Notice is hereby given that Central Highlands Regional Council resolved to adopt Temporary Local Planning Instrument 02/2022 – Operational work involving vegetation clearing within the Carnarvon Gorge area - specifically lots 7AP15625, 7SP103687, 6SP103687, 236NPW490 (Segment No. 44206, Parcel No. 17), 8CUE78 and 10CUE87, on 25 May 2022.       (iii) other persons wholly dependent on the customer; or

(iv) other persons who receive an income support payment from Services Australia or Department of Veterans' Affairs and who do not pay rent; or

(v) other persons who live with the customer to provide care and assistance and who do not pay rent; and

(d) declares that no other person(s) except casual visitors share the residence with the customer; and

(e) makes application for a rebate either by submitting the relevant form or, at the discretion of the retail entity, by providing the relevant information and declarations by telephone or electronic means.

2. Where an electricity account is in more than one name, and more than one resident is eligible to receive the rebate, each resident may have their eligibility established. However, only one rebate per household will be paid.

3. The retail entity may, at any time, require a new application from a customer and if the customer fails to lodge a new application within the time specified by the retail entity the rebate shall cease.

4. A Queensland Government Electricity Rebate is also applicable to the electricity account of residential home parks and other similar multi-tenanted residential premises provided the following sub-conditions are met:

(a) the customer (i.e. the owner or operator of the multi-tenanted residential premises) of the retail entity at the premises concerned –

(i) supplies electricity to the separately identifiable vans, flats or home units, or other similar living units at the premises; and

(ii) charges for electricity on the basis of metered consumption; and

(iii) is claiming the rebate on behalf of eligible persons (other than the person being a customer of the retail entity) residing at the premises ('claimant residents'); and

(iv) passes on the rebate in full to each claimant resident by way of a reduction in charges for electricity; and

(v) has obtained each claimant resident's authority to:

(A) apply for the rebate; and

(B) verify the claimant resident's details with the Australian Government Services Australia or the Department of Veterans' Affairs or the Department of Home Affairs or the Queensland Government Department of Seniors, Disability Services and Aboriginal and Torres Strait Islander Partnerships; and

(C) disclose their details in connection with eligibility and receiving the rebate; and

(vi) has sighted the claimant resident's Pensioner Concession Card, Health Care Card, Repatriation Health Card for all Conditions (Gold Card), Queensland Seniors Card or ImmiCard at the time the application for the rebate is made, to ensure it is issued in the name of the claimant resident; and

(b) each separately identifiable living unit for which the rebate is claimed is occupied, from the day the claimant resident has applied to the customer, by persons who, if they had been supplied directly by the retail entity, would have been eligible for the electricity rebate; and

(c) a rebate is applicable to claimant residents for electricity consumed in the billing period to which the customer's electricity account relates, from the day the claimant resident has applied to the customer; and

(d) a completed rebate application form, in writing, must be produced with the customer's electricity account at the time payment is tendered.

5. The rebate is $ 0.9270 (GST exclusive) per day, applied against the amount billed under the applicable tariff (GST exclusive) for the retail services provided to the customer in the billing period to which the rebate relates. The retail entity must apply the rebate to provide the maximum benefit to the customer.

6. The amount of the rebate paid shall not be greater than the amount billed (GST exclusive) for customer retail services provided to the customer in the billing period to which the rebate relates.

7. For rebate recipients supplied with card-operated meters, given these customers do not receive an electricity bill, the retail entity will agree with the Department of Seniors, Disability Services and Aboriginal and Torres Strait Islander Partnerships for a delivery process providing, over the financial year, a rebate on electricity costs comparable with the rebate received by customers on other metering arrangements.

RELIEF FROM ELECTRICITY CHARGES WHERE DROUGHT DECLARATION IN FORCE

The following outlines relief assistance available for Queensland farmers located in drought declared areas or whose properties are individually drought declared under Queensland Government administrative processes. Assistance is available through waivers or reimbursements of certain fixed charge components of relevant electricity accounts. Customers of Ergon Energy Queensland Pty Ltd may also apply for deferral of electricity charge payments. For information about current drought declared areas and the declaration process visit www.business.qld.gov.au/industries/farms-fishing-forestry/agriculture/rural-disaster-recovery/drought/declarations-revocations.

Customers of Ergon Energy Queensland Pty Ltd

A Standard Contract Customer of Ergon Energy Queensland Pty Ltd who is a farmer in a drought declared area or whose property is individually drought declared under the Queensland Government administrative processes, may apply for one or more of the following forms of relief from electricity charges:

(A) Waiving of fixed charge components of electricity charges

If a customer of Ergon Energy Queensland Pty Ltd who is a farmer located in a drought declared area or whose property is individually drought declared, does not have access to, or has severely restricted access to, farm or irrigation water, the customer may apply for a waiver of fixed charge components of the customer's electricity account. These fixed charge components include the daily supply charge, metering charge and annual fixed charge but exclude minimum demand charges as set out in the Retail Electricity Prices for Standard Contract Customers Tariff Schedule.

Provided the drought declaration remains operative, the waiver applies to all eligible fixed charges applicable to any account being used primarily for pumping water for farm or irrigation purposes. The waiver shall continue to apply until the drought declaration is revoked.

(B) Deferral of payment

If a customer of Ergon Energy Queensland Pty Ltd who is a farmer in a drought declared area or whose property is individually drought declared, does not have access to or has severely restricted access to farm or irrigation water and experiences financial difficulties as a result of the drought, the customer may apply to defer payment of the customer's electricity accounts relating to farm or irrigation usage. In applying for payment deferrals, the customer may be required to provide supporting evidence, such as a statement of financial position prepared and certified by a financial counsellor/adviser or the customer's bank or accountant or a statutory declaration.

Ergon Energy Queensland Pty Ltd may charge interest on deferred accounts. However, the rate of any interest charged must not be more than the Bank Bill reference rate for 90 days, as published on the first business day of each quarter.

A deferral period beyond 12 months (or such other period agreed by Ergon Energy Queensland Pty Ltd) may be subject to review of the customer's circumstances by Ergon Energy Queensland Pty Ltd. Ongoing bill deferrals are subject to the customer engaging with Ergon Energy Queensland Pty Ltd regarding repayment of the deferred amount plus the payment of any future energy usage charges.

Eligibility for relief

A customer of Ergon Energy Queensland Pty Ltd seeking relief from electricity charges on the basis that the customer is a farmer who is in a drought declared area or whose property is individually drought declared, must apply in writing to Ergon Energy Queensland Pty Ltd, using the appropriate application form.

The customer may apply at any time from the commencement date of the drought declaration relevant to their area or individual property. Claims may be made for invoices within six months of the date of issue of the electricity invoice for which relief is being sought. Claims may not precede the commencement date of the relevant drought declaration.

On 1 July 2021, the Queensland Government introduced the Electricity Tariff Adjustment Scheme (ETAS). ETAS works independently of DRECS and offers transitional assistance for businesses supplied by Ergon Energy Queensland Pty Ltd that face a significant increase in electricity charges when switching from obsolete tariffs to standard retail tariffs. Where a customer is receiving transition rebates via ETAS, the customer will continue to be eligible for DRECS. If the ETAS benefit is greater than the DRECS benefit, the difference shall be applied under ETAS. When backdating a DRECS waiver, only the value of the backdated DRECS above the value of the ETAS transition rebate already received for the backdated period is payable.

The customer must provide the following as part of their DRECS application:

a) evidence that the customer's property is in a drought declared area or is individually drought declared, including the effective date of such drought declaration;

b) confirmation that the water pumping restrictions apply to the customer's property;

c) a statutory declaration stating the specific electricity account(s); that the connection is normally used primarily for pumping water for farm or irrigation purposes; and that the customer has no, or severely restricted access, to water;

d) if the connection has other use(s), other than water pumping, the approximate proportion of electricity normally used for pumping water for farm or irrigation purposes when not drought declared (to be included in the statutory declaration provided under paragraph c); and

e) supporting evidence of financial difficulties, such as a statement of financial position or a statutory declaration.

For all customers who are recipients of DRECS on 31 December 2021, the following applies from 1 January 2022:

- To continue receiving DRECS, small customers (consuming less than 100 megawatt hours (MWh) per annum) must be supplied on the regulated retail tariff they were supplied on as at 31 December 2021 or when their application for DRECS was made, whichever is the latter;
- To continue receiving DRECS, large customers (consuming 100MWh or more per annum) must be supplied on the regulated retail tariff that provides the DRECS recipient's relevant NMI the lowest annual charge without taking into account the assistance provided by DRECS, excluding controlled tariffs and based on the capabilities of the NMI's meter.

Where the status of a drought declaration or individually drought declared property is revoked, customers receiving DRECS assistance at the time of the revocation will continue to be eligible for DRECS until the date of the revocation, regardless of any tariff change which may occur following the revocation and during the same billing period as the revocation date.

Customers of other retailers

Customers of retailers other than Ergon Energy Queensland Pty Ltd who are farmers in drought declared areas or who have a property which is individually

drought declared under Queensland Government administrative processes can apply directly to the Department of Energy and Public Works.

If a farmer, as a result of drought does not have access to, or has severely restricted access to, normal or usual supplies of farm or irrigation water, the fixed components of the customer's electricity charges will be reimbursed. These fixed charge components include the daily supply charge, metering charge, and annual fixed charge but exclude minimum demand charges. To be eligible, the customer must apply within six months of the date of issue of the electricity invoice for which relief is being sought. If the electricity invoice is dated prior to the date of commencement of the drought declaration, the reimbursement will only apply to the component from the date of commencement of the drought declaration.

Customers must attach a statutory declaration stating the specific account(s); that the connection is normally being used primarily for pumping water for farm or irrigation purposes; and that the customer has no, or severely restricted, access to water. If the connection has other use(s), other than water pumping, the approximate proportion of electricity normally used for pumping water for farming or irrigation use when not drought declared must be stated in the statutory declaration.

Provided the drought declaration remains operative, the reimbursement applies to all eligible fixed charges applicable to any account being used primarily for pumping water for farm or irrigation purposes and ceases once the drought declaration is revoked.

For all customers who are recipients of DRECS on 31 December 2021, the following applies from 1 January 2022:

- To continue receiving DRECS, small customers (consuming less than 100 megawatt hours (MWh) per annum) must be supplied on the tariff they were supplied on as at 31 December 2021 or when their application for DRECS was made, whichever is the latter;
- To continue receiving DRECS, large customers (consuming 100MWh or more per annum) must be supplied on the tariff that provides the DRECS recipient's relevant NMI the lowest annual charge without taking into account the assistance provided by DRECS, excluding controlled tariffs and based on the capabilities of the NMI's meter.

Where the status of a drought declaration or individually drought declared property is revoked, customers receiving DRECS assistance at the time of the revocation will continue to be eligible for DRECS until the date of the revocation, regardless of any tariff change which may occur following the revocation and during the same billing period as the revocation date.

- (a) to enter upon and traverse the Burdened Land for any purpose whatsoever connected with the Council's Water Supply Powers and whether or not such entry or traversement is for the benefit or detriment of the Burdened Land and whether or not it is for the benefit of the Owner's Land or any neighbouring or other lands;
- (b) to carry out such works on the Burdened Land and do such things including, without limiting the generality of the foregoing, digging, sinking shafts, erecting scaffolding, opening and breaking up the soil both surface and subsurface, constructing manholes, placing and operating machinery and equipment, storing soil and gravel, laying Pipes, digging trenches and laying concrete on or within the Burdened Land as the Council in its absolute discretion considers necessary or desirable for any purpose whatsoever connected with the Council's Water Supply Powers and whether or not such works and things:

  - (ii) are for the benefit of the Owner's Land or any neighbouring or other lands; and
- (c) to effect the uninterrupted passage of or flow and conveyance of water or for any purpose connected with any water supply scheme approved by the Council for the supply of water above or beneath the surface of the Burdened Land and through and along the Pipes.

2. Limitation

2.1 The powers, rights and liberties contained in clause 1 shall in all respects be limited to:

3. Council's Agents and equipment

3.1 The Council in exercising any of the powers, rights and liberties conferred by this document may do so by itself or by any one or more of Council's Agents.

4.2 Without limiting clause 4.1, the Owner must ensure that any works which are constructed on or in the Burdened Land pursuant to an approval given under the Planning Scheme do not obstruct, interfere with, damage or cause any change or alteration to any works constructed by Council within the Burdened Land

4.3 For the purpose of gaining access to the Burdened Land, Council may demolish or break open any fencing on or adjacent to the Burdened Land, but where livestock are contained within the fenced area sufficient notice must be given to the Owner to enable the livestock to be secured.

A gate so installed becomes the property of the Owner and thereafter must (subject to clause 4.4) be maintained by the Owner.

5. Council may remedy breach

5.1 If the Owner or any occupier of the Burdened Land or part of it breaches any part of clause 4, Council or Council's Agents may (without prejudice to any other remedy which Council might have) remedy such breach by:
- (a) demolishing, removing or otherwise disposing of any Structure, paving, vegetation or thing whatsoever;
- (b) performing any works or doing anything necessary for restoring, repairing or reinstating the Drains or Pipes and the Burdened Land (including re-grassing it) and reforming the natural or artificial features containing or assisting in containing the flow of water and other matter, as the case may be, above under or through the Burdened Land to their former state and condition;

(c) altering, grading, paving, preparing, grassing and fertilising or mowing the surface of the Burdened Land or placing, installing, establishing or constructing and keeping any earthworks and any other works whatsoever (whether of the class just mentioned or not) on or in the Burdened Land.

5.3 The Owner confers on the Council and the Council's Agents all of the powers, rights and liberties mentioned in clauses 1 and 3 for the purpose of carrying out the rights, powers and remedies conferred on the Council by clause 5.1.

6. Council may use Immediately Adjacent Land

6.1 The Owner gives express permission (which permission is declared to be irrevocable) to Council and Council's Agents and if necessary with vehicles, machinery and equipment of any description whatsoever and whether laden or unladen to come onto and use such Immediately Adjacent Land as may be occasionally required by Council in the exercise of or incidental to its rights, powers and liabilities under this document and in this regard the Owner confers on Council and Council's Agents all of the rights, powers and liberties mentioned in clauses 1 and 5 of this document, so long as such rights, powers and liberties are not exercised or utilised on a permanent or prolonged basis.

6.2 If Council or Council's Agents exercise any rights, powers or liabilities pursuant to clause 6.1 Council undertakes to indemnify and save harmless the Owner in respect of any loss or damage sustained by the Owner as a result of exercising those rights, powers and liberties and it agrees to make good and restore to a reasonable condition (having regard to its original condition) the surface of that part of the land utilised by Council pursuant to such rights, powers or liberties unless the exercise of such rights, powers and liberties were occasioned by the wilful or negligent act of the Owner its employees, agents, invitees or licensees or the occupier of the Owner's Land, or any part of them, adjacent to the Burdened Land.

6.3 Clause 8 with any necessary changes, applies to the Immediately Adjacent Land.

7. Indemnity

7.1 The Owner indemnifies Council and agrees at all times hereafter to keep it indemnified in respect of any claims, demands or actions which are made or brought against Council as a result of the installation, maintenance or use of the Drains or Pipes if such loss, damage, claim or action is in any way attributable to the negligence or deliberate act of the Owner, its servants, agents, employees, invitees or licensees or the occupiers of the Owner's Land.

8. Owner to maintain Burdened Land

8.1 Subject to clause 8:

(a) the Owner shall at all times maintain and keep the Burdened Land and the Owner's improvements on and in the Burdened Land (but, subject to clauses 8.1 (b) and 8.1(c), excluding the Drain or Pipes) in good order and repair and in a clean and tidy condition;

(b) if there are no such improvements or if the Drain is an open Drain (with or without embankments) the Owner undertakes to grass the Burdened Land and to keep it properly grassed and mown or otherwise appropriately vegetated to the reasonable satisfaction of Council; and.

(c) if Council constructs works or provides vegetation to minimise scouring or erosion within the Burdened Land then Council will maintain such works other than vegetation. The Owner shall maintain all vegetation in accordance with clause 8.1(b).

8.2 Without limiting the Owner's obligations to maintain vegetation under clause 8.1(b), if an approval given under the Planning Scheme requires the Owner to maintain any works constructed by Council on or in the Burdened Land, then the Owner must at all times maintain and keep those works and improvements in good order and repair and in a clean and tidy condition at the Owner's expense.

9. General Provisions

9.1 Notwithstanding any rule of law or equity all Drains, pipelines, Pipes, drips, valves, fittings, meters, connections and all other equipment and appurtenances brought onto, laid or installed upon or buried in or under the Burdened Land by Council at all times remain the property of Council notwithstanding that they are or might be annexed to the Burdened Land.

9.2 At any time and from time to time Council may remove all Drains, pipelines, Pipes, drips, valves, fittings, meters, connections and all other equipment and appurtenances brought onto, laid or installed upon or buried in or under the Burdened Land in whole or in part.

9.4 The Owner shall execute every deed, instrument or assurance, and do everything, for further or more effectually securing the rights or interest of Council to or in the Burdened Land or any part or parts of it under this document as Council reasonably requires.

9.5 This document is of the same force and effect to all intents and purposes as a covenant running with the land. The benefit, and burden, of the stipulations of this document extend to, and bind and ensure to, all persons deriving title from or under Council, and the Owner, respectively.

9.6 The provisions of section 85B of the *Land Titles Act 1994* (Qld) in relation to contributions are specifically excluded from this document.

9.7 If approval is given under the Planning Scheme for the Owner to grant another easement to a third party over the Burdened Land (Third Party Easement):

(a) any infrastructure which is installed pursuant to the Third Party Easement must be approved in writing by Council or the Director upon such terms and conditions as Council or the Director imposes or stipulates in the event of such permission being granted;

(b) the rights and interests of the grantee under the Third Party Easement must not interfere with Council's rights and interests under this document; and
