*Electricity Act 1994***QUEENSLAND GOVERNMENT ELECTRICITY REBATE**

I hereby advise that, on and from 1 July 2025, the Queensland Government electricity rebate, which is to be provided by retailers under section 55DA of the *Electricity Act 1994*, will be provided on the terms set out in the following schedule. The terms of the rebate will apply from 1 July 2025 regardless of the date on which this notice is published.

Dated this 29 day of June 2025

DAVID JANETZKI MP

Treasurer, Minister for Energy and Minister for Home Ownership

QUEENSLAND GOVERNMENT ELECTRICITY REBATE

1. A Queensland Government Electricity Rebate is available to a customer provided the customer:
 - (a) holds one of the following:
 - (i) a current Pensioner Concession Card, issued by either Services Australia or the Department of Veterans' Affairs; or
 - (ii) a current Health Care Card, issued by Services Australia; or
 - (iii) Department of Veterans' Affairs Veteran Gold Card; or
 - (iv) Queensland Seniors Card; or
 - (v) Asylum seeker status (ImmiCard) with a Bridging Visa Subclass 050, 051 or 070; and
 - (b) Is a customer of a retail entity at the premises for which the rebate is claimed and the premises is the customer's principal place of residence, and the only residence in Queensland for which the customer claims the rebate; and
 - (c) makes application for a rebate either by submitting the relevant form or, at the discretion of the retail entity, by providing the relevant information and declarations by telephone or electronic means.
2. Where an electricity account is in more than one name, and more than one resident is eligible to receive the rebate, each resident may have their eligibility established. However, only one rebate per household will be paid.
3. The retail entity may, at any time, require a new application from a customer and if the customer fails to lodge a new application within the time specified by the retail entity the rebate shall cease.
4. A Queensland Government Electricity Rebate is also applicable to the electricity account of residential home parks and other similar multi-tenanted residential premises provided the following sub-conditions are met:

-
- (a) the customer (i.e. the owner or operator of the multi-tenanted residential premises) of the retail entity at the premises concerned –
- (i) supplies electricity to the separately identifiable vans, flats or home units, or other similar living units at the premises; and
 - (ii) charges for electricity on the basis of metered consumption; and
 - (iii) is claiming the rebate on behalf of eligible persons (other than the person being a customer of the retail entity) residing at the premises ('claimant residents'); and
 - (iv) passes on the rebate in full to each claimant resident by way of a reduction in charges for electricity; and
 - (v) has obtained each claimant resident's authority to:
 - (A) apply for the rebate; and
 - (B) verify the claimant resident's details with the Australian Government Services Australia or the Department of Veterans' Affairs or the Department of Home Affairs or the Queensland Government Department of Families, Seniors, Disability Services and Child Safety; and
 - (C) disclose their details in connection with eligibility and receiving the rebate; and
 - (vi) has sighted the claimant resident's Pensioner Concession Card, Health Care Card, Veteran Gold Card, Queensland Seniors Card or ImmiCard at the time the application for the rebate is made, to ensure it is issued in the name of the claimant resident; and
- (b) each separately identifiable living unit for which the rebate is claimed is occupied, from the day the claimant resident has applied to the customer, by persons who, if they had been supplied directly by the retail entity, would have been eligible for the electricity rebate; and
- (c) a rebate is applicable to claimant residents for electricity consumed in the billing period to which the customer's electricity account relates, from the day the claimant resident has applied to the customer; and
- (d) a completed rebate application form, in writing, must be produced with the customer's electricity account at the time payment is tendered.
5. The rebate is \$ 0.9623 (GST exclusive) per day, applied against the amount billed under the applicable tariff (GST exclusive) for the retail services provided to the customer in the billing period to which the rebate relates. The retail entity must apply the rebate to provide the maximum benefit to the customer.
6. The amount of the rebate paid shall not be greater than the amount billed (GST exclusive) for customer retail services provided to the customer in the billing period to which the rebate relates.
7. For rebate recipients supplied with card-operated meters, given these customers do not receive an electricity bill, the retail entity will agree with the Department of Families, Seniors, Disability Services and Child Safety for a delivery process providing, over the financial year, a rebate on electricity costs comparable with the rebate received by customers on other metering arrangements.

RELIEF FROM ELECTRICITY CHARGES WHERE DROUGHT DECLARATION IN FORCE

The following outlines relief assistance available for Queensland farmers located in drought declared areas or whose properties are individually drought declared under Queensland Government administrative processes. Assistance is available through waivers or reimbursements of certain fixed charge components of relevant electricity accounts. Customers of Ergon Energy Queensland Pty Ltd may also apply for deferral of electricity charge payments. For information about current drought declared areas and the declaration process visit www.business.qld.gov.au/industries/farms-fishing-forestry/agriculture/disaster/drought/declarations.

Customers of Ergon Energy Queensland Pty Ltd

A Standard Contract Customer of Ergon Energy Queensland Pty Ltd who is a farmer in a drought declared area or whose property is individually drought declared under the Queensland Government administrative processes, may apply for one or more of the following forms of relief from electricity charges:

(A) Waiving of fixed charge components of electricity charges

If a customer of Ergon Energy Queensland Pty Ltd who is a farmer located in a drought declared area or whose property is individually drought declared, does not have access to, or has severely restricted access to, farm or irrigation water, the customer may apply for a waiver of fixed charge components of the customer's electricity account. These fixed charge components include the daily supply charge, metering charge and annual fixed charge but exclude minimum demand charges as set out in the Retail Electricity Prices for Standard Contract Customers Tariff Schedule.

Provided the drought declaration remains operative, the waiver applies to all eligible fixed charges applicable to any account being used primarily for pumping water for farm or irrigation purposes. The waiver shall continue to apply until the drought declaration is revoked.

(B) Deferral of payment

If a customer of Ergon Energy Queensland Pty Ltd who is a farmer in a drought declared area or whose property is individually drought declared, does not have access to or has severely restricted access to farm or irrigation water and experiences financial difficulties as a result of the drought, the customer may apply to defer payment of the customer's electricity accounts relating to farm or irrigation usage. In applying for payment deferrals, the customer may be required to provide supporting evidence, such as a statement of financial position prepared and certified by a financial counsellor/adviser or the customer's bank or accountant or a statutory declaration.

Ergon Energy Queensland Pty Ltd may charge interest on deferred accounts. However, the rate of any interest charged must not be more than the Bank Bill reference rate for 90 days, as published on the first business day of each quarter.

A deferral period beyond 12 months (or such other period agreed by Ergon Energy Queensland Pty Ltd) may be subject to review of the customer's circumstances by Ergon Energy Queensland Pty Ltd. Ongoing bill deferrals are subject to the customer engaging with Ergon Energy Queensland Pty Ltd regarding repayment of the deferred amount plus the payment of any future energy usage charges.

Eligibility for relief

A customer of Ergon Energy Queensland Pty Ltd seeking relief from electricity charges on the basis that the customer is a farmer who is in a drought declared area or whose property is individually drought declared, must apply in writing to Ergon Energy Queensland Pty Ltd, using the appropriate application form.

The customer may apply at any time from the commencement date of the drought declaration relevant to their area or individual property. Claims may be made for invoices within six months of the date of issue of the electricity invoice for which relief is being sought. Claims may not precede the commencement date of the relevant drought declaration.

On 1 July 2021, the Queensland Government introduced the Electricity Tariff Adjustment Scheme (ETAS). ETAS works independently of the Drought Relief from Electricity Charges Scheme (DRECS) and offers transitional assistance for businesses supplied by Ergon Energy Queensland Pty Ltd that face a significant increase in electricity charges when switching from obsolete tariffs to standard retail tariffs. Where a customer is receiving transition rebates via ETAS, the customer will continue to be eligible for DRECS. If the ETAS benefit is greater than the DRECS benefit, the difference shall be applied under ETAS. When backdating a DRECS waiver, only the value of the backdated DRECS above the value of the ETAS transition rebate already received for the backdated period is payable.

The customer must provide the following as part of their DRECS application:

- a) evidence that the customer's property is in a drought declared area or is individually drought declared, including the effective date of such drought declaration;
- b) confirmation that the water pumping restrictions apply to the customer's property;
- c) a statutory declaration stating the specific electricity account(s); that the connection is normally used primarily for pumping water for farm or irrigation purposes; and that the customer has no, or severely restricted access, to water;
- d) if the connection has other use(s), other than water pumping, the approximate proportion of electricity normally used for pumping water for farm or irrigation purposes when not drought declared (to be included in the statutory declaration provided under paragraph c); and

- e) supporting evidence of financial difficulties, such as a statement of financial position or a statutory declaration.

For all customers who were recipients of DRECS on 31 December 2021, the following will apply from 1 January 2022:

- To continue receiving DRECS, small customers (consuming less than 100 megawatt hours (MWh) per annum) must be supplied on the regulated retail tariff they were supplied on as at 31 December 2021 or when their application for DRECS was made, whichever is the later;
- To continue receiving DRECS, large customers (consuming 100MWh or more per annum) must be supplied on the regulated retail tariff that provides the DRECS recipient's relevant NMI the lowest annual charge without taking into account the assistance provided by DRECS, excluding controlled tariffs and based on the capabilities of the NMI's meter.

Where the status of a drought declaration or individually drought declared property is revoked, customers receiving DRECS assistance at the time of the revocation will continue to be eligible for DRECS until the date of the revocation, regardless of any tariff change which may occur following the revocation and during the same billing period as the revocation date.

Customers of other retailers

Customers of retailers other than Ergon Energy Queensland Pty Ltd who are farmers in drought declared areas or who have a property which is individually drought declared under Queensland Government administrative processes can apply directly to the Energy Division in the Queensland Treasury.

If a farmer, as a result of drought does not have access to, or has severely restricted access to, normal or usual supplies of farm or irrigation water, the fixed components of the customer's electricity charges will be reimbursed. These fixed charge components include the daily supply charge, metering charge, and annual fixed charge but exclude minimum demand charges. To be eligible, the customer must apply within six months of the date of issue of the electricity invoice for which relief is being sought. If the electricity invoice is dated prior to the date of commencement of the drought declaration, the reimbursement will only apply to the component from the date of commencement of the drought declaration.

Customers must attach a statutory declaration stating the specific account(s); that the connection is normally being used primarily for pumping water for farm or irrigation purposes; and that the customer has no, or severely restricted, access to water. If the connection has other use(s), other than water pumping, the approximate proportion of electricity normally used for pumping water for farming or irrigation use when not drought declared must be stated in the statutory declaration.

Provided the drought declaration remains operative, the reimbursement applies to all eligible fixed charges applicable to any account being used primarily for pumping water for farm or irrigation purposes and ceases once the drought declaration is revoked.

For all customers who were recipients of DRECS on 31 December 2021, the following will apply from 1 January 2022:

- To continue receiving DRECS, small customers (consuming less than 100 megawatt hours (MWh) per annum) on a regulated retail tariff must be supplied on the tariff they were supplied on as at 31 December 2021 or when their application for DRECS was made, whichever is the later;
- To continue receiving DRECS, large customers (consuming 100MWh or more per annum) on a regulated retail tariff must be supplied on the tariff that provides the DRECS recipient's relevant NMI the lowest annual charge without taking into account the assistance provided by DRECS, excluding controlled tariffs and based on the capabilities of the NMI's meter.

Where the status of a drought declaration or individually drought declared property is revoked, customers receiving DRECS assistance at the time of the revocation will continue to be eligible for DRECS until the date of the revocation, regardless of any tariff change which may occur following the revocation and during the same billing period as the revocation date.

*Gas Supply Act 2003***QUEENSLAND GOVERNMENT RETICULATED NATURAL GAS REBATE**

I hereby advise that, on and from 1 July 2025, the Queensland Government Reticulated Natural Gas Rebate, which is to be provided by retailers under section 175A of the *Gas Supply Act 2003*, will be provided on the terms set out in the following schedule. The terms of the rebate will apply from 1 July 2025 regardless of the date on which this notice is published.

Dated this 29 day of June 2025

DAVID JANETZKI MP

Treasurer, Minister for Energy and Minister for Home Ownership

QUEENSLAND GOVERNMENT RETICULATED NATURAL GAS REBATE

1. A Queensland Government Reticulated Natural Gas Rebate is available to a customer provided the customer:
 - (a) holds a current and valid card of the following type –
 - (i) Pensioner Concession Card, issued by either Services Australia or the Department of Veterans' Affairs; or
 - (ii) Department of Veterans' Affairs Veteran Gold Card; or
 - (iii) Queensland Seniors Card; and
 - (b) is a customer of a retailer at the premises for which the rebate is claimed and the premises is the customer's principal place of residence, and the only residence in Queensland for which the customer claims the rebate; and
 - (c) makes application for a rebate either by submitting the relevant form or, at the discretion of the retailer, by providing the relevant information and declarations by telephone or electronic means.
2. Where a gas account is in more than one name, and more than one resident is eligible to receive the rebate, each resident may have their eligibility established. However, only one rebate per household will be paid.
3. The retailer may, at any time, require a new application from a customer and if the customer fails to lodge a new application within the time specified by the retailer the rebate shall cease.
4. A Queensland Government Reticulated Natural Gas Rebate is also applicable to the gas account of residential home parks and other similar multi-tenanted residential premises provided the following sub-conditions are met:
 - (a) the customer (i.e. the owner or operator of the multi-tenanted residential premises) of the retailer at the premises concerned –
 - (i) supplies gas to each of the separately identifiable vans, flats or home units, or other similar living units at the premises; and
 - (ii) charges for gas on the basis of metered consumption; and

-
- (iii) is claiming the rebate on behalf of eligible persons (other than the person being a customer of the retailer) residing at the premises ('claimant residents'); and
 - (iv) will fully pass on the rebate to each claimant resident by way of a reduction in charges for gas; and
 - (v) has obtained each claimant resident's authority to:
 - (A) apply for the rebate; and
 - (B) verify the claimant resident's details with the Australian Government Services Australia or the Department of Veterans' Affairs or the Queensland Government Department of Families, Seniors, Disability Services and Child Safety; and
 - (C) disclose their details in connection with eligibility and receiving the rebate; and
 - (vi) has sighted the claimant resident's Pensioner Concession Card, Veteran Gold Card or Queensland Seniors Card (as applicable) at the time the application for the rebate is made, to ensure it is issued in the name of the claimant resident; and
- (b) each separately identifiable living unit for which the rebate is claimed is occupied, from the day the claimant resident has applied to the customer, by persons who, if they had been supplied directly by the retailer, would have been eligible for the Reticulated Natural Gas Rebate; and
 - (c) a rebate is applicable to claimant residents for gas consumed in the billing period to which the customer's gas account relates, from the day the claimant resident has applied to the customer; and
 - (d) a completed rebate application form, in writing, must be produced with the customer's gas account at the time payment is tendered.
5. The rebate is \$0.2294 (GST exclusive) per day, applied against the amount billed under the applicable tariff (GST exclusive) for the retail services provided to the customer in the billing period to which the rebate relates.
 6. The rebate paid shall not be greater than the amount billed (excluding GST).
