## Explanatory notes

### Health literacy for patients

Health literacy is about how:

- a worker *accesses* the relevant information about their health and healthcare
- a worker *understands* information about their health and healthcare, and
- they *use* the information to make *informed decisions* about their healthcare.

WorkCover embraces to Australian Commission on Safety and Quality in Health Care position on Health Literacy and the National Safety and Quality Health Service (NSQHS) Standards<sup>27</sup>.

WorkCover expect all providers who deliver services to Queensland workers' to:

- make it easy for the worker to know where to go, what to do and how to find what is needed to improve their health and wellbeing, including information about their diagnosis, prognosis, processes, likely outcomes of possible tests and treatments and how prevent further injuries or illnesses
- make it easy for the worker to make better decisions about their health, wellbeing, and health care
- make it easy for the worker to manage their own health care, including treatment and medications
- help the worker to contribute to more effective decision-making and action about their own health care
- work in partnership with the worker so the worker can made informed and effective decisions
- help the worker reduce the risk of harm to themselves by providing thorough information that they can understand.<sup>28</sup>

Supporting resources in relation to health literacy can be found on the Australian Commission on Safety and Quality in Health Care website<sup>29</sup>.

### Theatre fees

The theatre fees include the costs of consumables and disposable items.

Provision of high cost surgical, consumable, and disposable items during an admission requires pre-approval by the insurer. The insurer will not unreasonably withhold approval during an emergency, where the item is clinically required.

Only in exceptional circumstances will additional fees be paid for high cost surgical, consumable, and disposable items on provision of clinical evidence (e.g., letter outlining the justification of use) from the hospital that the item is reasonably necessary for the appropriate management and treatment of the work-related injury.

It should be noted that a number of MBS item numbers have items excluded on the National Procedure Banding List<sup>30</sup>, for example: including but not limited to disposables, robotic consumables, the stent receiver device, the therapeutic substance, and the cost of the implant.

*Exigent clinical circumstance*

Where exigent clinical circumstances exist and a high cost surgical, consumable, and disposable is required immediately to enable the provision of lifesaving treatment, prior approval from the insurer is **not required**. The insurer may request clinical justification to understand the need for the provision of the high cost surgical, consumable, or disposable in these circumstances.

**Pharmacy**

Accommodation fees also **include** the cost of PBS pharmaceutical items provided during the admission. The insurer will only fund non-PBS pharmaceutical items where no PBS equivalent exists.

Provision of high-cost drugs during an admission requires pre-approval by the insurer. The insurer will require provision of clinical evidence (e.g., letter outlining the justification of use) from the hospital that the high-cost drug is reasonably necessary for the appropriate management and treatment of the work-related injury.

High-cost drugs do not have a formal definition in Australia. For the purposes of this table of costs, high costs drugs have been defined as those that are not:

- listed under the Pharmaceutical Benefits Scheme<sup>31</sup>;
- funded through the s100 program (Section 100 of the National Health Act 1953<sup>32</sup>) and the Life Saving Drugs Program (LSDP).

Only pharmaceutical items provided at discharge may be charged separately and must be billed using item code **400596**. The insurer will only fund discharge medication that relates to the hospital admission.

*Exigent clinical circumstance*

Where exigent clinical circumstances exist and a high-cost drug is required immediately to enable the provision of lifesaving treatment, prior approval from the insurer is **not required**. The insurer may request clinical justification to understand the need for the provision of the high-cost drug in these circumstances.

## Quality assurance

Insurers may request a copy of the performance metrics relating to workers' compensation admissions from time to time.

The criteria for the performance metrics will be developed in consultation with the relevant private hospitals.

The objective of WorkCover Queensland or a self-insured employer under section 5 of the *Workers' Compensation and Rehabilitation Act 2003*<sup>34</sup> is to ensure that workers receive timely treatment and rehabilitation to assist with their return to work.

This table of costs sets out the maximum fees payable by the insurer for the applicable services. This fee schedule applies to all work injury claims whether insured through WorkCover Queensland or a self-insured employer. The maximum fees in this schedule apply to services provided on or after 1 December 2022. The related injury may have been sustained before, on or after this date.

The purpose of the services in this fee schedule are to enable injured workers to receive timely and quality medical and rehabilitation services to maximise the worker's independent functioning and facilitate their return to work as soon as it is safe to do so. WorkCover Queensland or the self-insurer will periodically review a worker's treatment and services to ensure they remain reasonable having regard to the accepted work injury.

WorkCover Queensland expects the provision of services to be consistent with this fee schedule and to be reasonable. Systems are in place for monitoring compliance with invoicing and payment rules. Non-compliance with expected service provisions will be addressed with providers. Compliance actions may range from providing educational information to assist providers in understanding the expectations, to criminal penalties for fraud. WorkCover Queensland also reserves the right to refer misconduct to the relevant professional body, council, or complaints commission.
