QUEENSLAND GOVERNMENT VACANCIES GAZETTE

The Queensland Public Service is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants. The Queensland State Government's policy is to seek to retain skilled staff. Registered employees who apply for an advertised job will be considered before other applicants. The symbol (h) appears next to vacancies where an exemption from this requirement applies. Employees are to indicate in their application for the advertised job that they are registered with the Office of the Public Service Commissioner. The Queensland Public Service Commissioner is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants.

CONTINUOUS APPLICANT POOLS

A continuous applicant pool allows you to apply for jobs within an occupation where vacancies are regularly available. This means that agencies can 'dip' into the pool for suitable applicants as soon as they have a vacancy. You can submit or refresh your application at any time. If you are refreshing your application, make sure that you indicate this either on your email or, if sending by post, in a covering letter. In search results, continuous applicant pools can be identified by 'Ongoing' in the 'Closes' column of a search result.

Note: If a continuous applicant pool is closing, applicants will be notified two weeks prior to this date. Applications may be used for up to six months after the pool closes.

MULTI-AGENCY POOLS

Some Queensland Government agencies are on the lookout for people to fill similar jobs or occupations at the same time. Some of these jobs have a fixed closing date and others are ongoing (continuous applicant pools). With multi-agency pools, you only have to apply once to access job opportunities across participating agencies. Your application will then be able to be viewed and assessed by all the agencies in that pool - or, if you prefer, you can specify that you want to be considered only for particular agencies. Make sure you check the specific vacancy to find out how each pool works.

HOW TO APPLY

When you have found the job you would like to apply for.

1. You can phone for a copy of the information kit or you can download the documents from the Smart Jobs and Careers website at www.jobs.qld.gov.au. The information kit will include:
 - the position or job description detailing: background of the department or work area; roles and responsibilities, and selection criteria
 - a job information package, outlining the procedure for preparing and sending in your application, and
 - an application cover sheet.
2. Do your homework - research the agency to understand the background to the job.
3. Prepare your application. This should include your:
 - completed cover sheet (available on jobs online or in the kit mailed to you)
 - covering letter
 - resumé / curriculum vitae
 - names and contact details of (2) referees, and
 - responses to the selection criteria if required.
4. Mail or email your application (Details of where and how are available in either the job description or the job information package).

Check with the job vacancy contact person if you are unsure about how or where to submit your application or how many copies to send. Make sure you send your application by the closing date. If you don't, it may not be accepted. Once your application is received, you will usually be sent a written acknowledgement.

When applying for Continuous Applicant Pools, please check each vacancy for application instructions.

Regulatory impact statement for proposed regulations under the *Body Corporate and Community Management Act 1997*

The Department of Justice and Attorney-General is seeking public comment on proposed regulations under the *Body Corporate and Community Management Act 1997*.

The need for the regulations arises from the expiry of existing regulations made under the Act on 1 September 2008. It is proposed to remake, with enhancements, four expiring regulation modules (the Accommodation, Commercial, Small Schemes and Standard Modules) and a fees regulation. Subject to supporting amendments to the Act, a new Two-lot Schemes regulation module is also proposed.

The policy objective of the proposed regulations is to:

- provide flexible management processes and procedures to meet the needs of different types of community titles schemes
- set out fees payable for dispute resolution services provided under the Act.

Consultation about the proposed regulations will take place through the release of a RIS. The RIS is available at www.justice.qld.gov.au or by phoning 1800 060 119. Anyone may comment on the RIS. Details on how to provide comments are included in the RIS. The closing date for comments is **14 March 2008**.

Comment sought on changes to environmental laws Notice of preparation of Regulatory Impact Statement

The Queensland Government is urging public and business feedback on changes to the *Environmental Protection Regulation 1998*.

This regulation provides the main legislative tools for assessing and managing activities that cause point source pollution. These include industrial, commercial, mining, intensive animal and municipal operations. The current Regulation needs to be remade by January 2009.

As a result, the Environmental Protection Agency has taken the opportunity to look at changing the way these activities are regulated, to support the Government's priority of protecting the environment for a sustainable future. The new approach is based on evidence and the potential to cause environmental harm.

The objective of the new Regulation is to protect Queensland's unique environment from point source pollution while allowing ecologically sustainable development, by ensuring:

- effective regulation of environmentally relevant activities;
- effective regulation of environmental nuisance; and
- effective implementation of national agreements.

Effective means regulating in a manner that is both effective in protecting the environment and efficient in that it does so at least cost to regulators and regulated enterprises.

A Regulatory Impact Statement (RIS) has been prepared in accordance with the *Statutory Instruments Act 1992*. The RIS explains the policy proposals and examines the likely costs and benefits associated with the new Regulation.

While it is likely there will be fee increases for the bigger polluting industries, the fees will be less than in other States and the community will no longer have to subsidise the costs of environmental regulation.

Consultation about the review will be undertaken primarily in writing via responses to the RIS. Persons wishing to inspect and comment on the RIS can obtain copies via the Agency's website at: http://www.epa.qld.gov.au/about_the_epa/public_consultation or by telephoning 3225 1961.

Anyone can comment on the proposals. All comments must be submitted by 5pm on **Friday 28 March 2008**, as follows:
