 1000 jobs and injecting millions of dollars into the local economy.

Queensland has 297 national parks covering desert to rainforest to reef, and providing vital protection for native plants and animals in the face of climate change.

My Government is committed to preserving these and other natural wonders for future generations.

It will increase the national park estate by 50 per cent to almost 13 million hectares – almost twice the size of Tasmania.

It will extend the ground-breaking Wild Rivers protection program to Queensland's south west Channel Country, preserving rivers with their natural values intact.

Honourable Members, a strong Queensland, a green Queensland, is also a smart Queensland.

My Government understands that investment in knowledge, research, innovation and new technologies is critical to future growth and prosperity.

It will build on its successful Smart State programs to build new world-class research facilities like the Queensland Institute of Medical Research.

It will continue its investment in new research fellowship programs to bring the world's best and brightest to Queensland.

My Government will work with the IT industry and the Federal Government to maximise use of new technologies and the expansion of broadband capacity across this decentralised State.

Queenslanders are this State's greatest asset and while the education and skills level of its people have improved, they are not yet nation or world-leading.

My Government will invest in the Queensland of tomorrow to ensure people are more educated and better skilled – ready to make the most of the opportunities that new technologies will bring.

Investing in education is one of the best investments a government can make.

My Government will employ more than 1000 teachers in the next three years.

It will create an extra 500 teacher aide positions, providing schools with 15 000 hours more help every week and drive improvements in academic performance.

It will invest \$72 million in new literacy and numeracy programs, lifting Queensland's academic standards to match those of the highest performing States, and introduce the \$43.5 million Science Spark program to reignite students' interest in science.

Honourable Members, Queensland children are reaping the benefits of the Prep year.

They are making gains in numeracy and literacy and even greater gains in physical development and social and communication skills.

My Government will build on the full year of Prep giving more children access to high quality early education, providing 240 new kindergartens statewide.

My Government is committed to a healthy Queensland, delivering better health services and making Queenslanders Australia's healthiest people.

It will continue to drive the \$10 billion Health Action Plan, the biggest single injection of funds into the State's health system in Queensland's history.

It will employ at least 3500 more doctors, nurses and allied health workers and keep building the system to treat more patients than ever before.

It will expand the busiest emergency departments in Brisbane, Logan, Redlands, Ipswich, Caboolture, Bundaberg, Toowoomba and Townsville.

It will free up beds for incoming patients by investing in more transition and rehabilitation care.

It will deliver 20 000 more elective surgery operations through the Surgery Connect program.

It will strengthen the clinical workforce and implement creative solutions like 'telehealth' so people living in remote and rural Queensland can have better access to specialists using new technologies.

When it comes to health care, it starts with Queensland children.

My Government will make sure children get the very best start in life.

It will invest \$42 million to expand child and maternal health services in rural and regional Queensland so women can receive maternity support closer to home.

It will designate specific areas in emergency rooms for children and their parents to wait for treatment.

It will continue the rollout of fluoride into the State's drinking water supplies, to help protect childrens' teeth by significantly reducing tooth decay.

By the end of this year at least 80 per cent of Queensland will have access to fluoridated water with work continuing in the regions, including remote Indigenous communities, in 2010.

Honourable Members, too many Queenslanders experience the devastation of Cancer.

My Government will invest \$15 million in new patient accommodation for people who live in rural and regional Queensland and who need to travel to major cities for specialist treatment.

It will also deliver new oncology centres at the Rockhampton, Cairns and Gold Coast hospitals.

As part of my Government's plan to make Queenslanders Australia's healthiest people, it will work to reduce the incidence of preventable diseases like Type 2 Diabetes and skin Cancer.

It will encourage people to lead healthier lives by investing in programs and facilities like community sport and aquatic centres, playing fields, walkways and cycleways.

Honourable Members, my Government's vision for Queensland includes safer and more caring communities.

That includes more police on the streets.

My Government will employ at least 600 new police officers and support them with the best equipment and resources to do their jobs.

It will invest more than \$366 million in new or improved police stations and equipment.

My Government will continue to be tough on crime.

This year, it will introduce a range of new laws to help make Queensland communities safer.

It will crack down on outlaw motorcycle gangs and introduce new telephone intercept powers to help police fight organised crime.

It will also ensure a balanced approach to juvenile crime, giving the courts new powers including longer mandatory sentences for young people convicted of serious repeated crimes.

Honourable Members, our State and nation have experienced the worst extremes, from devastating floods in the north and north-west of our State, to the tragedy of the bushfires in Victoria.

In these times of need, Queenslanders reach out to local heroes like the State Emergency Service and Rural Fire Brigade.

Their commitment helps communities recover.

My Government acknowledges the importance of these heroes.

It will invest almost \$13 million in 90 new vehicles and equipment for the SES and 14 new fire engines for the RFS.

Surf Lifesaving Queensland will receive a \$6 million helicopter for the south east and funding for additional services from the Sunshine Coast to Cairns to help keep Queensland tourists and locals safe on our beaches.

In striving for a fairer community my Government will also continue to tackle the issue of Indigenous disadvantage.

My Government's commitment to closing the gap in Indigenous life expectancy, health and opportunity is stronger than ever.

It will work to ensure Indigenous Queenslanders have better access to services and equal access to funds allocated for literacy and numeracy programs.

It will continue the positive work being done in Indigenous communities through the Family Responsibilities Commission and will implement initiatives to encourage better school attendance and create jobs.

Honourable Members, having a place to call home is a privilege many Queenslanders take for granted.

Unfortunately, homelessness is a reality for many.

My Government will work with the Commonwealth to tackle homelessness.

It will build low-cost, affordable housing for displaced people and provide the support they need to get lives back on track.

Honourable Members, my Government will continue to hold Community Cabinet meetings in regional Queensland because great ideas and great ways of doing things come from members of the community.

My Government will be one that listens and responds to the challenges of the times.

At this historic opening of Parliament, we heed the words and the lessons of our forebears.

150 years ago, in his first address to Queensland's first Legislative Assembly, Governor Sir George Ferguson Bowen said:

*"The future destiny of this colony will depend in no slight degree on the members.*

*... an arduous and responsible but most important and interesting task awaits us;*

*... this great portion of the earth begins its political life with noble principles of freedom, order and prosperity;*

*... but I say in all sincerity, it is on your prudence, knowledge and experience that I depend."*

Honourable Members, in opening this first session of the 53rd Parliament, I have set out the key initiatives of my Government's program for this term.

I trust your individual and combined efforts in representing Queensland will enhance the lives of its people and that they will promote the present and future wellbeing of our State.

And, Honourable Members, I trust that in doing so, you will bring the prudence, knowledge and experience urged by Governor Bowen to your responsibility to maintain those values and principles which lie at the heart of our democracy: compassion, humanity and social justice.

## QUEENSLAND GOVERNMENT VACANCIES GAZETTE

The Queensland Public Service is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants. The Queensland State Government's policy is to seek to retain skilled staff. Registered deployees who apply for an advertised job will be considered before other applicants. The symbol (g) appears next to vacancies where an exemption from this requirement applies. Deployees are to indicate in their application for the advertised job that they are registered with the Office of the Public Service Commissioner. The Queensland Public Service Commissioner is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants.

### CONTINUOUS APPLICANT POOLS

A continuous applicant pool allows you to apply for jobs within an occupation where vacancies are regularly available. This means that agencies can 'dip' into the pool for suitable applicants as soon as they have a vacancy. You can submit or refresh your application at any time. If you are refreshing your application, make sure that you indicate this either on your email or, if sending by post, in a covering letter. In search results, continuous applicant pools can be identified by 'Ongoing' in the 'Closes' column of a search result.

Note: If a continuous applicant pool is closing, applicants will be notified two weeks prior to this date. Applications may be used for up to six months after the pool closes.

### MULTI-AGENCY POOLS

Some Queensland Government agencies are on the lookout for people to fill similar jobs or occupations at the same time. Some of these jobs have a fixed closing date and others are ongoing (continuous applicant pools). With multi-agency pools, you only have to apply once to access job opportunities across participating agencies. Your application will then be able to be viewed and assessed by all the agencies in that pool - or, if you prefer, you can specify that you want to be considered only for particular agencies. Make sure you check the specific vacancy to find out how each pool works.

### HOW TO APPLY

When you have found the job you would like to apply for.

1. You can phone for a copy of the information kit or you can download the documents from the Smart Jobs and Careers website at [www.jobs.qld.gov.au](http://www.jobs.qld.gov.au). The information kit will include:
  - the position or job description detailing: background of the department or work area; roles and responsibilities, and selection criteria
  - a job information package, outlining the procedure for preparing and sending in your application, and
  - an application cover sheet.
2. Do your homework - research the agency to understand the background to the job.
3. Prepare your application. This should include your:
  - completed cover sheet (available on jobs online or in the kit mailed to you)
  - covering letter
  - resumé / curriculum vitae
  - names and contact details of (2) referees, and
  - responses to the selection criteria if required.
4. Mail or email your application (Details of where and how are available in either the job description or the job information package).

Check with the job vacancy contact person if you are unsure about how or where to submit your application or how many copies to send. Make sure you send your application by the closing date. If you don't, it may not be accepted. Once your application is received, you will usually be sent a written acknowledgement.

When applying for Continuous Applicant Pools, please check each vacancy for application instructions.

## SENIOR EXECUTIVE SERVICE VACANCIES

### TERMS AND CONDITIONS OF EMPLOYMENT

Appointees to the Senior Executive Service are offered an attractive remuneration package with salary sacrifice in return for optional benefits including.

- Private use component of a fully maintained government owned motor vehicle;
- Membership options of the Government Superannuation Schemes, including generous employer superannuation contributions
- Professional organisation membership fees.

The total remuneration value amount listed against positions includes the private use component of a motor vehicle, employer superannuation contributions and the 17.5% annual leave loading. In addition to the salary and optional benefits, executives will be entitled to:

- Queensland Public Service leave conditions, including four (4) weeks annual leave, cumulative sick leave and long service leave.

Upon appointment, the executive will also be eligible to receive significant removal allowances and rental assistance if necessary. Appointees will be required to enter a contract of employment. Existing tenured SES officers who are appointed at the current SES level or by redeployment may, but are not required to, enter into a contract of employment.

*Queensland Competition Authority Act 1997*

Criteria for use by the Premier and the Treasurer of Queensland for deciding whether to declare a government business activity to be a monopoly government business activity are as follows:

A government business activity should be declared a monopoly business activity wherever competitive pressures do not effectively constrain its provider's commercial behaviour.

The criteria to be addressed in determining this are:

- (a) **[business activity]** The activity involves a trading in goods or services;
- (b) **[government business activity]** The business activity is:
  - carried on by a State government agency; or
  - a significant business activity carried on by a local government entity; and
- (c) **[commercial behaviour not constrained by competitive pressures]**
  - There is an absence of vigorous rivalry in the market in which the activity occurs and barriers to entry into that market exist.

OR

- If the evidence regarding rivalry and barriers to entry is inconclusive, there is evidence that the provider of the activity is exercising substantial market power. This may include that it is earning an excessive return, would be earning an excessive return were it not operating inefficiently, or is cross subsidising.

Criteria for use by the Premier and the Treasurer of Queensland for deciding whether to declare a candidate water supply activity to be a monopoly water supply activity are as follows:

A candidate water supply activity should be declared a monopoly water supply activity wherever competitive pressures do not effectively constrain its provider's commercial behaviour.

The criteria to be addressed in determining this are:

- (a) **[water supply activity]** The activity involves carrying on a business, the main purpose of which is: water storage, including water storage for another person; or water delivery services; or supplying water to another person, other than supplying bottled or containerised water;
- (b) **[candidate water supply activity]** The water supply activity is:
  - carried on by a water supplier; and
  - declared under a regulation to be a candidate water supply activity; and
- (c) **[commercial behaviour not constrained by competitive pressure]**
  - There is an absence of vigorous rivalry in the market in which the activity occurs and barriers to entry into that market exist.

OR

- If the evidence regarding rivalry and barriers to entry is inconclusive, there is evidence that the provider of the activity is exercising substantial market power. This may include that it is earning an excessive return, would be earning an excessive return were it not operating inefficiently, or is cross subsidising.
