Transport Infrastructure Act 1994

NOTIFICATION OF DECLARATION OF A FUTURE STATE-CONTROLLED ROAD AS A LIMITED ACCESS ROAD

Notice is hereby given under section 54(1) of the *Transport Infrastructure Act 1994* that the Future State-controlled road described in the Schedule is hereby declared or revoked as a Limited Access road. As required under section 55 of the *Transport Infrastructure Act 1994*, Gold Coast City Council and Logan City Council have been notified.

Paul Noonan
Delegate of the Director-General, Department of Transport and Main Roads

THE SCHEDULE

On and from 14 October 2021, the Future State-controlled road described below hereto, is declared a Limited Access road, respectively, under and for the purposes of the *Transport Infrastructure Act 1994*.

COOMERA CONNECTOR (113)

Commencing at its intersection with the Stapylton-Jacobs Well Road in Stapylton, traveling in a generally north-westerly direction to its intersection with the Logan Motorway and the Pacific Highway interchange in Loganholme.

Length: 8.35 kms (approximately)

The parts of the road to which access is to be limited are shown on plans LA12290, LA12291, LA12292 and LA12293. Copies of plans and policy are held in the office of the Department of Transport and Main Roads, Floor 1, 36-38 Cotton Street, Nerang, Queensland 4211.

The reason for the declaration is to achieve a high level of access control for the Coomera Connector, as described in the Schedule, to:

Ensure that its arterial function is preserved; and

Ensure that it is an attractive and viable alternative route to the Pacific Motorway (M1).

Any person whose interests are affected by the declaration may:

- under section 485 of the *Transport Infrastructure Act 1994* – ask for the decision to make the declaration to be reviewed by the Chief Executive;
- under the *Transport Planning and Coordination Act 1994*, part 5, division 2 – apply for the original decision to be stayed; and
- under the *Transport Planning and Coordination Act 1994*, part 5, division 3 –
 - (a) appeal against the Chief Executive’s decision on the review to the court stated in Schedule 3 of the *Transport Infrastructure Act 1994* for the decision; and
 - (b) apply for the reviewed decision to be stayed.

Notice is hereby given that there is a policy in place, in relation to the application of section 62 of the *Transport Infrastructure Act 1994* to access between the Coomera Connector (Stapylton-Jacobs Well Road to Logan Motorway/Pacific Motorway interchange) (113) and adjacent land. The policy is set out below.

POLICY FOR COOMERA CONNECTOR (LOGAN MOTORWAY/PACIFIC MOTORWAY INTERCHANGE – NERANG-BROADBEACH ROAD) (113)

1 PURPOSE

The purpose of this policy is to protect the function, safety and efficiency of the Coomera Connector (Stapylton-Jacobs Well Road to Logan Motorway/Pacific Motorway interchange) (113) (the “**Road**”) by setting out the principles that will be applied when making decisions under s 62 of the *Transport Infrastructure Act 1994*.

The management of access is essential in ensuring that the vision for the Road can be achieved by ensuring that:

- Its arterial function is preserved; and
- It is an attractive and viable alternative route to the Pacific Motorway (M1).

2 HEAD OF POWER

This policy has been made pursuant to s 54 of the *Transport Infrastructure Act 1994*.

3 ROAD VISION

The following vision for the Road sets the context within which the Policy Principles (section 5) and the Policy Strategies (section 6) will be applied:

The Coomera Connector is intended to be a high-speed, high-order arterial road, generally comprised of 4 to 6 lanes, divided carriageways and predominately grade-separated interchanges. The Coomera Connector provides an approximate 45.15 km long, north-south transport corridor from Loganholme to Nerang, east of the Pacific Motorway.

The Road will improve the safety and efficiency of the Pacific Motorway and enhance network resilience by providing a desirable and alternate option for local and intra-regional trips, thereby enabling the Pacific Motorway to better service freight and inter-regional trips as part of the National Land Transport Network.

The Coomera Connector is expected to:

- relieve pressure on the Pacific Motorway by providing more route choices for local traffic and additional crossings of the Logan, Albert, Coomera and Nerang Rivers;
- provide improved connections and accessibility to more transport options on the northern Gold Coast and neighbouring Logan;
- reduce travel time and improve travel time reliability between Brisbane and the Gold Coast by reducing the number of local trips on the Pacific Motorway;
- increase safety on the Pacific Motorway by reducing congestion and potential queuing on the Pacific Motorway; and
- serve the rapidly growing residential and business communities on the northern Gold Coast and neighbouring Logan

4 APPLICATION

This policy will be applied in assessing applications made under s 62 or 62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in:

- the preparation, amendment or review of local, state and federal government planning schemes and other planning instruments to ensure that:
 - land uses reflect the Policy Principles and Policy Strategies and preserve the function of the Road;
 - the local road network is developed to provide access to land where access from the Road is not supported;
 - the vision for the Road identified in section 3 is accommodated; and
- general transport planning relevant to managing access to limited access roads.

5 POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road, the following principles will be applied:

- vehicular access must not compromise safety of the users of the Road or any other transport infrastructure;
- vehicular access must be consistent with the functional requirements of the Road;
- vehicular access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled road network.

In applying the principles, regard will be had to the following strategies:

- the strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*¹; and
- the Policy Strategies set out in section 6.

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the Policy Strategies set out in this policy, the Policy Strategies set out in this policy prevail.

A proposal will be consistent with this policy if it meets the Policy Principles and all relevant Policy Strategies.

6 POLICY STRATEGIES

SAFETY**Principle 1: vehicular access must not compromise safety of the users of the Road or any other transport infrastructure**

Safety is paramount in the road environment. Adequate levels of safety must be ensured for all users of the Road, including motorists, pedestrians and cyclists.

Strategy**No Specific Strategy****FUNCTION****Principle 2: Vehicular access must be consistent with the functional requirements of the Road**

The primary function of the Road is to improve the safety and efficiency of the State-controlled road network and to enhance network resilience by providing a desirable and alternate option to the Pacific Motorway for local and intra-regional trips.

Strategy 1**Vehicular access to the Road will not be permitted except as provided as part of construction of the Road.**

The Road is currently a future State-controlled road. As such, there are no existing direct access between the Road and adjoining properties. Direct access from adjoining properties to the Road will only be permitted where the direct access is provided as part of the construction of the Road.

FUTURE INTENT**Principle 3: Vehicular access must be consistent with the current or planned intent for the Road corridor and the wider network**

The Road is currently a future State-controlled road. The future intent for the Road is to improve the safety and efficiency of the State-controlled road network and to enhance network resilience by providing a desirable and alternate option to the Pacific Motorway for local and intra-regional trips.

Strategy 1**Vehicular access to the Road will not be permitted except as provided as part of construction of the Road.**

The Road is currently a future State-controlled road. As such, there are no existing direct access between the Road and adjoining properties. Direct access from adjoining properties to the Road will only be permitted where the direct access is provided as part of the construction of the Road.

7 APPROVAL

This policy applies to the Road and will be applied when making decisions under s 62 of the *Transport Infrastructure Act 1994*.

Dated: 14 October 2021

Signed: Paul Noonan

Regional Director (South Coast Region)
Delegate of the Director-General, Department of Transport and Main Roads

8 ADDITIONAL INFORMATION

This policy may be amended at any time without a gazette notice if:

- the amendment merely changes or repeals a specific provision for 1 or more particular properties; and
- the owner or occupier of each property has been given written notice of the amendment.

Any person whose interests are affected by this policy may:

- under s 485 of the *Transport Infrastructure Act 1994* – ask for the decision about the policy to be applied to be reviewed;
- under Part 5, Division 2 of the *Transport Planning and Coordination Act 1994* – apply for the original decision to be stayed;
- under Part 5, Division 3 of the *Transport Planning and Coordination Act 1994*:
 - appeal against a decision on a review;
 - apply for the reviewed decision to be stayed.

Under s 61 of the *Transport Infrastructure Act 1994*, a person must not construct or change a physical means of entry or exit for traffic between land and a limited access road without first obtaining a decision under s 62(1) that authorises the construction or change. Maximum penalty – 200 penalty units.

Private Hospital Services Table of Costs

Effective 1 December 2021

Private Hospital Services

Table of Costs

How to use this table of costs

This table of costs contains information on services and maximum fees that apply to private hospitals that provide services to workers who are managed under the Queensland workers' compensation scheme.

All services and fees in this schedule are effective 1 December 2021.

Invoicing and service provision is actively monitored to ensure services are invoiced in accordance with this fee schedule and that services are reasonable for the work injury and payable under the *Workers' Compensation and Rehabilitation Act 2003*¹.

This schedule contains the following:

1. Same day accommodation (including accident and emergency attendance)
2. Overnight accommodation
3. Theatre fees
4. Prostheses
5. Provision of health records
6. Mental health programs
7. Rehabilitation programs
8. Pain management programs
9. Alcohol and other drugs programs
10. Haematology and oncology.

If you have any questions, please contact the relevant workers' compensation insurer. Contact details for the relevant self-insurer can be found on our website².

Annual review

This table of costs will have a pricing review undertaken annually, effective on the anniversary date of this document i.e. 1 December.

Insurer liability - accepted injuries only

The relevant workers' compensation insurer will only fund treatment in relation to accepted injuries. If you are unsure what injuries have been accepted, please contact the relevant insurer for clarification.

Prior approval for any elective hospitalisation **must** be obtained from the insurer **prior** to the patient admission.

When working with WorkCover Queensland we encourage you to submit invoices electronically via Provider Connect; business to business software integration or via the document submission portal on our website³. This will ensure:

- a significant reduction in invoice administration
- improved invoice tracking capability
- faster payments.

Other workers' compensation insurers may have alternative arrangements for invoicing. Please contact the relevant insurer to confirm. Contact details for the relevant self-insurer can be found on our website⁴.

GST

Rates within this document do **not** include GST. Check with the Australian Taxation Office or your tax advisor if GST is applicable.

Prostheses

ITEM NO.	CATEGORY	DESCRIPTION	GST EXCLUSIVE AMOUNT
400521	Prostheses	As per Department of Health ¹³ benefit	
400522	Handling Fee	5% of prosthesis fee capped at \$191	

All invoicing for prostheses needs to include the relevant Department of Health Prostheses List¹³ billing code.

For items which may be **removed** from the prostheses list as part of the staged federal Department of Health Prostheses List reforms, reimbursement for use of these items is subject to pre-approval from the insurer. The insurer may request clinical justification to understand the use of the removed item in these circumstances. The request must also be accompanied by a supplier quote/invoice.

Prostheses that are opened during procedures and not used will not be paid for unless there are **valid clinical circumstances** preventing successful implantation of such prostheses. All prostheses paid will need to be supported by the operation record and/or prosthetic stickers on the nurse's Intraoperative Report/Count Record/Implant Record or by a submission from the treating specialist detailing the clinical circumstances that prevented the successful implantation of the initial prosthesis.

Insurers may request a copy of the nurse's Intraoperative Report/Count Record/Implant Record relating to workers' compensation admissions from time to time.

Provision of health records (at insurer request only)¹⁴

Patient health records refer to all records relating to the workers' compensation claim including file notes, results of relevant tests and operation notes.

Explanatory notes

Theatre fees

The theatre fees include the costs of consumables and disposable items.

Provision of high cost surgical, consumable, and disposable items during an admission requires pre-approval by the insurer. The insurer will not unreasonably withhold approval during an emergency, where the item is clinically required.

Only in exceptional circumstances will additional fees be paid for high cost surgical, consumable and disposable items on provision of clinical evidence (e.g. letter outlining the justification of use) from the hospital that the item is reasonably necessary for the appropriate management and treatment of the work-related injury.

It should be noted that a number of MBS item numbers have items excluded on the National Procedure Banding List²³, for example: including but not limited to disposables, robotic consumables, the stent receiver device, the therapeutic substance, and the cost of the implant.

Exigent clinical circumstance

Where exigent clinical circumstances exist and a high cost surgical, consumable, and disposable is required immediately to enable the provision of lifesaving treatment, prior approval from the insurer is **not required**. The insurer may request clinical justification to understand the need for the provision of the high cost surgical, consumable, or disposable in these circumstances.

Pharmacy

Accommodation fees also include the cost of PBS pharmaceutical items provided during the admission. The insurer will only fund non-PBS pharmaceutical items where no PBS equivalent exists.

Provision of high cost drugs during an admission requires pre-approval by the insurer. The insurer will require provision of clinical evidence (e.g. letter outlining the justification of use) from the hospital that the high cost drug is reasonably necessary for the appropriate management and treatment of the work-related injury.

High cost drugs do not have a formal definition in Australia. For the purposes of this table of costs, high cost drugs have been defined as those that are not:

- listed under the Pharmaceutical Benefits Scheme²⁴;
- funded through the s100 program (Section 100 of the *National Health Act 1953*²⁵) and the Life Saving Drugs Program (LSDP).

Only pharmaceutical items provided at discharge may be charged separately and must be billed using item no. **400596**. The insurer will only fund discharge medication that relates to the hospital admission.

Exigent clinical circumstance

Where exigent clinical circumstances exist and a high cost drug is required immediately to enable the provision of lifesaving treatment, prior approval from the insurer is **not required**. The insurer may request clinical justification to understand the need for the provision of the high cost drug in these circumstances.

Account and invoicing standards

If applicable, the insurer will pay to the provider an amount on account of the provider's GST liability in addition to the GST exclusive fee. Suppliers must provide the insurer with a tax invoice where the amounts are subject to GST.

For queries regarding whether the services you provide to a worker are taxable (that is, subject to GST) please contact the Australian Taxation Office and/or your tax advisor.

Appropriate tax invoices for private hospital patients are to be submitted to insurers (or if relevant, workers). Invoices must include the following **minimum** information:

- hospital name and address, provider details (i.e. treating practitioner) – name, Medicare provider number (if applicable) and/or insurer provider number (if known)
- invoice number and invoice date
- Australian Business Number (ABN)
- worker's surname and given name(s)
- date of birth (if known)
- claim number (if known)
- brief description of the injury to which the services relate
- employer name (if known)
- bank account details for electronic funds transfer (EFT)
- each service itemised separately in accordance with this fee schedule including:

For surgical procedures

- date of service
- service item number and service description
- theatre band corresponding to the service item number and description
- charge for the service in accordance with this fee schedule
- each taxable sale must display the total charge and GST applicable
- where the invoice contains both taxable and non-taxable supplies that the taxable must be listed with the GST and total applicable for each individual supply
- a copy of the relevant operation note must accompany the surgery invoice.

For non-surgical inpatient admissions

- date of service including admission
- service item number and service description
- charge for the service in accordance with this fee schedule
- each taxable sale must display the total charge and GST applicable
- where the invoice contains both taxable and non-taxable supplies that the taxable must be listed with the GST and total applicable for each individual supply.

It is important to note that some insurers may require additional information such as ICD-10 codes, surgery commencement and completion times, and discharge dates on their invoices.

Invoices that do not meet these standards may be returned to the provider for amendment.

Invoices are to be submitted within two months after completion of the treatment as per section 213(2) of the *Workers' Compensation and Rehabilitation Act 2003*²⁶.

Invoices received more than two months after completion of the treatment may not be paid unless in exceptional circumstances.

Insurers are unable to pay on 'account rendered' or statement invoices. Payment will be made, where appropriate, on an original invoice or duplicate/copy of the original.

Payment for services, including reports, will not be made in advance.

Where payment is outstanding

Please contact the insurer if:

- the claim has been accepted,
- prior approval for the hospitalisation was obtained, and
- the payment is outstanding (if greater than two months after completion of the treatment).

If the claim has not been accepted, responsibility for payment of accounts rests with the worker.

Additional information

The insurer may request additional information as evidence of the service provided and invoiced.

Quality assurance

Insurers may request a copy of the performance metrics relating to workers' compensation admissions from time to time.

The criteria for the performance metrics will be developed in consultation with the relevant private hospitals.

The objective of WorkCover Queensland or a self-insured employer under section 5 of the *Workers' Compensation and Rehabilitation Act 2003*²⁶ is to ensure that workers receive timely treatment and rehabilitation to assist with their return to work.

This table of costs sets out the maximum fees payable by the insurer for the applicable services. This fee schedule applies to all work injury claims whether insured through WorkCover Queensland or a self-insured employer. The maximum fees in this schedule apply to services provided on or after 1 December 2021. The related injury may have been sustained before, on or after this date.

The purpose of the services in this fee schedule are to enable injured workers to receive timely and quality medical and rehabilitation services to maximise the worker's independent functioning and facilitate their return to work as soon as it is safe to do so. WorkCover Queensland or the self-insurer will periodically review a worker's treatment and services to ensure they remain reasonable having regard to the accepted work injury.

WorkCover Queensland expects the provision of services to be consistent with this fee schedule and to be reasonable. Systems are in place for monitoring compliance with invoicing and payment rules. Non-compliance with expected service provisions will be addressed with providers. Compliance actions may range from providing educational information to assist providers in understanding the expectations, to criminal penalties for fraud. WorkCover Queensland also reserves the right to refer misconduct to the relevant professional body, council, or complaints commission.

Definitions

Accredited means assessed as being fully compliant with the *National Safety and Quality Health Service Standards*²⁷ by a body approved by the Australian Commission on Safety and Quality in Health Care to assess health organisations against the *National Safety and Quality Health Service Standards*²⁸.

the Act means the *Workers' Compensation and Rehabilitation Act 2003*²⁸.

Acute patient means an admitted patient to an acute care facility:

- (a) where a patient stays for the first 35 days of continuous hospitalisation, or
- (b) where a patient has been in continuous hospital care for more than 35 days where an Acute Care Certificate, or an equivalent form devised by the hospital, has been completed and signed by a medical practitioner indicating the patient is to remain as an acute care patient for a specified period.

Admission means the formal administrative process of a private hospital or day surgery facility by which the hospital or facility commences the provision of treatment, care, accommodation, and other services to a patient.

Admitted patient means a patient who undergoes a hospital's admission process to receive treatment and/or care. This treatment and/or care can be provided over a period of time for extended admissions.

Advanced surgical patient is defined *Private Health Insurance (Benefit Requirements) Rules 2011 – Part 2 Type A Procedures*²⁹ as amended from time to time.

Consumables refers to single use items standard to the procedure, excluding items on the Department of Health Prostheses List³⁰ and items on the National Procedure Banding List identified as excluded from bands. Examples include but are not limited to disposables, robotic consumables, the stent receiver device, the therapeutic substance, and the cost of the implant.

Continuous period of hospitalisation for the purpose of counting days of hospital treatment, includes any two periods during which a patient was, or is, receiving hospital treatment as a patient at a hospital, whether or not the same hospital, where the periods are separated from each other by a period of not more than seven days during which the patient was not receiving hospital treatment as a patient at any hospital.

Cost of hospitalisation at private hospital is per section 217 of the *Workers' Compensation and Rehabilitation Act 2003*²⁸:

- (1) The cost for which an insurer is liable for hospitalisation of a worker as an inpatient at a private hospital is the cost for the provision of the facility at a private hospital where a procedure is carried out.
- (2) The insurer must pay the cost of hospitalisation, whether the hospitalisation is provided at one time or at different times.
- (3) The insurer must pay the cost of hospitalisation that-
 - (a) is published by WorkCover Queensland by gazette notice (namely the Private Hospital Services Table of Costs); or
 - (b) if a cost of hospitalisation is not published – the cost lawfully charged by the hospital.

Day hospital means a facility as defined by Section 10 of the *Private Health Facilities Act 1999*³¹.

- (1) A day hospital is a facility at which day hospital health services are provided to persons who are admitted to, and discharged from, the facility on the same day, but does not include a facility operated by the state.
- (2) However, a facility is not a day hospital merely because a day hospital health service is provided to a person at the facility if—
 - (a) the service is provided to the person in an emergency; and
 - (b) it would be unreasonable, having regard to the health and wellbeing of the person, to move the person to another facility to receive the health service.

Day hospital health service means any of the following health services (as defined by section 10(3) of the *Private Health Facilities Act 1999*³¹):

- (a) a diagnostic, surgical or other procedure performed by a medical practitioner involving—
 - (i) the administration of a general, spinal, or epidural anaesthetic; or
 - (ii) sedation, other than simple sedation;
- (b) a diagnostic, surgical or other procedure—
 - (i) performed by, or under the direction of, a medical practitioner; and
 - (ii) involving a significant risk that a person on whom the procedure is performed may, because of cardiac, respiratory, or other complications arising from the performance of the procedure, require resuscitation; and
 - (iii) prescribed under a regulation.

Discharge means the formal administrative process of a private hospital or day surgery facility by which the hospital or facility ceases the provision of treatment, care, accommodation, and other services to a patient.

Discharged means a person who has been a patient in a private hospital or day surgery facility, means that the person has undergone the formal discharge process of the hospital or facility.
