4. The administering agency is the Department of Main Roads.

*Transport Infrastructure Act 1994***NOTIFICATION OF DECLARATION OF A  
STATE-CONTROLLED ROAD**

Notice is hereby given under sections 24 and 25 of the *Transport Infrastructure Act 1994*, that the road or route, or part of the road or route described in the schedule is hereby designated or revoked as a State-controlled road, as the case may be. As required by the abovementioned sections of the *Transport Infrastructure Act 1994*, the relevant Local Government has been notified and the declaration described in the schedule below is consistent with the department's transport infrastructure strategies.

Paul Lucas  
Minister for Transport and Main Roads

**THE SCHEDULE**

That on and from 3 August 2007, the declaration of the State-controlled road specified in Appendix I hereto, be revoked, and that the road described in Appendix II hereto, be declared a State-controlled road, respectively, under and for the purposes of the *Transport Infrastructure Act 1994*.

The area (ie. alignment and width) of the State-controlled road described in Appendix II shall apply to the full width of the road corridor, where the existing trafficked route is contained within a surveyed road corridor, provided that, where the existing trafficked route is contained within a State reserve, State forest, timber reserve, vacant State land or pastoral holding, the area (ie. alignment and width) shall apply to 30 metres each side of the centre line of the trafficked route.

**APPENDIX I**

<b>Name of State-controlled Road</b>	<b>Date of Declaration Relevant to Road</b>
No. 207 Waterford - Tamborine Road Beaudesert Shire	2 December 2005

**APPENDIX II**

**No. 207  
WATERFORD - TAMBORINE ROAD  
BEAUDESERT SHIRE**

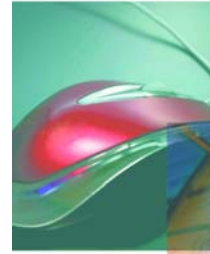

From the Gold Coast City boundary near the south western corner of Lot 1 on RP160880, parish of Moffatt, to its intersection with the Beaudesert - Beenleigh Road near the north eastern corner of Lot 1 on RP91980, parish of Tamborine, by the route shown on the approved plans held by the Director-General, Department of Main Roads and identified by the registration numbers RD207-1-L, RD207-2-F and RD207-3-E.

Length ... 20.88 kilometres (approximately)

**ENDNOTES**

1. Published in the Gazette on 3 August 2007.
2. Not required to be laid before the Legislative Assembly.
3. The administering agency is the Department of Main Roads.

## QUEENSLAND GOVERNMENT VACANCIES GAZETTE

The Queensland Public Service is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants. The Queensland State Government's policy is to seek to retain skilled staff. Registered employees who apply for an advertised job will be considered before other applicants. The symbol (h) appears next to vacancies where an exemption from this requirement applies. Employees are to indicate in their application for the advertised job that they are registered with the Office of the Public Service Commissioner. The Queensland Public Service Commissioner is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants.

### CONTINUOUS APPLICANT POOLS

A continuous applicant pool allows you to apply for jobs within an occupation where vacancies are regularly available. This means that agencies can 'dip' into the pool for suitable applicants as soon as they have a vacancy. You can submit or refresh your application at any time. If you are refreshing your application, make sure that you indicate this either on your email or, if sending by post, in a covering letter. In search results, continuous applicant pools can be identified by 'Ongoing' in the 'Closes' column of a search result.

Note: If a continuous applicant pool is closing, applicants will be notified two weeks prior to this date. Applications may be used for up to six months after the pool closes.

### MULTI-AGENCY POOLS

Some Queensland Government agencies are on the lookout for people to fill similar jobs or occupations at the same time. Some of these jobs have a fixed closing date and others are ongoing (continuous applicant pools). With multi-agency pools, you only have to apply once to access job opportunities across participating agencies. Your application will then be able to be viewed and assessed by all the agencies in that pool - or, if you prefer, you can specify that you want to be considered only for particular agencies. Make sure you check the specific vacancy to find out how each pool works.

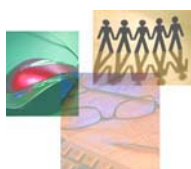

### HOW TO APPLY

When you have found the job you would like to apply for.

1. You can phone for a copy of the information kit or you can download the documents from the Smart Jobs and Careers website at [www.jobs.qld.gov.au](http://www.jobs.qld.gov.au). The information kit will include:
  - the position or job description detailing: background of the department or work area; roles and responsibilities, and selection criteria
  - a job information package, outlining the procedure for preparing and sending in your application, and
  - an application cover sheet.
2. Do your homework - research the agency to understand the background to the job.
3. Prepare your application. This should include your:
  - completed cover sheet (available on jobs online or in the kit mailed to you)
  - covering letter
  - resumé / curriculum vitae
  - names and contact details of (2) referees, and
  - responses to the selection criteria if required.
4. Mail or email your application (Details of where and how are available in either the job description or the job information package).

Check with the job vacancy contact person if you are unsure about how or where to submit your application or how many copies to send. Make sure you send your application by the closing date. If you don't, it may not be accepted. Once your application is received, you will usually be sent a written acknowledgement.

When applying for Continuous Applicant Pools, please check each vacancy for application instructions.

**SENIOR EXECUTIVE SERVICE VACANCIES**

TERMS AND CONDITIONS OF EMPLOYMENT

Appointees to the Senior Executive Service are offered an attractive remuneration package with salary sacrifice in return for optional benefits including.

- Private use component of a fully maintained government owned motor vehicle;
- Membership options of the Government Superannuation Schemes, including generous employer superannuation contributions
- Professional organisation membership fees.

The total remuneration value amount listed against positions includes the private use component of a motor vehicle, employer superannuation contributions and the 17.5% annual leave loading. In addition to the salary and optional benefits, executives will be entitled to:

- a subsidy for home telephone expenses.
- Queensland Public Service leave conditions, including four (4) weeks annual leave, cumulative sick leave and long service leave.

Upon appointment, the executive will also be eligible to receive significant removal allowances and rental assistance if necessary. Appointees will be required to enter a contract of employment. Existing tenured SES officers who are appointed at the current SES level or by redeployment may, but are not required to, enter into a contract of employment.

ASSESSMENT & MONITORING OFFICERS  
– AO5/AO6 and PO3/PO4**

An excellent opportunity exists for two or three officers currently working in the public sector to join the Crime and Misconduct Commission on secondment for a period of 6-12 months.

Officers at the substantive (permanent) levels of AO5/AO6/AO7 (or equivalent PO3/PO4/PO5 levels) are invited to apply for these temporary secondments.

The positions will be located in the Misconduct area and will be involved in assessing complaints of alleged misconduct on the part of police officers and public sector officers, monitoring how public sector agencies (including the Queensland Police Service) handle individual misconduct matters and undertaking project work associated with reviewing the capacity of agencies to prevent and deal with misconduct.

To be successful in these roles, you will have good analytical skills, sound judgment, excellent communication skills and be able to write well.

Before applying for these secondment opportunities, you need to ensure that your current agency will agree to your release for a negotiated period of 6-12 months, if you are successful in being offered temporary secondment.

To express your interest in secondment, you should firstly provide a detailed curriculum vitae. Depending on the number of officers who express interest, you may later be required to provide more detailed information on your experience, skills, knowledge and abilities.

In order to work at the CMC, you will be required to undergo a stringent security vetting process which includes making financial disclosures. Expressions of interest will remain current for a period of 12 months and may be used for filling other similar vacancies.

Expressions of interest, quoting the relevant reference number (CMC 48/07), should be forwarded by 5.00 pm on Friday, August 24 2007 to the Human Resources Manager, GPO Box 3123, BRISBANE QLD 4001.

Inquiries can be directed to Helen Bennett on (07) 3360 6239.

**NOTE 1 :** Positions within the Parliamentary Service come within the ambit of the Parliamentary Service Act 1988 and are not subject to the provisions of the Public Service Act 1996.

**NOTE 2 :** As prescribed under sections 94, 95, 96, and 114 of the Public Service Act 1996 and Part 1 of the Appeals Directive (No.: 6/03): an appeal can not be made to the Public Service Commissioner against a decision to appoint or second an officer or other person to Senior Officer levels (SO1 and SO2), and; otherwise, an officer entitled to appeal must satisfy the following requirements.

1. the officer must have applied for a vacancy to which one of the following persons was promoted.
  - an officer of a Department
  - a general employee of a Department with tenure
  - an officer of the Public Service Office
  - a general employee of a Public Service Office with tenure; or
  - a tenured public sector employee of a public unit listed in Schedule 3 of the Appeals directive;
2. the officers application for the vacancy must have been received before the deadline for the receipt of applications;
3. the officers notice of appeal must be actually received by the Public Service Commissioner before the deadline for it's receipt;
4. the officer must continue to be entitled to appeal (see s1.(1) of Appeals Directive)

### FOOTNOTES

- (a) Appointees may be required to serve in any part of the State. Where a centre is included under "Locality", the headquarters of the appointee will be at such centre unless otherwise determined.
- (b) An appointment has been declared by the Public Service Commissioner, by gazette notice, to be a non-appealable appointment, pursuant to section 95 of the Public Service Act 1996.
- (c) Also being advertised in daily press and/or internet/email advertising or technical journals.
- (d) The appointment may be appointed in a temporary capacity. If a tenured employee of the Public Service is selected for appointment, the officer will retain tenured status.
- (e) Appointment may be made on the basis of a contract for a fixed term, pursuant to sections 69 and 70 of the Public Service Act 1996.
- (f) Senior Officer levels (SO1 and SO2): salary sacrifice may be made for optional benefits of employer funded superannuation options and professional organisation membership fees.
- (g) In accordance with section 5.13 of the Directive 4.02, Deployment and Redeployment, registered deployees will be considered on relative merit.
- (h) Applications will remain current for a period specified in the material provided to applicants.
- (i) Identified position.

### COMMUNICATIONS

All communications should be addressed "SDS Publications" and endorsed "SDS Publications"  
Postal address Locked Bag 500  
Coorparoo, DC, QLD, 4151.

<b>AB2006-018</b>	Gordon Charlie on behalf of those members of the Dingaal clan group known as the Charlie family who are descended from the apical ancestor Warragan.	North Direction Island described as Lot 31 on SP 161891.
<b>AB2006-019</b>	Gordon Charlie on behalf of those members of the Dingaal clan group known as the Charlie family who are descended from the apical ancestor Warragan.	South Direction Island described as Lot 30 on SP 161890.

Each claim has been made on the grounds of traditional affiliation and historical association.

Copies of the applications and maps showing the lands claimed, can be inspected during business hours on business days from Monday 6 August 2007 to Friday 12 October 2007 at :

- Office of the Land Tribunals, Level 9, 259 Queen Street, Brisbane.
- Department of Natural Resources and Water, William McCormack Place, 3<sup>rd</sup> Floor, 5B Sheridan Street, Cairns.
- Cook Shire Council, 60 Hope Street, Cooktown.

Any person whose pecuniary or other interests could be affected by the grant of the land as Aboriginal land may apply to the Land Tribunal to be made a party to the proceeding for the hearing of the claim. A person who wishes to be made a party should apply in writing to the Land Tribunal not later than Friday 26 October 2007. Such application must include details of the person's interest and how those interests could be affected.

All other correspondence and inquiries should be made to:

 Chairperson**

**Notice of Transfer of Appropriation under Section 23A  
of the *Financial Administration and Audit Act 1977***

Treasury Department  
Brisbane, 19 July 2007

Her Excellency the Governor, acting by and with the advice of the Executive Council, and in pursuance of the provision of the *Financial Administration and Audit Act 1977*, has approved the undermentioned transfer of the unexpended portion of moneys appropriated for departmental outputs, equity adjustments and administered items, as set out in the following Schedule:

**Financial Year 2006-07**

**Consolidated Fund**

Department, Departmental Outputs, Equity Adjustments and Administered Items from which such vote is transferred	Vote 2006-07	Portion of Appropriation available to the Department from which the vote is transferred	Portion of Appropriation available for payment to the Department to which the vote is transferred	Department to which such vote is transferred
	\$'000	\$'000	\$'000	
<b>Item 1</b> <i>Aboriginal and Torres Strait Islander Policy</i>  <b>Former Department of Aboriginal and Torres Strait Islander Policy (abolished 13 September 2006)</b> <i>Controlled Items</i> Departmental Outputs Equity Adjustments <i>Administered Items</i>	36,943 33,178 465	9,756 65 127	27,187 33,113 338	<b>Department of Communities</b> <i>Controlled Items</i> Departmental Outputs Equity Adjustments <i>Administered Items</i>
Vote	70,586	9,948	60,638	Vote
<b>Item 2</b> <i>Operations Divisions (TAFE and VET)</i>  <b>Former Department of Employment and Training (abolished 13 September 2006)</b> <i>Controlled Items</i> Departmental Outputs Equity Adjustments <i>Administered Items</i>	640,291 45,917 ..	240,409 3,625 ..	399,882 42,292 ..	<b>Department of Education, Training and the Arts (renamed 13 September 2006)</b> <i>Controlled Items</i> Departmental Outputs Equity Adjustments <i>Administered Items</i>

**STATEMENT GIVING REASONS AS TO WHY THE COORDINATOR-GENERAL HAS DELEGATED TO QUEENSLAND WATER INFRASTRUCTURE PTY LTD THE POWER CONTAINED IN SECTION 138(1) OF THE *STATE DEVELOPMENT AND PUBLIC WORKS ORGANISATION ACT 1971* IN RELATION TO THE CEDAR GROVE WEIR**

---

**1. Decision**

On 18 May 2007, the Coordinator-General, having obtained the prior approval of the Governor in Council in accordance with s.111(2)(a) of the *State Development and Public Works Organisation Act 1971* ("SDPWO Act"), delegated to Queensland Water Infrastructure Pty Ltd ("QWI"), under s.11 of the SDPWO Act, all of the powers, functions and duties of the Coordinator-General under the SDPWO Act that are necessary or convenient to enable QWI to undertake all activities reasonably necessary for, connected with or incidental to the construction of the Cedar Grove Weir ("Delegation") in the area identified in SunWater map number 228543 held by the Department of Infrastructure.

In accordance with s.11(1) of the SDPWO Act, the Coordinator-General effected the Delegation by writing under seal.

As part of the Delegation, the Coordinator-General granted QWI specific authority to exercise the power set out in s.138(1) of the SDPWO Act for the purpose of, or in connection with, the undertaking of the construction of the Cedar Grove Weir ("Decision").

---

**2. Statutory framework**

Section 10 of the SDPWO Act provides that the Coordinator-General's functions include taking such steps and measures as the Coordinator-General thinks necessary or desirable to secure the proper planning and execution of planned developments. In accordance with this provision, the Coordinator-General made the Decision to secure the proper planning and execution of the proposed Cedar Grove Weir.

**2.1 Cedar Grove Weir: Authorised works under the SDPWO Act**

The Schedule to the SDPWO Act defines "authorised works" to mean works authorised under the SDPWO Act to be undertaken by the Coordinator-General. The construction of the Cedar Grove Weir constitutes "authorised works" within the definition of that term in the SDPWO Act.

***Water supply emergency regulation***

Section 25F(1) and (2)(b)(vi) of the *Water Act 2000* ("Water Act") provide that where a water supply emergency (as defined in s.25A of the Water Act) exists or is developing in a region, the Governor in Council may make a water supply emergency regulation. A water supply emergency regulation may state, amongst other things, any works for dealing with the water supply emergency that are to be carried out by the Coordinator-General.

In August 2006, the Governor in Council made a water supply emergency regulation that was inserted as Part 8 of the *Water Regulation 2002* ("Water Regulation"). Section 82(2) of the Water Regulation provides that one of the purposes of that water supply emergency regulation is to outline a range of works to be carried out by the Coordinator-General to ensure the security of essential water supplies for the South East Queensland ("SEQ") region. These works include the construction of the Cedar Grove Weir (see s.90(1)(a) of the Water Regulation).

Section 83 of the Water Regulation defines the Cedar Grove Weir to mean the weir of that name proposed in the document titled *Water for South East Queensland - a long term solution* ("*Water for SEQ*"), which is held by the Department of Natural Resources and Water.

#### *Authorised works*

Section 109 of the SDPWO Act provides that the Governor in Council may make a regulation directing the Coordinator-General to undertake particular works ("Section 109 Regulation"). Under s.110 of the SDPWO Act, the Coordinator-General is then bound to undertake any works the subject of a direction contained in a Section 109 Regulation.

Section 25L(2)(c) of the Water Act provides that a statement in a water supply regulation about works to be carried out by the Coordinator-General has effect as if the statement were a Section 109 Regulation directing that the works be undertaken. On this basis, s.90(1)(a) of the Water Regulation acts as a Section 109 Regulation directing the Coordinator-General to undertake the construction of the Cedar Grove Weir.

Pursuant to s.7(a) of the *Acts Interpretation Act 1954*, a reference in legislation to "an Act" includes a reference to the statutory instruments made or in force under the Act. As the authority of the Coordinator-General to undertake the construction of the Cedar Grove Weir derives from the Section 109 Regulation, it therefore follows that the construction of the Cedar Grove Weir is "works authorised under the SDPWO Act to be undertaken by the Coordinator-General".

## **2.2 Delegation power of Coordinator-General**

Section 11(1) of the SDPWO Act authorises the Coordinator-General, by writing under seal, to delegate any of the Coordinator-General's powers, functions and duties to any person or body. However, in accordance with s.111 of the SDPWO Act, a power, function or duty conferred or imposed on the Coordinator-General by a Section 109 Regulation (such as the construction of the Cedar Grove Weir) may only be delegated under s.11(1) of the SDPWO Act if:

- the Coordinator-General has obtained the prior approval of the Governor in Council; and
- the delegate is either a local body or the Chief Executive of a Department. The term "local body" is defined in the Schedule to the SDPWO Act to include a corporation (such as QWI) whose shares are wholly owned by the State.

The Coordinator-General granted the Delegation to QWI acting under the authority of ss.11(1) and 111 of the SDPWO Act.

## **2.3 Section 138 of the SDPWO Act**

Section 138(1) of the SDPWO Act provides that the Coordinator-General may do either of the following:

- raise or lower the level of the water in any body of water; or
- take, impound, divert or use the water in any body of water, either permanently or temporarily.

A delegate of the Coordinator-General may also exercise the power in s.138(1) of the SDPWO Act, but only where the Coordinator-General has expressly authorised the delegate to exercise that power.

The Coordinator-General or his expressly authorised delegate may only exercise the power in s.138(1) of the SDPWO Act to the extent to which the Coordinator-General or his delegate thinks it necessary for the purpose of or in connection with undertaking:

- authorised works for or connected with the supply of water; or
- other works authorised under the SDPWO Act to be undertaken for or connected with the supply of water.

The Delegation included a conferral of express authority on QWI to exercise the power set out in s.138(1) of the SDPWO Act for the purpose of, or in connection with, the undertaking of the construction of the Cedar Grove Weir (being authorised works for or connected with the supply of water).

As the expressly authorised delegate of the Coordinator-General, QWI must, in addition to adhering to the conditions set out in clause 5 of the Instrument, comply with the limitations set out in s.138(3) of the SDPWO Act. Pursuant to that provision, in exercising the power set out in s.138(1) of the SDPWO Act, QWI may not interfere with:

- water to be supplied to either water entitlement holders or people authorised to take water under s.20 of the Water Act in the area of the *Water Resource (Logan Basin) Plan 2007* ("Logan Water Resource Plan"); or
- water required to meet environmental flow objectives and water allocation security objectives under the Water Resource Plan.

Section 138(4)(a) of the SDPWO Act sets out a list of criteria which the Coordinator-General must consider before acting under s.138(1), or authorising a delegate to act under s.138(1). Those criteria are the economic and social benefits of the proposed works and any industry to be supplied with the water, and any one or more of the following matters being:

- the need for sustainable management and efficient use of water under s.10 of the Water Act;
- the principles of ecologically sustainable development under s.11 of the Water Act;
- relevant water planning information;
- the needs of water entitlement holders under the Water Act; and
- the volume of water to be supplied under s.138(1).

Section 138(4)(b) of the SDPWO Act provides that the Coordinator-General must prepare a statement, a copy of which must be published in the Gazette, giving reasons why the power in s.138(1) is exercised. Pursuant to s.138(4)(c) of the SDPWO Act, the Deputy Premier, Treasurer and Minister for Infrastructure ("Minister") must table the statement in the Legislative Assembly within three sitting days after the statement is published in the Gazette.

The Coordinator-General has prepared this Statement to satisfy the requirements of s.138(4)(b) of the SDPWO Act.

---

### **3. Evidence or other material on which my findings on material questions of fact were based**

In forming its decision to confer express authority on QWI to exercise, as delegate of the Coordinator-General, the power in s.138(1) of the SDPWO Act in relation to the Cedar Grove Weir, the Coordinator-General had regard to the following materials:

- Instrument of Delegation dated 18 May 2007 - Delegation by the Coordinator-General ABN 25 166 523 889 to Queensland Water Infrastructure Pty Ltd ABN 18 119 634 427;

- map of the area affected by the Cedar Grove Weir, being SunWater map number 228543, held by the Department of Infrastructure;
- Notice of Governor in Council approval to the Delegation dated 17 May 2007;
- Executive Council Minute and Explanatory Memorandum dated 17 May 2007 in respect of the approval of the Governor in Council to the Delegation;
- Department of Infrastructure Briefing Note dated 1 May 2007 to the Honourable Anna Bligh MP, Deputy Premier, Treasurer and Minister for Infrastructure, containing the Coordinator-General's recommendation in relation to Ministerial approval of the application for Governor in Council of the Delegation and Ministerial in-principle approval of an advance draft of this Statement; and
- GHD Pty Ltd (on behalf of South East Queensland Water Board), *Proposed Cedar Grove Weir - Environmental Impact Study - Final Draft, Volumes 1 and 2* (December 1998);
- GHD Pty Ltd (on behalf of South East Queensland Water Board), *Proposed Cedar Grove Weir - Report on Supplementary Environmental Impact Study* (September 1999);
- Department of Natural Resources and Water and South East Queensland Regional Organisation of Councils, *South East Queensland Regional Water Supply Strategy Stage 1 Report* (August 2004);
- Office of Urban Management (Department of Local Government, Planning, Sport and Recreation), *South East Queensland Infrastructure Plan and Program 2005 - 2026* (April 2005);
- Department of Local Government, Planning, Sport and Recreation and South East Queensland Regional Organisation of Councils, *South East Queensland Regional Plan 2005 - 2026* (June 2005);
- Department of Natural Resources and Water, *South East Queensland Regional Water Supply Strategy Stage 2 Interim Report* (November 2005);
- Parsons Brinkerhoff (Australia) Pty Limited (on behalf of the Department of Natural Resources and Water), *Desktop Review Cedar Grove Weir Project* (December 2005);
- Parsons Brinkerhoff (Australia) Pty Limited (on behalf of the Department of Natural Resources and Water), Draft Cedar Grove Weir Referral Form under the *Environmental Protection and Biodiversity Conservation Act 1999* (Cth);
- Coordinator-General Draft Report to the Premier of Queensland, *Proposed Undertaking of Works by the Coordinator-General in accordance with Part 6 Division 4 of the State Development and Public Works Organisation Act 1971* (April 2006);
- Office of Urban Management (The Coordinator-General), *South East Queensland Infrastructure Plan and Program 2006 -2026* (May 2006);
- GHD Pty Ltd, *South East Queensland Regional Water Supply Strategy Desk Top Review of Identified Dam and Weir Sites - Report to the Bulk Supply Infrastructure Task Group* (June 2006);

- Department of Natural Resources and Water, *Water for South East Queensland - a long term solution* (August 2006);
- Letter dated 26 October 2006 from the Coordinator-General to Mr Graeme Newton, Chief Executive Officer of QWI;
- Letter dated 22 November 2006 from Mr Graeme Newton, Chief Executive Officer of QWI, to the Coordinator-General;
- Letter dated 6 December 2006 from the Coordinator-General to Mr Graeme Newton, Chief Executive Officer of QWI;
- Letter dated 13 December 2006 from Ms Anna Bligh MP, Deputy Premier, Treasure and Minister for Infrastructure, to Mr Craig Wallace MP, Minister for Natural Resources and Water; and
- the following primary and delegated legislation:
  - *State Development and Public Works Organisation Act 1971*;
  - *Water Act 2000*;
  - *Acts Interpretation Act 1954*;
  - *Integrated Planning Act 1997*;
  - *Vegetation Management Act 1999*;
  - *Water Regulation 2002*; and
  - *Water Resource (Logan Basin) Plan 2007*.

---

## 4. My findings on material questions of fact

From the material to which regard was had, the Coordinator-General made the following findings of fact.

### 4.1 Background

In 1991 the Queensland Government released a water supply strategy, which envisaged construction of a weir at Cedar Grove on the Logan River in conjunction with a possible future Dam (Wyaralong Dam) on Teviot Brook at around 2060. The strategy enjoyed the support of the Beaudesert Shire Council because of increasing urban demand. The Beaudesert region is recognised as an important growth area in SEQ which has undergone significant urbanisation.

During the 1990s, the SEQ Water Board determined that construction of the weir should be brought forward to 1999. Consequently, GHD Pty Ltd were commissioned to conduct an Environmental Impact Study ("EIS") for the construction and operation of a Cedar Grove weir.

The EIS for the proposed Cedar Grove Weir was completed in December 1998. However the project did not proceed to construction at that time, largely because the Government decided to commence a comprehensive Regional Water Supply Planning Study.

The Queensland Government's strategic priorities for water now clearly include increasing the supply of water to accommodate growth in the region. A key component of that strategy is the construction of the new Cedar Grove Weir.

In this regard, in 2001, the Government confirmed, within the *State Infrastructure Plan - Strategic Directions 2001*:

- the need for new storages to service parts of the SEQ; and
- the Government's expectations about the future development of Wyaralong Dam and associated regulating weir (i.e. Cedar Grove Weir) on the Logan River.

Within the document, the Government indicated that the regulating weir would be required to be developed in advance of the Wyaralong Dam because the two structures will be closely linked in a supply sense, with Cedar Grove Weir acting as a pumping pool for supplies from the upstream dam. In this context, the Cedar Grove Weir could be considered to be Stage 1 of the upgrade of water storage infrastructure on the Logan River, with an upstream dam being Stage 2.

The Queensland Government, the SEQ Regional Organisation of Councils ("SEQROC") and other stakeholders are also now finalising the South East Queensland Regional Water Supply Strategy ("SEQRWSS"), with the objective of formulating regional strategies to meet the future water supply needs of the region.

Stage 1 of the SEQRWSS was endorsed by SEQROC on 10 September 2004. This initial study focuses on ensuring that the immediate to short term supply needs of SEQ are satisfied. The Stage 2 Interim Report of the SEQRWSS was released in January 2006, outlining the approach which needs to be taken to ensure water supplies meet short and medium-term water needs. The Interim Report provides details of shorter-term priority projects and contingency planning initiatives to be commenced in the period 2005-2009 and lists medium term (2010-2020) and possible long-term (2020-2050) initiatives. The Cedar Grove Weir is identified in this strategy as a short term initiative to meet drought contingency planning requirements and improve security of supply for Beaudesert Shire.

Finally, in April 2005, the Queensland Government released the *SEQ Infrastructure Plan and Program 2005—2026* ("SEQIPP") which establishes infrastructure priorities that support the objectives of the *SEQ Regional Plan 2005 - 2026* ("SEQRP"). The priorities in the SEQIPP relate to the timely and appropriate development of infrastructure for the next ten years, with a 20-year planning horizon.

A key component of the strategy is a long-term water supply strategy for the region, in particular the development of new water storage infrastructure commencing with the development of the Cedar Grove Weir on the Logan River. In finalizing the SEQIPP, the Queensland Government provided funding to enable the development of this initiative over the years 2005-06 to 2008-09.

SEQ is experiencing the compound effects of the worst drought on record and the prospect of continuing irregular rainfall due to natural climate variability and climate change. The record drought conditions and the associated historically low levels in the SEQ region's water storages highlight the need to deliver the new water storage infrastructure included within the SEQIPP as quickly as possible.

## 4.2 Description of the proposed works

The proposed Cedar Grove Weir site is located at Adopted Middle Thread Distance (AMTD) 81.2 km on the Logan River, approximately 7.1 km downstream from the junction of the Logan River and Teviot Brook in Beaudesert Shire, and approximately 15 kilometres north of the town of Beaudesert and 25 km south-west of Logan City.

The inundated area of the Weir at full supply level ("FSL") will stretch 9.9 km up the Logan River and 2.8 km up Teviot Brook. As the weir height will be less than the height of the banks, the impounded area and the water in storage will be contained entirely within the bed

and banks of the Logan River. At the Cedar Grove site, the river bed is at Australian Height Datum Elevation ("EL") 14.3 m and the level of the adjacent flood plain is approximately EL 25 m.

Some land or easements will be acquired adjacent to the impoundment area to assist, where necessary, with the operation of the weir, particularly in relation to the management of bank erosion.

The proposed Weir structure has a proposed height of 6.2 m. The Weir would comprise four stepped rows of sheet piles, each having an approximately length of 6 m, which geological investigations indicate would be the most economical for the site. The Weir will provide a storage capacity of approximately 1 000 ML at FSL. A fish way structure will be incorporated into the Weir design (with design review and assistance from the Department of Primary Industries and Fisheries) which would allow fish movement between the upstream and downstream waters of the Weir.

The Cedar Grove Weir will ultimately become a regulating structure for the proposed Wyaralong Dam. The site for the proposed Wyaralong dam is approximately 20 km upstream from the site of the Cedar Grove Weir. Detailed investigations for the Wyaralong Dam commenced in 2006.

The Cedar Grove Weir is a stand-alone proposal and is not dependent on any other water infrastructure proposals in the region. Although the proposed Wyaralong Dam is within the same river system, and part of a regional water supply infrastructure strategy for SEQ, the Cedar Grove Weir is viable in its own right.

#### 4.3 Need which would be met by the proposed works

SEQ is the fastest growing region in Australia with a vibrant economy and an annual population increase of about 50,000 people. Updated projections suggest that the population of SEQ will be 3,960,000 in 2026 and 5,080,000 in 2051. Recent estimates indicate that the current water demand of about 450,000 ML per annum ("ML/a") will increase by about 300,000 ML/a by about 2050.

Support for the long-term growth of the State and maintenance of quality of life can only be achieved by a combination of:

- (a) all Queenslanders managing their use of water in a responsible way; and
- (b) the delivery of substantial new water supply infrastructure. Major works already underway include:
  - (i) the South East Queensland (Gold Coast) Desalination Facility at Tugun;
  - (ii) the Western Corridor Recycled Water Scheme; and
  - (iii) the Southern Regional Water Pipeline.

However, these works will only address short-term growth which is why major dams at Traveston Crossing and Wyaralong, as well as the other projects listed in *Water for SEQ*, have been announced.

Climatologists cite a clear downward trend in regional rainfall over the past 30 years as evidence of climatic change. While the magnitude and nature of the change are far from certain, preparation is necessary for the eventuality that the region's dams may yield less water than has been the case in the past. Adding to the uncertainty is the prediction that climate change will bring higher temperatures and evaporation, increasing the demand for water.

With the acceleration in regional growth, new planning approaches are therefore needed to address the problem of supply reliability. Clearly, the consequences of an unreliable supply or a failure of supply are unacceptable.

Given the ramifications of running out of water in South East Queensland, it is essential that strategies be put in place to ensure that the managers of water supplies can demonstrate that they are always in control and able to manage water supply risks. This will provide the ability to deal with any unforeseen climate variability and climate change circumstances.

In addition to the need for contingency plans to be developed to enhance the supplies to the Wivenhoe, Somerset and North Pine dams supply area, it can be shown that communities reliant on small coastal and inland dams are also at high risk of supply failure and that contingency arrangements need to be put in place for these communities in the very near future.

In particular, it is clear that water demands in the vicinity of the proposed Weir are approaching the capacity of existing water storage infrastructure and there is limited capacity for additional supplies from groundwater storages to meet either current or future demand.

For example, the 2004 SEQRWSS Stage 1 Report identified on the basis of historical no failure yield assessments and experience that supplies to Beaudesert have been continuously threatened for several years .

The implementation of Cedar Grove Weir is necessary to satisfy the short-term objective of increasing water supplies and improving security of supply for the rapidly growing residential areas around Beaudesert and the strategically important Bromelton industrial estate.

#### **4.4 Timeframe within which it is proposed to deliver the works**

Under a "business as usual" scenario, it is projected that demand in 2050 will exceed existing water supplies by about 500,000 ML/a. It would be very difficult to achieve the necessary 500,000 ML/a. This is why it is important that a range of water-use efficiency measures and rainwater tanks and recycling are also pursued.

It is projected that demand in 2050 would be approximately 200,000 ML/a less than on the "business as usual" scenario if the above measures are adopted. Nevertheless, a strategy is needed to provide the additional bulk water requirements required even under this latter scenario.

The main bulk supply options to meet the projected demands to 2050 are:

- new dams and weirs;
- additional groundwater supplies;
- desalination; and
- recycling.

A single solution to the long-term water needs of SEQ does not exist. Given climatic instability and uncertainty and population growth expectations, diversification is an essential ingredient of any long-term water supply strategy.

Given that dams and weirs are still going to be an important element of any future regional water supply arrangement, it is important to preserve the best dam and weir sites now as they would otherwise become progressively more difficult to develop due to increasing development that would potentially sterilise the sites forever. Such developments will serve future growth in SEQ.

The Queensland Government has brought forward construction of the Cedar Grove Weir on the Logan River to be completed by 2007. The Weir will deliver around 11 ML per day of additional water to the rapidly growing urban areas around Beaudesert and represents stage one of the proposed upgrades to water storage infrastructure in the Logan River catchment. The Environmental Impact Statement has been completed and land acquisition for the weir structure is underway.

Construction is scheduled to commence during May 2007 and is scheduled to be completed by the end of 2007. The Weir has a projected operating life of at least 50 years.

#### **4.5 Economic and social benefits of the proposed works and any industry to be supplied with the water (s.138(4)(a) of the SDPWO Act)**

The majority of the water from the proposed Cedar Grove Weir could be expected to provide urban and industrial supplies in Beaudesert Shire and Logan City regions.

The northern part of Beaudesert Shire is characterised by extensive areas of scattered low-density rural residential development with a relatively low level of employment opportunities and services. The area comprises the majority of the Mt Lindesay/ North Beaudesert Study Area ("MLNBSA"), which is under detailed investigation by the Office of Urban Management ("OUM") to determine the feasibility, timing and extent of potential future urban development to cater for the longer-term needs of the region. It provides potential to relieve pressure on the Gold Coast, as suitable land for development on the Gold Coast is progressively exhausted.

The population growth of Beaudesert Shire is also high relative to other predominantly rural areas, with its population increasing by 32,752 people from a base of 26,641 between 1986 and 2004. This growth is expected to accelerate. In 2001, there were 8,800 dwellings in the Shire. OUM expects that there will be about 20,000 new dwellings developed in the Shire during the period to 2026, 10,000 of which will be developed before 2016.

According to OUM's 2005 MLNBSA Draft Study Report:

"it is envisaged the preferred development option [for the MLNBSA] could provide an additional 120,000 urban residential allotments and have an additional population of 300,000 in the long-term ... Already, industry is looking at opportunities at Bromelton with economists predicting up to 30,000 jobs will eventuate in that area. New enterprise precincts in the MLNBSA are perfectly situated to share in a spin-off from the Bromelton establishment by industries that are looking for well-serviced land, with a large skilled labour force in close proximity, and located close to good rail and road transport ... The potential demand of the fully developed MLNBSA has been calculated at 37,000 [ML/a] based on 230 litres per person per day. This is in addition to the 12,000 [ML/a] for the southern portion of Beaudesert Shire."

It is noted that, following feedback from the community on the Draft Study Report, this preferred development option was reviewed in finer detail. This review has resulted in refinements being made to the areas designated for future urban and enterprise development and the population growth forecast for future urban areas. The MLNBSA Final Study Report predicts that the population growth for the MLNBSA associated with the preferred development option will be in the order of an additional 225,000 people, rather than the 300,000 people forecast in the Draft Study Report.

According to Part E of the *South East Queensland Regional Plan* ("SEQRP"), the area around the existing industrial land at Bromelton, to the west of Beaudesert township, occupies a strategic position within SEQ through its location on the standard gauge railway to the southern states, and its suitability for logistics operations involving intermodal freight handling. It also has potential to cater for industries needing substantial separation from residential areas.

Given the significant growth in international and interstate trade through SEQ, Bromelton provides potential for an inland port facility and related functions. It could also service the southern Brisbane requirements for logistics, distribution, warehousing and associated activities, as well as major manufacturing operations requiring a direct access to rail infrastructure.

As several major logistics developments are currently under consideration in the Bromelton industrial area, it is anticipated development could commence as early as 2010.

These developments, all of which play a vital role in the economic and social development of the region, will be unsustainable without the additional water supply that will be provided by the proposed Weir and other proposed water storages in the Logan Catchment.

Locally, the potential impacts of the proposed Weir may result in some predicated negative impacts for landowners adjacent to the impoundment area, including loss of river cattle crossings and riparian fodder. Other residents within the local community which may be affected by the proposed Weir include residents in close proximity to haulage routes and the construction site, with a minor reduction in amenity anticipated.

Management strategies have been devised to minimise these potential negative impacts. In addition, it is clear from the EIS that, for a significant portion of residents within the local area and the Shire in general, the impact of the proposed Weir will be positive. By developing the Weir, a secure pumping pool will be established to supply water for urban use within the Shire.

In addition, the EIS documented a range of economic costs and benefits associated with the proposed Weir. The EIS showed that the construction and operating costs of the Weir will constitute a substantial proportion of the total economic costs associated with the Weir. The economic opportunities associated with the Weir are primarily linked to construction of the Weir. The expected peak workforce was estimated in the EIS at 25 people, some of whom are likely to be sourced from local areas such as Beaudesert. Flow-on effects to the local economy would thus be anticipated. Opportunities would also exist for contractors during operation of the Weir, in areas such as electrical repair and servicing.

The EIS concluded that construction and operation of the proposed Weir offers the most economical source of water for Northern Beaudesert Shire. The EIS also recommended that construction and operation of the proposed Cedar Grove Weir would provide a net community benefit, subject to implementation of, and adherence to, the Environmental Management Plan developed for the proposed Weir.

#### **4.6 The need for sustainable management and efficient use of water under s.10 of the Water Act (s.138(4)(a)(i) of the SDPWO Act)**

In order to promote sustainable management and best use of water, the Queensland Government has adopted a three-pronged planning hierarchy that provides a robust basis for meeting future water requirements. It is one which:

- (a) facilitates the move toward high value and best use of water through improved specification and security of existing water entitlements and providing for water trading;
- (b) encourages the efficient use of water (reduce, reuse, recycle); and, if necessary,
- (c) promotes the development of additional sources through new least-cost water infrastructure.

NRW commissioned an independent technical panel of eminent scientists to investigate the potential environmental impacts and possible mitigation strategies for particular infrastructure

proposals in the Logan basin. The panel was asked to comment on the following dam combinations, each of which would deliver 40,000 to 50,000 ML/a.:

- (a) Large Tilleys Bridge Dam and Cedar Grove Weir, both on the Logan River;
- (b) Small Tilleys Bridge Dam, Cedar Grove Weir on the Logan River and Wyaralong Dam on Teviot Brook;
- (c) Wyaralong Dam on the Teviot Brook, Cedar Grove Weir on the Logan River and Glendower Dam and Albert River Barrage on the Albert River.

The panel found that all three options would cause some geomorphological, ecological and water quality changes in the dam storage areas and downstream. All three options would change the freshwater flow to the estuary potentially changing the dynamics and size of the estuarine zone in the Logan and Albert rivers. When comparing the three options, it was found that concentrating the changes in one area, as opposed to spreading them out over various river systems, became a crucial factor in assessing the relative environmental merits of the proposals.

The panel concluded that the third option was least favourable due to its impacts on the Albert River. Clearly, a proposal without further infrastructure on the Albert River would provide a great benefit to the health of the Albert River and associated estuarine areas.

Of the three options analysed by the panel, the large Tilleys Bridge Dam and Cedar Grove Weir option was estimated to result in the lowest level and most concentrated area of change to the Logan Basin. Wyaralong Dam on its own would have a lesser ecological impact again.

The use of water for the purpose of the Cedar Grove Weir is consistent with current water planning information and the need for sustainable management and efficient use of water under s.10 of the Water Act. The Logan Water Resource Plan includes a strategic water reservation for allocation and use in relation to the Cedar Grove Weir. As a result, the use of the water for the purposes of the Cedar Grove Weir must necessarily be within the sustainable limits set by the resource management framework established by the Water Act.

#### **4.7 Relevant water planning information (s.138(4)(a)(iii) of the SDPWO Act)**

A future water supply strategy will of necessity be a mix of solutions involving strategies to manage demand and provide additional supply. The simple truth is that no single response can deal with the SEQ region's future water needs.

South East Queensland urban communities rely on water from 19 surface water storages (dams and weirs) with limited use of groundwater. These storages are operated by South East Queensland Water Corporation Limited ("SEQWater"), SunWater, local governments and a local government cooperative. The five largest sources of urban water supply are the:

- (a) Wivenhoe, Somerset, North Pine dams (owned by SEQWater);
- (b) Hinze and Little Nerang dams (owned by Gold Coast City);
- (c) Baroon Pocket Dam (owned by AquaGen);
- (d) Cressbrook, Perseverance and Cooby dams (owned by Toowoomba City Council);  
and
- (e) North Stradbroke Island groundwater bore system (owned by Redland Shire).

The five systems represent about 95 per cent of total available urban water supply in South East Queensland.

Water resource plans ("WRPs") provide a framework for the management and allocation of water in a catchment. Together with the SEQRWSS, they are integral to defining water availability to meet future demand and the needs of the environment.

The preparation of WRPs is well advanced for all catchments in South East Queensland, namely the Mary, Moreton, Logan and Gold Coast catchments. In particular, the Logan Water Resource Plan came into effect in March 2007.

To cater for the expected population growth in SEQ, these WRPs are consistent with the SEQRP, SEQIPP and SEQRWSS. Any new infrastructure proposed that provides additional water under the SEQRWSS must be consistent with the requirements established under the WRPs.

The Logan Basin comprises the Logan/ Albert rivers and Redlands subcatchments including Tingalpa Creek. The basin supports approximately 69,000 ML/a of total water use at present. Of this amount, 20,000 ML/a is associated with the Logan River Water Supply Scheme and the remainder is unsupplemented rural use. A significant amount of irrigation occurs along the lower part of Burnett Creek and downstream of Rathdowney.

Urban needs account for about 40 per cent of the water used at present. Up to 55,000 ML/a of additional water is provided under the Logan Water Resource Plan to support regional growth and still meet the objectives of the Plan. This water can be accessed by the construction of new infrastructure.

#### **4.8 The volume of water to be supplied under s.138(1) of the SDPWO Act (s.138(4)(a)(v) of the SDPWO Act)**

The proposed weir will contain approximately 1,000 ML of water at its full supply level, with an expected annual yield of 4,000 ML. The Weir could provide additional local supplies in the short term, but in conjunction with the Wyaralong Dam, it could provide a significant boost to the subregional supplies. Water from the proposed Wyaralong Dam would be delivered via the Cedar Grove Weir on the Logan River to the Southern Regional Water Pipeline for distribution.

---

### **5. Reasons for my decision**

For the following reasons, the Coordinator-General made the decision on ...May 2007 to confer on QWI specific authority to exercise the power set out in s.138(1) of the SDPWO Act for the purpose of, or in connection with, the undertaking of the construction of the Cedar Grove Weir where:

- (a) the Cedar Grove Weir was prescribed in s.90(1)(a) of the Water Regulation to be works to be carried out by the Coordinator-General in response to the water supply emergency developing in SEQ. As a result of the inter-relationship between s.25L(2)(c) of the Water Act and s.109 of the SDPWO Act, the Cedar Grove Weir is authorised works for the purposes of the SDPWO Act;
- (b) under s.11 (and in accordance with s.111) of the SDPWO Act, the Coordinator-General delegated to QWI all of the powers, functions and duties of the Coordinator-General under the SDPWO Act in relation to the undertaking of the authorised works for the Cedar Grove Weir. The Delegation expressly conferred on QWI specific authority to exercise the power set out in s.138(1) of the SDPWO Act for the purpose of, or in connection with, the undertaking of the construction of the Cedar Grove Weir;
- (c) exercise by QWI of the powers under s.138(1) of the SDPWO Act will promote the timely delivery of the authorised works for the Cedar Grove Weir;

- (d) the Cedar Grove Weir is a key component of the Queensland Government's water supply strategy for SEQ, as documented in the SEQRWSS, SEQIPP and SEQRP;
- (e) the Weir is particularly needed to accommodate the demonstrably strong population growth and rapid industrial development within the Beaudesert Shire and surrounding communities;
- (f) SEQ is experiencing the compound effects of the worst drought on record and the prospect of continuing irregular rainfall due to natural climate variability and climate change. The record drought conditions and the associated historically low levels in the SEQ region's water storages highlight the need to deliver the new water storage infrastructure included within the SEQIPP (including the Cedar Grove Weir) as quickly as possible;
- (g) in the short term, the Cedar Grove Weir will meet drought contingency planning requirements and improve security of supply for Beaudesert Shire. The Weir will deliver around 11 ML of water per day of additional water to the rapidly growing urban areas around Beaudesert and represents stage one of the proposed upgrades to water storage infrastructure in the Logan River catchment. Construction of the Weir will establish a secure pumping pool to supply water for urban use within the Shire. In the longer term, and in conjunction with the Wyaralong Dam, the Weir could provide a significant boost to subregional supplies by being connected to the Southern Regional Water Pipeline;
- (h) the rapid residential and industrial growth forecast for Beaudesert Shire is essential to relieve pressure on land requirements on the Gold Coast and will play a major part in maintaining the continued economic prosperity of the region. Provision of a secure water supply for the Beaudesert Shire and surrounding communities will therefore have important social and economic benefits for both the immediate communities and the wider region;
- (i) the supply of water from the Cedar Grove Weir is consistent with current water planning information and the need for sustainable management and efficient use of water under s.10 of the Water Act. The Logan Water Resource Plan includes a strategic water reservation for allocation and use in relation to the Cedar Grove Weir. As a result, the use of the water for the purposes of the Cedar Grove Weir will necessarily be within the sustainable limits set by the resource management framework established by the Water Act;
- (j) the Logan Water Resource Plan came into effect in March 2007. The Plan is consistent with the SEQRWSS, SEQIPP and SEQRP. The new water infrastructure for the Logan Basin mentioned in the SEQRWSS must be consistent with the requirements established under the Logan Water Resource Plan;
- (k) up to 55,000 ML/a of additional water is provided under the Logan Water Resource Plan to support regional growth and still meet the objectives of the Plan. This water can be accessed by the construction of new infrastructure, including the Cedar Grove Weir;
- (l) the:
  - (i) effects of the severe drought being experienced in SEQ;
  - (ii) ongoing low levels of water within Maroon Dam and associated projected water shortages in Beaudesert Shire and surrounding communities;
  - (iii) importance of the forecast strong population growth and rapid industrial development within the Beaudesert Shire and surrounding communities

both for the local area and the wider SEQ region, and the need for a secure water supply to accommodate both of these phenomena;

- (iv) ability of the Cedar Grove Weir, as a key component of the Government's regional water supply strategy, to address these issues; and
- (v) focus on constructing and operating the proposed Weir in accordance with the tenets of sustainable management and efficient use of water and with the requirements of the Logan Water Resource Plan,

all combine to make the decision to use the powers under s.138(1) of the SDPWO Act (and to authorise QWI to exercise those powers on my behalf) for the Cedar Grove Weir vital, sensible and practical.

DATED this 23<sup>rd</sup> day of May 2007.

## Release of Regulatory Impact Statement – Changes to Adoption Fees

The Department of Child Safety is seeking public comment in relation to a proposal to amend the *Adoption of Children Regulation 1999*. The proposal will increase some adoption fees and will remove the fee for obtaining identifying information under the *Adoption of Children Act 1964*.

A Regulatory Impact Statement (RIS) has been prepared in accordance with the *Statutory Instruments Act 1992*. Consultation about the proposed changes to adoption fees will be undertaken through written responses to the RIS.

Persons who wish to comment on the proposed changes to adoption fees can obtain a copy of the RIS from the department's website at [www.childsafety.qld.gov.au](http://www.childsafety.qld.gov.au) or by telephoning (07) 3836 0452. Details on how to provide comments are included in the RIS.

The closing date for providing comments is **Friday 31 August 2007**.

#### **Heritage Register Proposal**

Under the provisions of s41 (4) b, *Queensland Heritage Act 1992*, the Heritage Council gives public notice that having considered the assessor's report it has decided to proceed with a proposal to remove the following place from the Heritage Register:-

**Yungaburra:** Residence, 14 Cedar Street. Lot 7 on RP703896. Parish of East Barron County of Nares.

The owner of the above places may within 20 business days, after notice of the decision, appeal to the Planning and Environment Court against the decision to proceed with the removal from the Heritage Register. An appeal may be made only on the basis that a place is of cultural heritage significance and satisfies the criteria for entry in the Register.

Please address all correspondence to the Heritage Council care of the Heritage Council Secretariat, Cultural Heritage, Environmental Protection Agency, PO Box 15155, CITY EAST, QLD 4002

Please note that all representations received by the Heritage Council in response to this advertisement are considered to be public information unless otherwise determined.

Dates of advertisement:  
Government Gazette: Friday 3 August 2007

HERITAGE COUNCIL - QUEENSLAND ENVIRONMENTAL  
PROTECTION AGENCY

### Heritage Register Proposal

Under the provisions of s35 (4) (b), *Queensland Heritage Act 1992*, the Heritage Council gives public notice that it proposes to enter in the Heritage Register on a permanent basis the following places:-

**Mount Coot-tha:** Mount Coot-tha Forest, Sir Samuel Griffith Drive. Lots 1 & 2 on RP20605; Lots 1 – 21 & 23 on RP20772; Lot 11 on RP42789; Lot 1 on RP868488; Lot 8 on RP203445; Lot 3 on SL5657; Lots 865-867 on S311380; Lots 942 – 944 on S311380; Lot 946 on S311352; Lots 1290 – 1294 on S31624; Lot 1079 on SL5015 and part of Sir Samuel Griffith Drive road reserve and other unnamed road reserves. Parish of Enoggera County of Stanley.

**Toowong:** Toowong Memorial Park, 65 Sylvan Road. Lot 100 on SP183599. Parish of Enoggera County of Stanley.

**Maryborough:** Original Maryborough Town Site bounded Russell, George, Alice and Palmer Streets and the Mary River. Lot 3 on M20329; Lot 1 on MCH5159; Lot 6 on M140913; Lots 1-6 & 13 on M140916; Lots 12-18 on M2045; Lot 9 on M20277; Lot 4 on M20321; Lot 20 on RP161705 and Lot 1 on M2063; Furber Street road reserve; part of Queen Street road reserve; part of George Street road reserve; part of Aldridge Street road reserve. The riverbank (on unallocated state land) extending along the riverfront boundaries of: Lot 6 on M140913; Lot 1 on MCH5159; and the section of Lot 3 on M20329 labelled Esplanade. Parish of Maryborough County of March.

The owner or any person may object to the permanent entry of the above places in the Heritage Register. Objections may be made only on the basis that a place is not of cultural heritage significance or does not satisfy the criteria for entry in the Register. Objections stating the detailed grounds must be lodged with the Heritage Council by close of business on 3 September 2007. If no objections are received then the place shall be permanently entered as of the close of the above advertising period. Objection forms pursuant to s.37 of the *Queensland Heritage Act 1992* can be down loaded from [www.epa.qld.gov.au](http://www.epa.qld.gov.au)

Please address all correspondence to the Heritage Council care of the Heritage Council Secretariat, Cultural Heritage, Environmental Protection Agency, PO Box 15155, CITY EAST, QLD 4002

Please note that all representations received by the Heritage Council in response to this advertisement are considered to be public information unless otherwise determined.

**NOTICE OF INTENTION TO RESUME**

**STATE DEVELOPMENT AND PUBLIC WORKS ORGANISATION ACT 1971  
ACQUISITION OF LAND ACT 1967**

File No: 3613LA

To: Domenico Trimboli (address unknown, who became a registered mortgagee of the land described in Schedule 1 of this Notice on 28 May 2007)

**NOTICE IS HEREBY GIVEN** under the *Acquisition of Land Act 1967*, that the Coordinator-General proposes under the *State Development and Public Works Organisation Act 1971* to take part of the land described in **Schedule 1** to this Notice, which is identified on the plan in **Schedule 2** to this Notice ("the Land").

The Southern Regional Water Pipeline ("the Project") is identified as a measure under Part 8 of the *Water Regulation 2002* to ensure the security of essential water supplies for the South East Queensland region. The Southern Regional Water Pipeline Company Pty Ltd is required to undertake certain works for the Project as a local body under the *State Development and Public Works Organisation Regulation 1999*. The Coordinator-General may take land for works to be undertaken by a local body. The Land is required for the purposes of the Project.

If you wish to object to the taking of the Land, you may do so by serving a written objection on the Coordinator-General at the address below on or before the close of business on 4 September 2007.

Address for service of notice of objection

The Coordinator-General  
PO Box 15009  
City East QLD 4002

Attention: Gwen Geritz, Senior Project Officer

The objection must state:

- (a) the grounds of the objection and the facts and circumstances relied on by you in support of those grounds; and
- (b) whether you wish to be heard in support of the grounds of the objection.

**Note:** Any matter pertaining to the amount or payment of compensation is not a ground of objection.

If you state in your objection that you wish to be heard in support of the grounds of your objection, you may appear before, and be heard by, the Coordinator-General or his delegate. You may appear at the hearing in person or be represented by counsel, solicitor or agent. Unless otherwise mutually agreed, the hearing is to be held at the Beenleigh State Development Centre, 96 George Street, BEENLEIGH QLD at 10.00 am on 12 September 2007.

The Coordinator-General is willing to negotiate with you to acquire the Land by agreement. However, if agreement cannot be reached, the Coordinator-General will be willing to negotiate with you as to the compensation to be paid for the taking of the Land and all consequential matters.

**Schedule 1**

**Land over which Coordinator-General intends to take**
