## POLICY FOR SMITH STREET CONNECTION ROAD - 101

#### 1 PURPOSE

The purpose of this policy is to protect the function, safety and efficiency of Smith Street Connection Road (the "**Road**") by setting out the principles that will be applied when making decisions under s 62 of the *Transport Infrastructure Act 1994*.

The management of access is essential in ensuring that the vision for the Road can be achieved by:

- maintaining high safety levels;
- catering for growth and facilitating changing land use; and
- providing for increased road capacity.

## 2 HEAD OF POWER

This policy has been made pursuant to s 54 of the Transport Infrastructure Act 1994.

#### 3 ROAD VISION

The following vision for the Road sets the context within which the Policy Principles (section 5) and the Policy Strategies (section 6) will be applied:

The Road is the primary connection off the Pacific Motorway (M1) to the Southport business district. It is an extremely important link servicing M1 road users from the North and South travelling to the Gold Coast University Hospital, Gold Coast Private Hospital, Griffith University and the Parklands residential village precinct. The Road has an AADT (2019) at Molendinar of 69,200 Vehicles Per Day with 5.1 % heavy vehicles. The Road is part of the road freight network and is an approved B-double route from M1 to Olsen Avenue to service the industrial areas of Molendinar, Labrador and Southport. All major intersections are signalised with provision for pedestrians and cyclists, except for the Olsen Avenue interchange which is grade separated.

The corridor is multi-modal with the Gold Coast Light Rail network running parallel to the Road for approximately 3.6 km and two stations along the Road namely Parkwood Station and Parkwood East Station. The South East Principal Cycle Network runs adjacent to the Road, which is partially constructed and is planned to be continued with future planned upgrades. Furthermore, Smith Street Connection Road will play an important role in supporting the Coomera Connector and M1 upgrades.

## 4 APPLICATION

This policy will be applied in assessing applications made under s 62 or 62A of the *Transport Infrastructure Act* 1994.

This policy will also be applied in:

- the preparation, amendment or review of local, state and federal government planning schemes and other planning instruments to ensure that:
  - land uses reflect the Policy Principles and Policy Strategies and preserve the function of the Road;
  - the local road network is developed to provide access to land where access from the Road is not supported;
  - $\circ$  the vision for the Road identified in section 3 is accommodated; and
- general transport planning relevant to managing access to limited access roads.

## 5 POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road, the following principles will be applied:

- vehicular access must not compromise safety of the users of the Road or any other transport infrastructure;
- vehicular access must be consistent with the functional requirements of the Road;
- vehicular access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled road network.

In applying the principles, regard will be had to the following strategies:

- (1) the strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*<sup>1</sup>; and
- (2) the Policy Strategies set out in section 6.

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the Policy Strategies set out in this policy, the Policy Strategies set out in this policy prevail.

A proposal will be consistent with this policy if it meets the Policy Principles and all relevant Policy Strategies.

## 6 **POLICY STRATEGIES**

## SAFETY

# Principle 1: vehicular access must not compromise safety of the users of the Road or any other transport infrastructure.

Safety is paramount in the road environment. Adequate levels of safety must be ensured for all users of the Road, including motorists, pedestrians and cyclists.

Strategy 1

No policy strategies

## FUNCTION

# Principle 2: Vehicular access must be consistent with the functional requirements of the Road.

The primary function of the Road is to access the Gold Coast Health and Knowledge precinct and the Southport business district. To preserve this, the through function of the Road will be protected by not permitting any additional direct property access.

## Strategy 1

# Direct access to the Road will not be permitted.

All new access for land adjacent to the Road is to be facilitated via the surrounding local road network. The road is an important link servicing a large amount of traffic including emergency vehicles associated with two prominent hospitals.

No new direct access will be provided to ensure that the functional requirements of the Road are met.

## **FUTURE INTENT**

# Principle 3: Vehicular access must be consistent with the current or planned intent for the Road corridor and the wider network.

The Road is to continue performing its current function as an east-west arterial and motorway link between the Pacific Motorway and the Southport business District, also servicing the Griffith University and Gold Coast University Hospital precinct. The Road will continue to form an integral role in the regional transport network and will support future state road projects such as Pacific Motorway upgrades and the Coomera Connector.

#### Strategy 1

# Direct access to the Road will not be permitted.

All new access for land adjacent to the Road is to be facilitated via the surrounding local road network which will:

- preserve the ability to provide for public and active transport options (such as cycleways and transit lanes) in the future.
- minimize the need for land resumptions from adjoining properties
- maintain the ability to provide additional capacity in the vicinity of key intersections where required by growth in traffic volumes.
- protect the Road's intended strategic function as a major arterial road.

## 7 APPROVAL

This policy applies to the Road and will be applied when making decisions under s 62 of the *Transport Infrastructure Act* 1994.

Dated: 30<sup>th</sup> April 2021

Signed: Paul Noonan

Paul Noonan (Regional Director, South Coast Region) Delegate of the Director-General, Department of Transport and Main Roads
