EDEN RITCHIE RECRUITMENT - focused on Accounting, Executive and Business Improvement Recruitment

The more things change, the more they remain the same.

This month Eden Ritchie Recruitment celebrates 11 years in business.

During that time many things have changed. However one thing that has remained the same is our dedication to providing the Queensland Government with exceptional service which creates exceptional results.

After 11 years in business one lesson we have learnt is not to change what we are good at!

QUEENSLAND GOVERNMENT VACANCIES GAZETTE

The Queensland Public Service is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants. The Queensland State Government's policy is to seek to retain skilled staff. Registered deployees who apply for an advertised job will be considered before other applicants. The symbol (h) appears next to vacancies where an exemption from this requirement applies. Deployees are to indicate in their application for the advertised job that they are registered with the Office of the Public Service Commissioner. The Queensland Public Service Commissioner is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants.

CONTINUOUS APPLICANT POOLS

A continuous applicant pool allows you to apply for jobs within an occupation where vacancies are regularly available. This means that agencies can 'dip' into the pool for suitable applicants as soon as they have a vacancy. You can submit or refresh your application at any time. If you are refreshing your application, make sure that you indicate this either on your email or, if sending by post, in a covering letter. In search results, continuous applicant pools can be identified by 'Ongoing' in the 'Closes' column of a search result.

Note: If a continuous applicant pool is closing, applicants will be notified two weeks prior to this date. Applications may be used for up to six months after the pool closes.

MULTI-AGENCY POOLS

Some Queensland Government agencies are on the lookout for people to fill similar jobs or occupations at the same time. Some of these jobs have a fixed closing date and others are ongoing (continuous applicant pools). With multi-agency pools, you only have to apply once to access job opportunities across participating agencies. Your application will then be able to be viewed and assessed by all the agencies in that pool - or, if you prefer, you can specify that you want to be considered only for particular agencies. Make sure you check the specific vacancy to find out how each pool works.

HOW TO APPLY

When you have found the job you would like to apply for.

1. You can phone for a copy of the information kit or you can download the documents from the Smart Jobs and Careers website at www.jobs.qld.gov.au. The information kit will include:
 - the position or job description detailing: background of the department or work area; roles and responsibilities, and selection criteria
 - a job information package, outlining the procedure for preparing and sending in your application, and
 - an application cover sheet.
2. Do your homework - research the agency to understand the background to the job.
3. Prepare your application. This should include your:
 - completed cover sheet (available on jobs online or in the kit mailed to you)
 - covering letter
 - resumé / curriculum vitae
 - names and contact details of (2) referees, and
 - responses to the selection criteria if required.
4. Mail or email your application (Details of where and how are available in either the job description or the job information package).

Check with the job vacancy contact person if you are unsure about how or where to submit your application or how many copies to send. Make sure you send your application by the closing date. If you don't, it may not be accepted. Once your application is received, you will usually be sent a written acknowledgement.

When applying for Continuous Applicant Pools, please check each vacancy for application instructions.

Queensland Competition Authority Act 1997
Sections 23 and 24**REFERRAL NOTICE**

The Gladstone Area Water Board's (GAWB) strategic water plan includes GAWB's contingent supply strategy. GAWB has selected a supply of water from the Fitzroy River as its preferred contingent supply. GAWB proposes to undertake preparatory expenditure to provide reasonable certainty that water can be sourced from the Fitzroy River within 24 months of agreed events (either drought or demand-led) that might trigger an augmentation.

As the Premier and the Treasurer of Queensland, we hereby refer under Section 23 of the *Queensland Competition Authority Act 1997* the declared government monopoly business activities of the GAWB to the Queensland Competition Authority (the Authority) for investigations regarding the appropriateness of the following pricing practices:

- (a) GAWB's recovery of proposed preparatory expenditure from existing and future customers, specifically having regard to:
 - (i) the prudence of GAWB's contingent source strategy, including selection of a supply from the Fitzroy River as the appropriate contingent source;
 - (ii) the level of efficient costs associated with the development of GAWB's contingent supply strategy that should be included in prices;
 - (iii) the timing of expenditures which are related to the implementation of the contingent supply strategy;
 - (iv) the means by which efficient costs of the contingent supply strategy should be included in prices for subsequent years;
- (b) GAWB's proposed criteria for triggering construction of the appropriate augmentation in the event of drought or unexpected additional demand; and
- (c) GAWB's proposed changes to pricing practices related to declared activities required to enable GAWB to recover its efficient costs of the system as appropriately augmented.

Under Section 24 of the *Queensland Competition Authority Act 1997*, we direct the Authority in relation to this referral to:

- consult with GAWB, GAWB's customers and other relevant stakeholders;
- with respect to matter (a) in the above referral, provide a Draft Report on the investigation within 120 days of receipt of this notice, with the Final Report to be provided within 60 days of the Draft Report;
- with respect to matter (b) in the above referral, provide a Draft Report on the investigation within 120 days of receiving notification of GAWB's proposed criteria for triggering implementation, with the Final Report to be provided within 60 days of the Draft Report;
- with respect to matter (c) in the above referral, provide a Draft Report on the investigation within 120 days of receiving notification of GAWB's proposed pricing practices, with the Final Report to be provided within 60 days of the Draft Report; and
- consult with the Queensland Water Commission in regard to any implications the findings of its investigations may have for pricing practices in South East Queensland.

The above timelines are subject to the receipt of information acceptable to the Authority and its consultants, any subsequent changes agreed to between the Authority and GAWB, and exclude nominated consultation periods. Ministers

are to be advised of any individual delay, other than a nominated consultation period, which extends the timeframe by more than 14 days and the cause of that delay.

The Authority may exercise all the powers under Part 3 and Part 6 of the *Queensland Competition Authority Act 1997*, consult with all parties considered relevant to the investigations and issue public notices of its investigations.

**Release of a Regulatory Impact Statement -
Integrated Planning Act 1997**

**State IDAS Code for the Assessment of Development
Applications for Telecommunications Facilities.**

It is proposed to introduce a state-wide code for the assessment of development applications for telecommunications facilities under the Integrated Development Assessment System (IDAS), which operates under the *Integrated Planning Act 1997*.

The State IDAS code aims to deliver a singular, state-wide approach to the assessment of telecommunications facilities that are not currently regulated under Commonwealth legislation. It is one of the mechanisms intended to facilitate the deployment of telecommunications infrastructure and ensure the adverse environmental and amenity impacts of telecommunications facilities are minimised, as well as providing certainty and consistency for local government, the community and telecommunications carriers.

A Regulatory Impact Statement (RIS) has been prepared in accordance with the *Statutory Instruments Act 1992*. Consultation about the proposed State IDAS code will be undertaken primarily in writing via responses to the RIS. Persons wishing to inspect and comment on the RIS can obtain copies via the Department's website at: www.enable.qld.gov.au or by telephoning 3224 4670. Details on how to provide feedback are included in the RIS. All comments must be submitted by 3 April 2007.
