1. **Title:** **Public Interest Disclosure Standard**
2. **Effective date:** **1 January 2011**
3. **Authority:** Issued by the Commission Chief Executive of the Public Service Commission under **section 60** of the *Public Interest Disclosure Act 2010* ("the Act").

Note: Links to the *Managing a Public Interest Disclosure Program – A guide for public sector organisations* ("the Guide") jointly published by the Public Service Commission, Crime and Misconduct Commission and the Queensland Ombudsman will be noted in brackets after a section heading (e.g.: links to 1.2 of the Guide).

4. **Application:** This standard applies to and is binding on all public sector entities within the meaning of section 6 of the Act. In addition, the standard will apply to corporate entities and Government Owned Corporations (GOCs), to the extent that the Act expressly applies to those organisations¹.
5. **Definitions and Terms**
For the purposes of this standard:

Discloser	- the person who makes a PID
entity	- public sector entities, corporate entities and government owned corporation (GOCs)
PID	- Public Interest Disclosure
PSC	- the Public Service Commission
subject officer	- the person about whom a PID is made

6. **Standards:**

6.1. **Organisational commitment** (links to 1.1 and 1.5 of the Guide)

- 6.1.1 The Chief Executive must develop, implement and maintain a management program for PIDs under section 28 of the Act. This management program must, as a minimum, address the following:
- organisational commitment to encouraging the internal reporting of wrongdoing;
 - senior management endorsement of the value to the entity of PIDs and the proper management of PIDs and disclosers;

¹ The application of this standard to GOCs is subject to section 60(7) of the Act.

- a communication strategy for raising staff awareness about PIDs and the entity's PID procedures;
- a training strategy to ensure:
 - staff are given access to training on the identification of wrongdoing, how to make a PID, the support and protection afforded to disclosers, and how PIDs will be managed. This training can be included in the entity's training on ethics;
 - the provision of specialist training and awareness about PIDs to senior managers and other staff who may receive or manage PIDs, disclosers or workplace issues relating to a PID;
- the appointment of a specialist ethics unit (or a nominated officer) to be responsible for issues related to the management of PIDs. The unit or officer should have the following characteristics:
 - direct access to the CEO in relation to PID matters;
 - delegated authority to appropriately manage PIDs; and
 - access to resources to properly manage PIDs.
- ensuring effective systems and procedures are in place for issues arising from PIDs to inform improvements to service delivery, business processes and internal controls; and
- providing a mechanism for regular evaluation and monitoring of the effectiveness of PID policies and procedures.

6.1.2 The Chief Executive must develop and implement reasonable procedures for dealing with PIDs under section 28 of the Act. The procedures must, as a minimum, address the following:

- clear identification of who is covered by the procedure and the types of wrongdoing to be reported;
- encourage the reporting of wrongdoing;
- establish a clear reporting system, preferably with multiple pathways, for staff to make a PID internally, together with information on how to make an external PID;
- ensure the assessment of the risks of reprisal referred to in section 6.6 of the standard;
- means for complying with the confidentiality requirements of the Act;
- the rights of review, both internal and external;
- a description of the roles and responsibilities of key staff in the entity's management of PIDs and in the support and protection of disclosers; and
- the rights of subject officers.

6.1.3 The procedures for making PIDs should be referred to in policies and procedures for the handling of complaints to ensure that assessments can be

made about which complaints must be treated as PIDs (see section 6.3 of this standard).

Commencement: *The Chief Executive must ensure a management plan and procedures are in place to conform to these requirements by 1 January 2011. The PID management plan and procedures should be reviewed initially after 12 months and on a regular basis thereafter.*

6.2 Oversight within the entity

6.2.1 The Chief Executive must, so far as is appropriate (given the nature and size of the agency), establish a central point with expertise to be responsible for:

- applying consistent and appropriate assessment procedures to determine which complaints meet the requirements of the Act for treatment as a PID;
- monitoring the investigation and resolution of PIDs;
- managing or coordinating the support and protection offered to disclosers;
- collecting, reporting and reviewing data about PIDs received (see section 7 of the standard); and
- providing clear guidance to staff about how to make a PID.

6.3 Receiving and assessing PIDs (links to 1.3 of the Guide)

6.3.1 The Chief Executive must ensure that all disclosures made to the entity or referred to it by another entity or Member of the Legislative Assembly, are assessed.

6.3.2 In assessing a disclosure, entities must determine if:

- the person making the disclosure is able to receive the protection of the Act;²
- the disclosure concerns a matter about which a PID can be made;³
- the disclosure meets either the subjective or objective test set out in the Act;⁴
- the disclosure has been made to an individual or entity who may receive a PID;⁵ and
- the disclosure has been made in accordance with the agency's procedure or to a person listed in the Act.⁶

² refer to sections 12, 13, 18 & 19 of the Act

³ *ibid*

⁴ refer to sections 12(3), 13(3), 18(4) & 19(3) of the Act

⁵ refer to sections 14, 15, 16, 18, 19 & 20 of the Act

⁶ refer to sections 17(2) & 17(3) of the Act.

- 6.3.3 If there is doubt whether a disclosure is a PID, entities should assume the disclosure *is* protected by the Act and manage the disclosure as if it is a PID.
- 6.3.5 Each separate allegation should be reported as a separate PID, unless the matters are clearly linked and it would be reasonable to view them as a single disclosure.

Example: An allegation that an employee acted negligently on a number of occasions might be recorded as a single PID provided the subject matter and circumstances are sufficiently linked. In contrast, an allegation that an employee acted corruptly and also assaulted a client, may warrant recording as separate PIDs.

- 6.3.6 An entity cannot decline to receive and/or assess a disclosure as a PID.

6.4 **Taking action on a PID** (links to 1.3 of the Guide)

- 6.4.1 An entity receiving a PID must first determine whether it is to be referred to another entity. If it is, the referral must be done in accordance with legislative and administrative requirements.
- 6.4.2 Action must be taken in respect of the matters raised in a PID unless no action is to be taken under section 30 of the Act.
- 6.4.3 Anonymous disclosures should be received and managed in the same way as identified disclosures, and should not be rejected because they are anonymous.

Example 1: An entity receives a single anonymous statement which simply says “The Director of the XYZ Branch is corrupt”. In the absence of any further information, or contact details for the discloser, the entity may decide to record the disclosure but not take any further action.

Example 2: An entity receives an anonymous statement which says “Contracts have been awarded by the XYZ Branch without any proper tendering process”. In this case, the entity may respond by conducting a small sample audit of recent contracts awarded by the branch to determine whether there is any substance to the disclosure.

- 6.4.5 When assessing (and where necessary, investigating and taking action on) a PID, entities must be aware of their obligations to subject officers. The fact an entity is relying on information obtained through a PID for any subsequent disciplinary process does not exempt the entity from such obligations to subject officers⁷.

Example: A PID reveals that an employee has been failing to provide proper care to vulnerable clients. The matter is investigated and the employee is subject to a disciplinary process. While the entity will need to ensure the identity of the discloser is protected in accordance with the Act, it will also need to ensure the respondent employee is given sufficient details of the allegations to allow him or her natural justice in the disciplinary process. Any disciplinary process could fail at an appeal or on judicial review if it is determined the employee was not given sufficient details of the allegations, even if some or all of those details were withheld because they came from a PID.

6.5 **Informing the discloser** (links to 1.4 of the Guide)

- 6.5.1 The Chief Executive must provide the discloser or the entity that referred the disclosure, reasonable information under section 32 of the Act. The Chief Executive must also advise the discloser:

⁷ See section 65(4) of the Act

- the likely timeframes;
- their involvement in the investigation process;
- the importance of maintaining confidentiality;
- the protections under the Act that will apply;
- that the entity will keep the information disclosed, including the discloser's identity confidential, except as allowed under the Act;
- how they will be advised of progress and outcomes; and
- who to contact if they want further information or are concerned about reprisals.

6.5.2 Regular follow up with the discloser should be arranged by agreement to advise on the progress of resolving the PID (where this is desired by the discloser, and it is safe to do so).

6.6 Discloser support and protection (links to 1.4 of the Guide)

- 6.6.1 As soon as possible after receiving a PID, a Chief Executive must determine the level of protection and support appropriate for a discloser by conducting a risk assessment of a reprisal to the discloser and others associated with the discloser (including those who may wrongly be suspected of being a discloser). The entity must also take into account any consequences if reprisals do occur.
- 6.6.2 When assessing the risk, an assessment of the discloser's need for support must also be conducted.

***ISO 31000:2009 Risk Management Standard** is one recommended risk assessment tool, although it is open to an entity to use any reasonable risk assessment strategy.*

- 6.6.3 The Chief Executive must ensure protective measures are in place which are proportionate to the risk of reprisal, and the potential consequences of a reprisal. If the risk is assessed as sufficiently high, an entity must prepare a protection plan to protect the discloser. Where feasible, this should be developed in consultation with the discloser and other relevant stakeholders.
- 6.6.4 If it has been determined that a discloser will require support, an entity must offer an appropriate level of support. This may include:
- acknowledging that making the PID was the right thing to do and is valued;
 - making a clear statement that the entity will support the discloser;
 - appointing an appropriate person (separate from the investigation function) with sufficient authority to ensure the discloser has appropriate support and protection from reprisals;
 - regularly checking on the discloser's well-being, where this is warranted;
 - advising the discloser of the availability of the employee assistance scheme; and

- where the health of the discloser becomes a concern, liaising with officers responsible for occupational workplace health and safety.

6.7 Managing reprisals (links to 1.4 of the Guide)

- 6.7.1 The Chief Executive must ensure effective systems and procedures are in place to monitor a discloser's workplace for any signs of reprisal action.
- 6.7.2 In the event of a reprisal being alleged or suspected, an entity must act in the interest of the discloser by:
- attending to the safety of the discloser(s) or affected third parties as a matter of priority;
 - reviewing the risk assessment of reprisal and any protective measures needed; and
 - managing any allegation of a reprisal as a PID in its own right.

7 Reporting (links to 1.2 of the Guide)

- 7.1 As part of a PID management framework, Chief Executives must ensure the entity has a secure and confidential reporting system to record the receipt and management of PIDs as required by the Act.
- 7.2 Entities must provide the PSC with the following information about PIDs in electronic form as agreed by the PSC.
- the date the disclosure was received, and where it was received from;
 - the status of the discloser (e.g. entity staff, staff from another entity, member of the public, anonymous)
 - the gender and status of the subject officer (staff member, non-staff member);
 - the relationship between the discloser and the subject officer;
 - the location of the subject officer (geographical region);
 - a summary of the allegation/information received;
 - the involvement of an external agency/party;
 - the action taken to minimise any risk of reprisal;
 - date inquiry/investigation commenced and completed;
 - the outcome of the assessment, inquiry/investigation;
 - the date the PID was resolved or closed;
 - when the outcome was advised to the discloser;
 - if no action was taken, the reason for the decision; and
 - other legal processes associated with the disclosure.

Section 36**NOTIFICATION OF DECISION****The Decision**

As the Ministers under the *Queensland Competition Authority Act 1997*, we hereby declare, under Section 36 of the *Queensland Competition Authority Act 1997* (QCA Act), that we accept the recommendations about pricing practices contained in the Queensland Competition Authority's (the Authority) report, titled, *Final Report Gladstone Area Water Board: Investigation of Pricing Practices 2010* (the Report).

In accepting the recommendations we accept the Authority's recommendation that price transitioning arrangements are a matter for the Gladstone Area Water Board to determine with its customers. We also note the Authority's advice that the Gladstone Area Water Board and the Gladstone Regional Council have reached agreement on an appropriate transitioning arrangement to apply.

Under Section 37 of the QCA Act, this decision is referred to the Minister for Natural Resources, Mines and Energy and Minister for Trade for necessary action.

Queensland Competition Authority Act 1997
Section 23**AMENDED MINISTERS' REFERRAL NOTICE****Referral**

As the Premier and Treasurer of Queensland, pursuant to Section 23 of the *Queensland Competition Authority Act 1997* (the Act), we hereby **amend our Direction of 19 March 2010** and direct the Queensland Competition Authority (the Authority) to recommend irrigation prices to apply to the following SunWater water supply schemes (WSS) from 1 October 2011 to 30 June 2016 (the price path period):

Barker Barambah
Bowen Broken Rivers
Boyne River and Tarong
Bundaberg
Burdekin-Haughton
Callide Valley
Chinchilla Weir
Cunnamulla

Lower Fitzroy
Macintyre Brook
Maranoa River
Mareeba-Dimbulah
Nogoa-Mackenzie
Pioneer River
Proserpine River
St George

Dawson Valley
Eton
Lower Mary

Three Moon Creek
Upper Burnett
Upper Condamine

1. Matters the Authority must take into consideration

In referring this investigation, the Ministers direct the Authority under section 24 of the Act as follows:

1.1 For water supply schemes, or segments of schemes (except those listed in 1.2 below), bulk water supply and channel prices/tariff structures are to be set as follows:

a) to provide a revenue stream that allows SunWater to recover:

i) efficient operational, maintenance and administrative costs to ensure the continuing delivery of water services;

For the removal of doubt, costs include, but are not limited to:

- electricity costs;
- recreation management costs;
- compliance with workplace, health and safety; and
- compliance with Australian and Queensland Government initiatives on water management, planning, trading, accounting, metering and measurement.

ii) prudent and efficient expenditure on renewing and rehabilitating existing assets through a renewals annuity;

iii) to put beyond doubt, costs exclude any rate of return on existing rural irrigation assets (as at 30 September 2011); unless current prices are already above the level required to recover i) and ii), in which case water prices are to be maintained in real terms based on an appropriate measure of inflation as recommended by the Authority; and

iv) a commercial return of, and on, prudent capital expenditure for augmentation commissioned after 30 September 2011;

b) the Authority is not to consider the regulated asset base (RAB) for existing irrigation assets (that is assets commissioned prior to 1 October 2011);

c) in considering the tariff structures, the Authority should have regard to the fixed and variable nature of the underlying costs; and

d) the Authority is to adopt tariff groups as proposed in SunWater's network service plans. The Authority is not to investigate additional nodal pricing arrangements.

1.2 For the following schemes or segments of schemes, irrigation prices are to be set to:

i) For the price path period, increase in real terms at a pace consistent with the 2006-2011 prices or until such time as the scheme reaches costs sufficient to recover 1.1 a) i) and ii); and

ii) include a commercial return of, and on, prudent capital expenditure for augmentation commissioned after 30 September 2011.

These schemes are:

- Redgate Relift in the Barker Barambah WSS
- Callide Valley WSS
- Maranoa River WSS
- Channel Relift in the Mareeba Dimbulah WSS
- Cunnamulla WSS
- Three Moon Creek WSS

1.3 The Authority must recommend appropriate regulatory arrangements, including price review triggers and other mechanisms, to manage the risks associated with the allowable costs identified in 1.1 (above) outside the control of SunWater.**1.4** For the purposes of this Direction, the Authority is not to consider the recovery in prices of capital expenditure for dam safety upgrades.

- 1.5 The Authority is to have regard to the level of service provided by SunWater to its customers of the water supply scheme, including for capital expenditure on existing assets or for the construction of new assets.
- 1.6 In recommending irrigation prices the Authority must have regard for the legitimate commercial interests of SunWater, and the requirement for SunWater to operate as a commercial entity, subject to 1.1 (above).
- 1.7 For relevant schemes, the Authority is to review drainage charges and channel water harvesting charges.
- 1.8 If the Authority calculates tariffs for a water supply scheme, or segment of a water supply scheme that may have the effect of a price increase for irrigators that is higher than the Authority's measure of inflation,
- the Authority must consider the need to implement a price path for the introduction of the price increase to moderate price impacts on irrigators, and that has regard for SunWater's legitimate commercial interests;
 - a price path may be longer than one price path period, however the Authority must provide its reason for the longer timeframe; and
 - if the Authority recommends not to implement a price path, the Authority must give its reasons.

2. Consultation

The Authority must undertake an open consultation process with all relevant parties and consider submissions within the timetable for the delivery of the Final Report to Government. All reports and submissions must be made publicly available, including on the Authority's website.

3. Timing

Sunwater must provide its Network Services Plans and supporting documentation to the QCA by no later than 10 January 2011.

The Authority must provide to the responsible Ministers and the Minister for Natural Resources, Mines and Energy and Minister for Trade the:

- Draft Report and draft irrigation prices by no later than 30 June 2011; and
- Final Report and recommended price paths by no later than 31 August 2011.

The Final Report will inform the Government's deliberations for price paths to apply to SunWater's irrigation water prices for the period commencing 1 October 2011 and ending 30 June 2016.

4. Other matters

To put beyond doubt, nothing in this Referral prevents SunWater from setting full commercial prices for urban and industrial customers.

The Authority may exercise all the powers under Part 6 of the *Queensland Competition Authority Act 1997*.

This notice is given to you by Gladstone Regional Council, and relates to property described as Lot 3 SP 111856, County of Flinders, Parish of Uxbridge, situated at Maude Hill Road, Deepwater Qld 4674.
