## QUEENSLAND GOVERNMENT VACANCIES GAZETTE

The Queensland Public Service is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants. The Queensland State Government's policy is to seek to retain skilled staff. Registered deployees who apply for an advertised job will be considered before other applicants. The symbol (h) appears next to vacancies where an exemption from this requirement applies. Deployees are to indicate in their application for the advertised job that they are registered with the Office of the Public Service Commissioner. The Queensland Public Service Commissioner is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants.

### CONTINUOUS APPLICANT POOLS

A continuous applicant pool allows you to apply for jobs within an occupation where vacancies are regularly available. This means that agencies can 'dip' into the pool for suitable applicants as soon as they have a vacancy. You can submit or refresh your application at any time. If you are refreshing your application, make sure that you indicate this either on your email or, if sending by post, in a covering letter. In search results, continuous applicant pools can be identified by 'Ongoing' in the 'Closes' column of a search result.

Note: If a continuous applicant pool is closing, applicants will be notified two weeks prior to this date. Applications may be used for up to six months after the pool closes.

### MULTI-AGENCY POOLS

Some Queensland Government agencies are on the lookout for people to fill similar jobs or occupations at the same time. Some of these jobs have a fixed closing date and others are ongoing (continuous applicant pools). With multi-agency pools, you only have to apply once to access job opportunities across participating agencies. Your application will then be able to be viewed and assessed by all the agencies in that pool - or, if you prefer, you can specify that you want to be considered only for particular agencies. Make sure you check the specific vacancy to find out how each pool works.

### HOW TO APPLY

When you have found the job you would like to apply for.

1. You can phone for a copy of the information kit or you can download the documents from the Smart Jobs and Careers website at [www.jobs.qld.gov.au](http://www.jobs.qld.gov.au). The information kit will include:
  - the position or job description detailing: background of the department or work area; roles and responsibilities, and selection criteria
  - a job information package, outlining the procedure for preparing and sending in your application, and
  - an application cover sheet.
2. Do your homework - research the agency to understand the background to the job.
3. Prepare your application. This should include your:
  - completed cover sheet (available on jobs online or in the kit mailed to you)
  - covering letter
  - resumé / curriculum vitae
  - names and contact details of (2) referees, and
  - responses to the selection criteria if required.
4. Mail or email your application (Details of where and how are available in either the job description or the job information package).

Check with the job vacancy contact person if you are unsure about how or where to submit your application or how many copies to send. Make sure you send your application by the closing date. If you don't, it may not be accepted. Once your application is received, you will usually be sent a written acknowledgement.

When applying for Continuous Applicant Pools, please check each vacancy for application instructions.

Legal challenge to the registration of a political party that was obtained and maintained.

(4) The Respondent received another letter from TFP signed by the petitioner addressed to the Commissioner dated 29 August 2007 with further supporting evidence for the ASC review to look into. In that conduct of the ASC had contravened s11 and s12 conditions in relation to variation to applications where under a varied application would be treated as a new application.

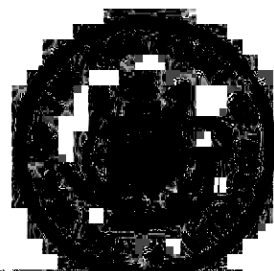

(5) The Respondent received another letter dated 27 September 2007 from TFP signed by petitioner addressed to the Commissioner seeking an answer to the appeal and further alerting him to the confusion that exists within the TFP members in Qld. TFP also alerted him to the incorrect cross referencing of duplicate membership who were all checked as TFP members.

(6) A Mr Kevin Bodel representative of the Respondent replied to that appeal through email on the same day 27 September 2007 with a standard reply of when the decision is made they will inform TFP.

(7) The petitioner on behalf of the party replied to Mr Bodel on the 3 October 2007 alerting him to the fact that the appeal is now a month old and time was running out to get into the Administrative Appeals Tribunal before the election eggs were scrapped at the November 24 2007 Federal election. He was also informed of a letter from Queensland Election's website under Mr Kevin Carpenter asking about the confusion with two "TFP" parties and their conflicting presence for voters to follow. [CEA 1913 s129 (p)]

(8) The Respondent received a further TFP letter signed by the petitioner addressed to the Commissioner dated 4 October 2007 alerting him to a public

which depicting confusion with the BUSINESS parties and asking him to sign the  
 [redacted] [CEA 1918-129 (6)]

(vii) The Respondent representative Mr Kevin Rodell informed the petitioner with  
 an email dated 15 October 2007 that a decision on the review appeal had been  
 made by the AEC but had to be signed by three Commissioners before becoming  
 official. [CEA 1918-141 (4)]

(viii) Having exhausted all avenues of appeal and review within the AEC framework  
 there was no alternative other than to apply to the next level of legal redress  
 being the Administrative Appeals Tribunal.

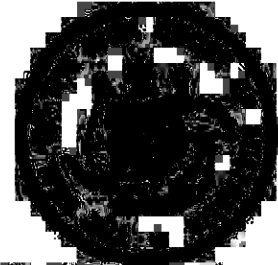

#### Findings:

(ix) The petitioner for the party now succeeded by unsatisfactory answers made  
 application to the Administrative Appeals Tribunal on the 15 October 2007 for an  
 urgent review of the AEC decision to register Australian fishing and lifestyle  
 tags. [CEA 1918-141 (5)]

(x) The AAT set down the first Directions hearing on the 29 October 2007  
 before Senior Member Hunt who issued an Order to the Respondent to provide  
 certain notices of Direction with and without advice on whether a reviewable  
 decision was made and to the Applicant to file further submissions to the above  
 matters before close of business now day Tuesday 30 October 2007

(xi) The AAT then set down the second Directions conference before Justice  
 Fambro for the following Friday 2 November 2007 to which an application from  
 AAT to be joined was also heard. Both the AEC and TFP objected to the joining  
 the AEC successfully argued that Section 127 of the CEAS 1918 had prohibition for

the AAT because the writ for the election had been issued even though IAT argued that section 127 only applied to parties that were at the nation of being registered rather than apply to parties already registered. Justice Lindholm adjourned proceedings on 6 & 8 February 2008 well after the election was scrambled and this meant that subsequently this period falls outside the 49 day election period concerning the return of the writ (writ returned on 19 December 2007). This meant that the pursuit to expose possible electoral fraud was frustrated by this ruling.

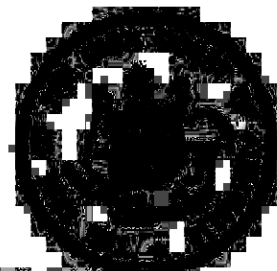

### **SUSTAINABLE FACTS OF ACTION WERE TAKEN IN SUPPORT OF PETITION**

#### **Particulars:**

(a) In further seeking a fair and honest election the petitioner tried to present evidence to the Federal Court before the November 24, 2007 election and so attempted to file an application to the AAT Federal Court on 13 November 2007 for leave by this petitioner where leave was sought for him to represent The Fishing Party and Mr Terry Charles also filed in person as a member of the party. After some deliberation and leave refused by IAT now known to be Dick J as indicated in Registry Email emails, the application was withdrawn.

(b) On 10 November 2007 a new application subsequent ACD13/2007 was applied by Mr Terry Charles (leave in person as the first applicant and the petitioner for The Fishing Party as second Applicant to the Federal Court seeking leave with party approval for this person Mr Robert Smith to represent for the second applicant.

(xxii) A hearing was set down, called at 6.30pm on 20 November 2007, for the morning of 21 November 2007, 9.15am in the AEC Federal Court before Spender J on orders that documents be served immediately that evening by the Applicants.

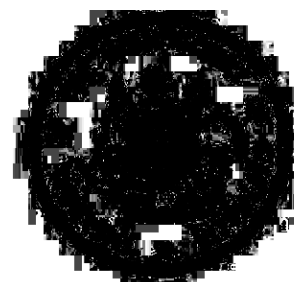

(xxiii) Unfortunately this petitioner Mr Robert Smith later that evening succumbed to a long day, severe case of viral gastro illness requiring medical attention and 3 day confinement which prevented him from any intervention in the proceedings or further documents being handed up. Unfortunately Mr Sharpley relied heavily on Mr Smith's evidence before Spender J, as can be seen in that AUSCRIPT transcript eventually properly transcribed from an 8 page document that document is an 18 page nearly accurate transcript.

(xxiv) Justice Spender made a judgment 21 November 2007 in TEP absence that ordered the Second Applicant to prosecute under Federal Court Order 4 Rule 14 meaning TEP was classified as a corporation so had to be represented by a solicitor and not this petitioner.

(xxv) An appeal application was lodged on 29 November 2007 against the orders of Spender J 21 November 2007, which included a party obligation for a Notice for Discovery to the AEC for the ADLP party application documents that would prove the "fraud/misrepresentation" claim with TEP being the name the first applicant again being denied leave of having this petitioner Mr Robert Smith allowed to access TEP so the lodged documents were held by the Registry as correspondence and not allowed to be filed. The application by Terry Sharpley had the court set down a directions hearing for 13 December 2007 which on request was brought forward 2 days for a hearing at 2.15pm on the 11 December 2007 before Flick J.

(xxvi) This petitioner on behalf of TEP before Flick J 11 December 2007 attempted to put the party case only succeeding to get his documents of Application NOM

beginning with the number 1 for their own group through to 79 in what ever  
candidate order of their groups choosing.

For a voter to have a valid Senate vote all that is required is to place the  
number 1 in a group box above the line and numbers.

For a voter to have a valid Senate vote for below the line the voter was  
required to mark in consecutive numbering a number to each candidate beginning  
with the number 1 through to 66 in Qld and in consecutive numbers beginning with  
the number 1 through to 79 for the NSW Senate.

The above the line groups especially the minded ones are known for doing  
preference swaps or deals which create preference flows that either enhance or  
reduce a group vote tally to reach the required Quota to become elected or  
excluded, so the preference flow is most important to parties who fail to gain the  
quota at first preference.

The inclusion or exclusion of above the line groups with their preference  
mark is critical in the Senate preference system for any group to achieve quota or  
deciding the Senate spot. Is there a remedy for unscrambling election Senate  
results if a group is removed from the election after the votes have been cast  
and counted?

#### REPLY FOR PART 2

WHEREFORE PETITIONER respectfully requests that this Queensland Judgment  
be made.

REPLY

The petitioner asks this Court of Disputed Returns to make the following orders:

1) Declare that the Australian Electoral Commission provide to the court for inspection by way of a court order subpoena pursuant to section 160 of the CEA 1918 (C10) sub (a) (b) 10 working days prior to a full judicial hearing of all the party application documents and correspondence of the application to register AFTP and in particular the 300 plus AEC appendix 1 Federal Registration of Party Member statutory signed party contract and numbered annexure duly signed by the IP as legal entity along with the duplicate copy, number and date of the original records for the payment of the \$500.00 application fee required for a new party.

2) Declare the above party registration of AFTP null and void if the court finds the legality of the membership supporting documents do not comply with the application requirements of the CEA 1918 Part 22 ie the 300 plus AEC appendix 1 Federal Registration of party members are not the supporting documents (declaration forms) legally required for that application.

3) That the court rule on whether there has been any breach of the Commonwealth Electoral Act 1918 as amended in the Electoral and Referendum Amendment (Electoral Integrity and Other Measures) Act 2006 by the Australian Electoral Commission with their decision to register Australian Fishing and Lifestyle Party.

4) In the event of the above being proven this court declare that the Australian Electoral Commission remove from the Register of Political Parties the political party so named Australian Fishing and Lifestyle Party by authority of section 127 (c) of the CEA 1918

5) In the event of the political party being removed what is the court's view on the validity of the half Senate Elections of the 21 November 2007 in NSW and Qld.

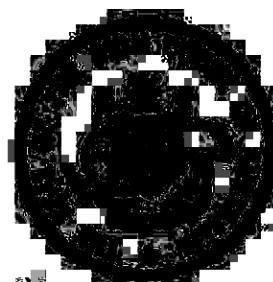

The Director will review all the contents of the reference and related papers and, after consulting with the staff and officers and the staff of the National Bureau of Investigation, the Commission and the Bureau of Investigation.

**Have your say on the State Coastal Management Plan review**

The Minister for Sustainability, Climate Change and Innovation, invites all interested parties to voice their concerns and offer suggestions regarding coastal management, planning and development issues during the review of the State Coastal Management Plan (the Coastal plan).

The Coastal plan is a statutory planning tool under the *Coastal Protection and Management Act 1995* (Coastal Act) and provides the laws and policies for all spheres of government and the community to manage Queensland's coastal zone and its resources. All uses of coastal resources and activities undertaken within the coastal zone are subject to the planning and management objectives outlined in the Coastal Act and reflected in the Coastal plan.

The purpose of the Coastal plan is to ensure that the range of cultural, social, economic and natural values of our coastal zones can be enjoyed, protected and managed in ways that achieve the best coastal management objectives. An effective plan is vital to us all, the health of the expansive coastal zone, and for the continuing enjoyment of future generations.

In accordance with a statutory requirement to review the Coastal plan within seven years of its commencement, the EPA must provide a completed analysis and suggested improvements to the Minister by February 2009.

The purpose of the review is to ensure the Coastal plan remains effective, consistent and valid as it addresses our evolving environments of planning, development assessment and management.

In addressing the plan's objectives, your views will help to—

- gauge the effectiveness of the plan and its policies
- see how and where the coastal planning system can be made simpler
- look at ways of removing duplications and inconsistencies between and within coastal and other statutory planning and management directives
- find the best means of effectively achieving coastal policies in integrated planning instruments and natural resource management programs
- investigate how greater certainty can be provided about where coastal dependent development should occur.

What makes you passionate about the coast? Are there risks and threats to what you value and enjoy in the coastal zone? Can we use and manage our precious coastal environments better? Is there a topic or scenario which has not been addressed in the Coastal plan so far which you feel needs to be raised? Your input will contribute to the development of effective coastal planning and management systems for Queensland, so have your say.

**Submissions close 31 March, 2008**

Further information about providing your input is available at [www.epa.qld.gov.au](http://www.epa.qld.gov.au). Follow the links to the State Coastal Management Plan review. Alternatively, a submission form *Have your say* can be obtained from your nearest EPA Regional Office. The forms have a reply paid address. No postage is required within Australia.

**DEPARTMENT OF PRIMARY INDUSTRIES & FISHERIES (DPI&F)****NOTICE****OUTCOMES OF THE MANAGEMENT PLAN REVIEW OF THE CORAL REEF FIN FISH FISHERY**

During October and November 2007, members of the public, commercial and recreational fishers, fishing groups and other interest groups were invited to provide written comment on three Review Papers reviewing fishing effort and catches of coral reef fin fish under the *Fisheries (Coral Reef Fin Fish) Management Plan 2003* (the Plan).

Review Paper 1: Review of the Average Annual Catch of Coral Reef Fin Fish

Review Paper 2: Review of the Catch of Other Coral Reef Fin Fish Species

Review Paper 3: Review of Charter Fishing Effort in the Coral Reef Fin Fish Fishery

The reviews were a requirement of the Plan which either specifies certain elements to be reviewed by specific dates (Paper 1) or triggers a review if changes in annual catches or fishing effort exceed a defined level (Papers 2 and 3).

**Review Outcomes:**

Following the review, DPI&F considers that the identified changes in catch or fishing effort in the Coral Reef Fin Fish Fishery are ecologically sustainable.
