## AUSTRALIAN WARNINGS

When a natural disaster occurs, warnings are issued to let you know what is happening and what to do. The national warnings cover **bushfire, cyclone, storm, flood and extreme heat**.

	ADVICE	WATCH AND ACT	EMERGENCY WARNING
Warning level			
Warning information	An incident has started. There is no immediate danger. Stay up to date in case the situation changes.	There is a heightened level of threat. Conditions are changing and you need to start taking action now to protect you and your family.	An Emergency Warning is the highest level of warning. You may be in danger and need to take action immediately. Any delay now puts your life at risk.
